Such are the bright And flitting visions that in dreams attend, Then vanish into gloom. For what is life? Its hopes and joys, but sweet vicissitudes. The present may be bright with dreams of blise, And still the future soon their darkness prove. Light dwells beneath the bosom of a cloud, And change the elemental world controls: Else earth had known no garniture of green, Thy sky no rainbow 'mid the raging storm. Were there no saddening tho't nor mournful theme, No strain of tenderness and grief to sweep The chords of feeling o'er, the heart had been Unmindful of its joy.

Hope, like a star Seen through some parting cloud, at time grows dim, Then brightens on the view; and joy from deeps ()f sorrow springs, as pleasure pain. Sense may The sorl appease, nor yet contentment bring. Soul that the past reviews-the present scans, And o'er the future wings a devious course. Such power nor kings nor conquerors dare to rule-As well attempt the universe to solve. As chain the spirit, and subdue the will. Spirit whose pinions with the lightnings sport Wand'ring amid the stars that hight us to

We found the depth of things By symbol tests and forms. A mystic sense May glance or smile obscure, and deeper still The inner man; as light and shadow on A changing day the moral of the soul. Auspicious aims the intellect engage, When moral might and mental vigor strike Harmonious tune to elevate the soul. Mind is the growth of every age and time, But eras bright its nobler efforts claim. With liberty it blooms, like a flower set In rich, propitious soil. Many a fount Of water ebbs, till time a channel wears; And everything in nature tends by law impelled -The law primordial on creation stamped.

GOOD NIGHT." [SUGGESTED BY AN ENGRAVING] Good night, fair girl! Nay! go not yet-We still would gaze a little while Upon those langhing eyes of jet, And on that gentle, speaking smile. A moment stay-replace that light,

The time may come-ah! will time set His signet on so smooth a brow ! Your heart would gladden to have met The dear ones that are round you now. These passing moments soon will seem

And say not yet, dear girl! good night.

The fleeting of a fairy dream. Yes! now you smile in happiness, And may it never know decline : Be that glad heart ne'er glad the less-Tho' hearts have broken, blithe as thine;

And girlhood's path with flowers is strewed That fade away in womanhood. Alas! it is not loveliness, Can shield from sorrow and from care: The sweetest features oft express

How much of sadness has been there. Long be that cheek by tears unstained, That brow by furrows unprofaned.

How strange a web life often weaves, With mingled threads of dark and gay ; Less changefully beneath the leaves The sunbeams and the shadows play, Each joy has its own sorrow near,

And every smile a sister tear. Well-these may be but dreams at best, May sleep bring brighter ones to thee! They cannot be more bright and blest

Than what we would the truth may be. And be thy slumbers calm and light, Till morning break -good night-good night.

ESTIMATED VALUE OF URINE AS A MANURE. - Profesnor Rodgers, in his excellent work on "Scientific Agriculture," has the following estimate of the value of urine as a manure, which we believe to be a very near approximation to the truth;

If we allow the quantity of urine voided by each individual to be 600 pounds yearly, the city of Rochester, which contains 20,000 inhabitants, would furnish yearly about 240 tons. This estimate, at the price of guano, would be worth 21,600. Now, if we estimate the number of horses and cows of the city to be 500 each, and that each animal voids as much urine as two persons, the amount would be 80,000 pounds, or 40 tons, which would be worth \$1600. Here then is a loss, if we reckon guano at \$40 per ton, of \$23,200, or of manure enough to produce, in addition to the ordinary crop, over 16,000 bushels of wheat in a single year. ECONOMIC MANAGEMENT OF URINE. - Decomposition is

went the escape of volatile matters; it has been proposed to add gypsum, sulphate of iron, or sulphuric acid, to the fermenting urine, in order to fix the autmonia; the mixture of vegetable mould with it has been also recommended as equally effective and more economical. Marsh mud and charcoal, or peat, would be equally perviceable as a fixer of the volatile gases of the urine. If the estimate of Prof. Rodgers be correct, then, as Baltimore has a postiation of 150,000, and it is to be presumed that the number of her cows and horses are correspondingly as large as those of Rochester, there is enough of the above liquid voided within her limits to produce -120,000 bashels of wheat; and carrying this calculation still farther-extending it to the population of the United States, say 20,000,000, if we assume the number of cows and horses as relatively great, then we have, in this article, the elements of the manure necessary to produce sixteen millions of bushels of wheat. And yet scafcely any of it is appropriated to such production, though Providence, in his wise dispensation, doubtless intended that nothing should be lost that could be converted into the uses of man.

The Census. - Appreheusion is expressed that the census will not be taken this year, on account of the delay of Congress to pass the necessary law.

une says; "I understand that the President has decided to give two of the three vacant Charge. ships to New Jersey and Connecticut. The two so to be given are the Hagne and Sardini. an. Gov. Pennington of New Jersey, and Lt. Gav. Chas. J. McCordy of Connecticat, will probably be nominated to their offices."

