LATE FROM TAMPICO. By the steamship, New Orleans, Capt. Auld, we received news from Tampico to the 9th inst. as contained in the letter which follows from our excellent correspondent, and in the Tampico Sentinel of the 8th August.

The Sentinel says that Tampico is healthy, safe and quiet. The vomito has not yet made its appearance in Tampico, which has usually been regarded heretofore as its favorite resort.

Death of Dr. Hawkins-Lt. Taneyhill Recovering-Another prisoner escaped, & in Tampi.

TAMPICO, Aug. 9, 1847. Eds. Delta-Dr. Hawkins, Senior Surgeon and Medical Director of this post, died on the evening of the 7th inst., after an illness of several days. For two or three days before his death he was supposed to be entirely out of danger, and on the morning of the 7th he was so far recovered that he left his room, and break. fasted quite heartily with Judge Capers. On the afternoon of the same day he suffered a severe relapse, and died in a few minutes after. A few moments after his death, the astounding cry of Yellow Fever was shouted through the city, and many were led to believe, by the frightful appearance of a few poor victims of distorted imaginations, that this loathsome disease had actually commenced its irresistible course in

It is now ascertained that Lt. Taneyhill is alive and fast recovering. He is yet at Tantayuca, in charge of the Alcade's brother, and received every kindness which the warmest hospitality can afford.

DREADFUL COLLISION AT SEA.

By the mail of yesterday we received the Boston papers of Monday and Tuesday, which furnish the particulars of the terrible loss of life incurred by passengers on board the Swedish barque Iduna, from coming in collision at sea with the ship Shanunga, of which we had a partial (though not entirely correct) account by Telegraph two days ago.

The Iduna was from Hamburg, bound for N. York, with two hundred and six persons on board. She was commanded by Capt. Arnest Andreas Moberg. About one o'clock in the morning of Monday, the 9th instant, in lat, 44° Guitar, Drawing, Painting, Worsted work and French, 25', lon. 58° 30', the weather being very foggy, she came in contact with the ship Shanunga, ingold gentleman in personal appearance. DR. LE ROYS

VEGETABLE UNIVERSAL PILLS. The only known Medicine that at the same time Purger,

Purities, and Strengthens the System.

Dr. Le Roys Piles have fortunately been introduced into the United States at a time when they will be found of peculiar value. It is known that persons going into new or foreign countries, are subject to great derangement in their digestive functions, and to a change-frequently fatal-of the whole economy of their systems. This mostly developes itself in lassitude and diarrhora, attended by headache and lowness of spirits. Dr. Le Roy's Pills may be depended on with the utmost confidence as a preventive of those disorders, and where they have already occurred, they will soon restore the patient to health. Other purgatives have no good effect but in relieving the body of its impurities, for they render it weak by the process through which they leave it clean. Dr Le Roy's Pills on the contrary cleanse, purify, and strengthen at the same time; and hence the results that they produce are cures, that may be called cures, which distinguishes them from perhaps all other Purgative Medicines whose cures are often as bad, and frequently worse than the disease. Speedy and powerful indeed is their effects on the human system. They at once compel the Heart and Liver, Chyle and Blood to the full and active discharge of their duties, the consequence of which, are a strong digestion, and regular motion of the bowels; and thus they secure health in all climates and latitudes, by keeping the entire working machinery of the frame in a state of action, energy, and strength, which cannot be affected by external causes. All emigrant ships from England to Australia, and other British Colonies, are abundantly supplied with these Pil's. " A couple of boxes of which" says the distinguished Dr. Collier, in a letter in the London Medical Times, of November, 1845. " is worth more in acclimating a ninn to a new country. than a year's residence on the soil." It need scarcely be added, that, persons going to Texas, Mexico, &c., should be sure to carry along with them a few boxes of these avaluable Pills. They will find them their best friend in need, for they will keep them strong, hearty, and full of hope and spirits, in defiance of lead water, indifferent food, change of climate, and the other evils of the same sort which travellers, and brief sojourners in new countries usually have to contend with. No soldier should leave for Mexico without baying a few boxes of Le Roy's Pills in his knapsack.
