It seems to me, however, expedient to make a general sale not only of this residue, but of all the other surveyed lands in that region, whether acquired under the treaties of 1817, 1819 or 1835, for cash, and that those unsurveyed should either be surveyed and disas other public lands. During its last winter term, the Supreme Court was deprived by death of the Honorable Joseph J. Daniel, an opright, useful and learned Judge, who had administered justice acceptably from our bench for more than thirty years. To fill the vacancy thereby occasioned, a temporary commission was granted, with the advice of the Council of the State, to the Honorable William H. Battle, of the Superior Court bench. And to supply the vacancy thus made, a like commission, with the advice of the council was granted to Augustus Moore, Esq. of

The Report of the President and Directors of the Literary Fund will acquaint you with the present state of the important interests committed to their charge. The loan office formerly connected with this Board, has been discontinned by delivering over to the Public Treasurer the bonds and judgments against individuals, held by it, as directed by the last Legislature, on his executing the bond of the State for the the aggregate amount, viz. \$40,360 55, cove. nanting to repay the same to the Board on demand, and the interest which may accrue on the 1st, of September in each year.

A contract has been made, for suitable Buildings in Raleigh, for the education of Deaf mutes and Blind persons; according to the act of the last Session, and these edifices are partially finished. The school for the instruction of Deaf mutes is still in successful operation and contains at present twenty five pupils. There has been great inattention on the part of almost all the Counties sending pupils to the provision of the Law, requiring them to contribute a part of their support and thus far almost the whole expense of the school has fallen on the Litera. ry Fund, to the curtailment of the distribution for Common Schools. This delinquency will require correction at the hands of the Legisla-

There was distributed among the several Counties for the support of the Common Schools in the year ending the 1st of September, 1847, the sum of \$101,775 00, and in the subsequent year, the sum of \$89,543 14, the diminution in the latter being chiefly caused by the withdraw. al of the amounts appropriated to the building already noticed. The nett annual income of this fund to be distributed for Common Schools will probably be not less than \$100,000; and it is worthy of your serious inquiry whether as a pre-requisite to receiving a quota in such divisions, each County shall not be required to have levied at least one half of a like amount for the benefit of her schools, by local taxation. At present, the law is construed as not imperative on this point, but permissive; and in many of them, nothing is collected in aid of the general fund, and the Schools, languish for want of adconate support. If there he any doubt on this as to the disposition made of her previous reecipts and the state of the Schools, and the edneational interests within her limits. There is now no sufficient accountability for the expentration of the system. Where it operates well, it is rather owing to the public spirit and enlightened labors of its administrators than to any legal obligation upon them. Our misfortone however is, that, in many situations we can obtain no knowledge of its operation at all. Not more than two thirds of the Counties, at the atmost, have reported its condition in them, in any one year; and a considerable number ville Observer, have never given any indication of its existence in them, except in drawing their shares in the distributions made from the Treasury. Gen'ral Cass, who is her Commander, Once 'stuck on a stump,' it is true, But then there can never be danger, When Polk is along with his crew.

A snug craft I'm sure you will find her, Her timbers substantial and strong, And Ritchie, the great organ-grinder, Will cheer you while gliding along.

'Pet Butler' will 'tend to the dishes, And serve up the delicate fare, And if you split open your britches, Old Marcy will pay for the tear.

This steamer is truly a beauty, Made 'to order,' over the sea, She's paid not a copper of duty, Sir Robert imported her free.

The river is said to be shoally, The channel not easy to find, And she must move onward quite slowly, With the 'Baltimore platform' behind.

But if, when you're weary with pushing, His face a vile Mexican shows, You can call for your Pillow and Cushing, And rest without caring for foes.

If ever your engine stops puffing; And you wish to start up a breeze, You must get John Calhoun to snuffing, And South Carolina will sneeze. Ye who liv'd in Uncle Sam's nest,

Be careful to do 'nothing rash,'

Remember to leave all the cash. Come, Whigs, then, let us bid them adieu, And pray they may never come back, And whilst the steamer's receding from view, We'll shout loud and long for OLD ZACK.

The great feature of Holden is, that, while being peculiarly American in sentiment and feeling, it gathers and embodies all the beauties of the French, English and American Periodicals, while discarding their follies and vices. A combination of the Encyclopedia, the Gazetteer, the Quarterly Review, and the Weekly Newspaper, it is yet separate and distinct from all, possessing enough of their various qualifications to commend itself See what the Press says of Holden

The literary contents are varied and interesting; the sketches of living American Poets and Divines cannot fail of giving the work a very popular character.
