

POETICAL.

THE MAGNETIC TELEGRAPH.

What mean the miles of gleaming wire
Stretching out afar o'er hill and plain
As if to string some massive lyre
To ring out Earth's redeeming strain?

To Professing Christians.

The following address to professing Christians, on total abstinence from intoxicating drinks, appeared in the British and Foreign Temperance Intelligencer. It is applicable to the Christians of America as to those of England.

Dear Brethren—Allow me affectionately to entreat your attention to the following truths and subsequent inferences: Drunkenness is a sin against Almighty God! It is a sin against a man's own soul!

AN APPROPRIATE SIGN.

There is a public house on the Richmond road called the WIDOW'S LAMENT. Blackwood's Magazine says that the number of paupers in Great Britain is FOUR MILLIONS, or a seventh part of the population of the Empire.

BUFFALO.

There are, on the Holy Sabbath, two hundred and fifty shops open, where alcoholic drinks are sold and drunk; and there are drinking and carousing in and around these ante-chambers of hell, over three thousand persons.

TREATING A CASE ACTIVELY.

BY JOHN JONES, M. D.

I was once sent for in great haste, to attend a gentleman of respectability, whose wife, a lady of intelligence and refinement, had discovered him in his room, lying senseless upon the floor.

No, Doctor, I ought to know about that, she said; depend upon it, that the disease is more deeply seated; I am sure he had better be bled; won't you bleed him, Doctor? A few ounces of blood taken from his arm may give life to the now stagnant circulation of blood in his veins.

By this time several friends and relatives, who had been sent for, arrived, and urged upon me the adoption of some more active measures for restoring the sick man to consciousness. One proposed mustard plasters all over his body, another a blister on his head, another his immersion in hot water.

But the delay, doctor, said the friends. No harm will result from it, be assured I replied. But my words did not assure them. However, as I was firm in my resolution, not to do anything more for the patient until Dr. S— came, they had to submit.

I looked into the face of Dr. S— with surprise. He was perfectly grave, and earnest. I hinted to him my doubt of the good that mode of treatment would do.

After we left, the friends stood anxiously around the bed upon which the sick man lay; but though the blister began to draw, no signs of returning consciousness showed themselves, further than an occasional low moan, or an uneasy tossing of the arms.

H—'s shorn head and was then removed. It had done good service. Dressings were then applied; repeated again; but still the sick man lay in a stupor.

What in the mischief's the matter! he at length said. At the same time feeling a strange sensation about his head, he placed his hand rather heavily thereon.

Mr. H— sank back upon the pillow from which he had arisen, and closed his eyes to think. He put his hand to his head and felt it tenderly all over from temple to temple, and nape to forehead!

H— shut his eyes and muttered something, with an air of impatience. But its meaning was not understood.

Both himself and friends were mortified and grieved at this; and they, by admonition, and by good resolutions, tried to bring about a reform. But to see was to taste and to fall.

Doctor S— was right in his mode of treating the disease, after all, and did not err in supposing that would reach the predisposition; the cure was effectual.

When Dr. S— came, we conversed aside a few minutes, and I gave him my views of the case, and stated what I had done and why I had done it.

Let it remain on for two hours, and then make use of the ordinary dressing, said Dr. S—. If he should not recover during the action of the blister, don't feel uneasy. Sensibility will be restored soon after.

I did not call again, but I heard from Dr. S— the result. After we left, the friends stood anxiously around the bed upon which the sick man lay; but though the blister began to draw, no signs of returning consciousness showed themselves.

NEW FIRM!

DRS. BROWN & JAMES. HAVING purchased the Drug Store formerly occupied by J. H. Ennis, would inform the public that they intend keeping at all times, a large and full assortment of

DR. LE ROY'S

VEGETABLE UNIVERSAL PILLS.

The startling drawback on nearly all Medicinal Agents has ever been that in their process of purification, they have also debilitated the system—Hence purgative medicines have always been regarded as at best but a necessary evil, patients resorting to them for the relief of one disease at the expense of another.

Dr. Le Roy's Pills in fact unite those heretofore irconcilable, but most desirable qualities, evacuation and invigoration for they are at the same time a strengthening purgative, and a purifying tonic.

State of North Carolina—Ashe County.

November Term, 1847. John Shearer and Daniel Green vs. William Shearer and others.

In this case it appearing to the satisfaction of the Court, that the defendant's William Shearer, John Norris and wife Lucy, Joel Reece and wife Fanny, Henry Cook and wife Aen, are not inhabitants of this State; it is therefore ordered by the Court, that publication be made for six weeks in the Carolina Watchman, for said defendants to appear at the next County Court, to be held for the County of Ashe, at the Court House in Jefferson, on the 4th Monday in February next, to appear, plead, answer, or judgment pro confesso will be taken, and the case set for hearing except.

NEW FIRM!

Just Received FALL & WINTER FASHIONS For 1847.

Just received of Mr. F. Moran, the LONDON, PARIS and PHILADELPHIA FASHIONS, for the FALL and WINTER of 1847, which far exceeds any thing of the kind heretofore published.

BRANDRETH'S PILLS.

This medicine is acknowledged to be one of the most valuable ever discovered, as a purifier of the blood and fluids. It is superior to Sarsaparilla, whether as a sordid or alternative. It stands midway before all the preparations or combinations of Mercury. Its purgative properties are those of irascible value—these pills may be taken daily for any period, and instead of a weakening by the cathartic effect, they add strength by taking away the cause of weakness.

THE SCIENTIFIC AMERICAN.

The "SCIENTIFIC AMERICAN," 125 Fulton st., New York, is published weekly, and contains the most valuable and interesting information in the world. It is published weekly in quarto, and is bound in the most durable and beautiful manner.
