Cheves, R. W. Barnwell, John P. Richtitled an act to provide for the opening and ardson, Wade Hampton.—Cam. Journal.

REMEDY FOR ASTHMA.

An individual who had suffered much from asthma, and who has sought in vain relief from regular physicians, wishes us

to give publicity to the following remedy: " Procure common blotting paper, and thoroughly saturate it in a solution of nitre (saltpetre,) and let it be carefully dried by the fire, or by exposure to the rays of the sun. On retiring at night, ignite it, and deposite it burning, on a plate or square sheet of zinc or iron in your bedroom."

In many cases it is said, this has enabled persons painfully affected to enjoy their rest .- Maine Cultivator.

Hundreds of nights in the last five years, when the bitter pain widened the time in proportion as respiration became more dificult-hundreds of nights has the difficulty been lessened by a suspension of what seemed an almost interminable agony in the smoke of burning nitre. As a means of averting present suffering, the subscriber can reccomend, from his own experience, the use of saltpetre almost identically prepared as above. - Many times has he lain down in a smoke condensed seemingly to the smothering of a common healthy breather, and found relief from the worst suffering .- Hon. Isauc

CHICKENS.

A gentleman who has successively tried the experiment says, that with nests carefully and properly made, lined with cotton or wool, and new at each sitting, a hen will sit on 23 eggs, (fourteen at the bottom, and nine on the top.) and hatch out from 18 to 23 chickens, raising three broods in a season. It is time for some improvement in poultry raising, in this country. In England the chickens are brought to market double the size of those in the United States, and affording much greater profits to the farmers, who rear them as copons.—Newburyport Herald.

A Mr. Geo. Wright, formerly of the U. S. Army, has invented a machine capable of turning out 5,500 percussion caps an hour, all perfect and handsomely formed. This machine, which is described as being very simple in its construction, has been adopted by the Government, and the inventor intends exhibiting it at the World's Fair in London.

Steamboat disasters on the Western Waters.—The St. Louis Intelligencer of the 7th instant contains a list occupying upwards of two closely printed columns of steamboat disasters on the Western waters during the year just ended. The whole number of accidents sum up 124, of which 49 occurred from sinking, by striking snags and other obstructions in the river; 13 from collapsing flues; 9 from explosions; 8 from collisions; 14 from fire, and 26 from other causes. The number of boats lost sum up 53. Lives (as near as ascertained) 324, of which 8 were the result of collisions, 45 from collapsing 82 To incorporate Bertie manufacturing flues, 125 from explosions, and 156 from

The Washington Correspondent of the N. Y. Tribune says that the Swiss Government have forwarded a beautiful stone from the Alps, to be placed in the National Monument to Washington.