A pretty good case is to be made out of the idea that California is the golden Ophir. Ma ior Noah agues the matter thus

In estimating the amount of gold which was brought from Ophic, I find it stated in Kings I. chapter IV verse 28 that they came to Ophir and took from thence 420 talents of gold; but in Chronicles 8. v. 18, it s stated that they took 450 talents of gold. How do you account for this discrepancy, and where do you fix Ophic? The talents of Oohir and Jerusalem varied sulficiently to account for the difference ; or they may have taken 450 talents at Ophir and expended 30 in paying for the service of King Hiram's ship and crews. Anthhishop Usher calculates the silver tekle at 2. 6d sterling. and 100:000 talents of silver at that rate amounts to \$39 250 000, which being multiplied by twelve, the proportion of silver to gold, will give the sum of \$435 000 ppd. The whole expense of building and furnishing the Temple of Solomon, for which this gold was brought from Ophir, was \$238 477 368 sterling-more than the national debt of Great Britain. It Onlir was three years voyage from the Red Sea, it was not in Africa or the Indian Ocean which was within sixty days innrney. In the oldest maps of California, San Francisco is laid down as the " Golden Gate -," which is a Scriptural phrase. We can find no other fogation but California for Ophir.

From the Spirit of the Age. GOLD HILL, Feb. 57, 1850.

BRO. GORMAN: By request of the mem bers of the Gold Hill Division of the Sons of Temperance, we beg leave to express, through your columns, our sincere and grateful acknowledgment of the receipt of an exquisitly wrought, and beautiful "Token." on St. Valentine's day, from some unknown fair one, post marked Greensboro'.

We except it as a rich lewel, of more than golden value. Such testimonials of respect, the voluntary tribute, from female Purity and Worth, to the cause of Temperance, and like bright gems of sunlight -they are roses strewn in our pathway bereft of thorns.

They cheer and animate, and encourage us onward. They inspire us with increased confidence in a cause, ennobled by Woman's approving smile; -a cause, of which the friends of humanity may well powerful influence in promoting and elevating the social, intellectual and moral condition of man. Holding out the olive branch of peace-its motto, Purity, Fidelity, and Love-it extends its kindly aid to all: rescuing the wretched inebriate from a life of degradation and shame-from a death of infamy and dispair—and pouring in upon the suffering inmates of his desolate home, the sunbeams of hope joy and happiness.

In conclusion we venture to express the Long blood red hope, that the fair doner of the "Token" Early York Cabbage, ere long will become the bright and cherished being, whose affections shall en- Coates' Drumhead" twine around the heart, and endear the Large flat Dutch " home of some true and favored Son of Temperance; and may that favored one be selected from the brotherhood of Bachelors, who compose our own happy Divis-

MOFFATS

Life Pifls and Phonix Bitters. These Medicines have now been before the pub-lic for a period of FIFTEEN YEARS, and during that time have maintained a high character in almost every part of the globe for their extraor. dinary and immediate power of restoring perfect health to persons suffering under nearly every kind of deease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even rescue sufferers from the very verge of an untimely grave after all the deceptive nostrums of the day had ut terly failed; and to many thousands they have permanently secured that uniform enjoyment health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and apos which they consequently act. It was to the manifest and sensible action in purifying the spring and channels of life, and enduing them with renewed tone and vigor, that they were indebted for

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDI. CINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arenic, nor any other mineral, in any form whatever, They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination. The first operation is to loosen from the coats of

the stomach and bowels the various impunities and crudities constantly settling round them; and to remove the hardened faces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Costive. ness, with all its train of evils, or sudden Diarrhes with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death; and hence the prejudice of these well-informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES : to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach. courses freely through the veins, renews every part of the system, and triumphantly mounts the barner of health in the blooming cheek.

and

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infal

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-temper, Anxiety, Languor, and Melancholy, which are the gener symptoms of Dyspepsia, will vanish, as a natural

the intestines with a solvent process, and without violence: all violent purges leave the bowels costive Diarrhosa and Cholera, by removing the sharp acrid fluids by which these complaints are

Costiveness, by cleansing the whole length of

occasioned, and by promoting the lubricative secretion of the mucous membrane. Fevers of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LIFE MEDICINES have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints. Dropsies of all kinds, by freeing and strength-

delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL. Also Worms, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Asthma and Consumption, by relieving the

ening the kidneys and bladder: they operate most

air-vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces these dreadful diseases. Scurvy, Ulcers, and Inveterate Sores, by the perfect purity which these LIFE MEDI-

CINES give to the blood, and all the humors. Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions. The use of these Pills for a very short time will

effect an entire cure of SALT RHEUM, and a

striking improvement in the clearness of the skin-COMMON COLDS and INFLUENZA will always be cured by one dose, or by two even in the worst cases. PILES. As a remedy for this most discressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds inthis city, that the former proprietor of the value able Medicines was himself afflicted with this complaint for upwards of THIRTY-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica.

nounced not only improbable, but absolutely unpossible, by any human means.

He however at length tried the Medicipe which is

now offered to the public, and he was cured in a

very short time, after his recovery had been pro-

FEVER AND AGUE. For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease-a cure by these medicines is permanent-TRY THEM, BE SA-TISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints. General Debility, Loss of APPETITE, AND DISEASES OF FEMALES—these medicines have been used with the most beneficial results in cases of the description :- King's Evil, and Scrofula, in it worst forms, yields to the mild yet powerful action of these remarkable Medicines. NIGHT SWEATS NERVOUS DEBILITY, NERVOUS COMPLAINTS of all kinds, PALPITATION OF THE HEART, PAINTER'S Arch! Colic, are speedily cured.

Persons whose constitutions have become paired by the injudicious use of MERCURY, will find lipe, to eradicate from the system all the effects Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will

estimation of every patient.
