Church would be if had men were knowingly admitted? Surely no good could result from receive a man until she believes him to have sincerely repeated, and affords unequivical assurances of his intention thenceforth to live a moral and pions life. These requisitions are indispensably necessary to the existance and prosperity of the Church, and no less so, to all associations that desire to live, and exert, over mankind, a salutary influence.

Do they not appear to be satisfied now, so far as morality and religion are concerned. Veri-Is such seemeth, in some cases, to be the fact. But further. In our former remarks we had no allosion to good Sons of Temperance : it is the had ones we complain of, and we blame the good ones for receiving and retaining the bad ones without taking efficient measures to effect their reformation. It is not enough that the

Our friend Beverlie, thinkthat we know nothing about the Sons, and that we are "stumbling in the dark." If this be so, we blame hun for it. As a good citizen, it is his imperative duty to enlighten our mind, and rescue us from an ignorance which involves our safety. But, as a good Son, he dare not. Space your vitoperations in the future, dear Beverlie, and do not blame us for stumbling in the dark, on a subject, upon which you are not allowed to enlighten us. In conclusion, Beverlie desires us to bring arguments, if we can, to show why a man should not be. come a Son of Temperance. CANDOR.

Mr Epiron :- In the Watchman of the 10th inst., I notice a communication on the subject of "Secret Sometics." The author appears to have, with great an Intelligencer against secret societies which is so me, and to himself, no doubt, so palacable that he man. Permit me to say before I touch upon some of the arguments off" Candor" that I am notes Son of been battling against the monster Intemperance for the last eighteen or twenty years.

I admit that I have been opposed to some of the fealates of the organization of the Sons of Temperance. I supposed that if may one should take upon himself the trouble of writing in opposition to such an organitation, that he might advance something like a solid argument; but "Candor" makes an admission near the that in all places, organizations of this character are reto believe that in some sections they are a blessing." Now, if such organizations, when properly conducted according to the "Constitution in its best features" are a blessing, why does not "Candor" enter himself, men that it is properly conducted. Is it possible for good men to oppose that which they know is productive of scientious opposition to that which is a blessing! Clergimen conscientionsly opposing that which is good, or which by their own efforts they could make beneficial to the community? The idea is preposterous.

But why should the Sons of Temperance be selected from among all the secret societies, and made to bear that is professedly what the Sons have in view; and a charitable disposition will award sincerity to profesone point in their reed, which every well wisher of the using generation must approve.

But " Candor Sobjects to it because all its members the not decided moral. This is an objection, and one which is to be lamented by all the friends of morality and good order. But is this objection peculiar to the aganization of the Sons of Temperance? Perhaps LINE WHITE. Candor is a member of the old Temperance Society. I hope he is. If not, I suppose he is, at least, favorable HOWELL, to Miss ELIZA HENDRICKS.

Taking it their for granted that he is a member of he pledge on account of immoral character? Did-he tejoyce to see such a character come forward and aniest a disposition to rid hunself of this one part of and that this step might lead to reformation in other the old Societies, was it not as well calculated to make bem proud and impudent as to admit them into a Di-Viting of the Sons? . If, not we must admit that the Sons are better and more honorable men than we.

Most of the Clergy in our State and many other proessional and honorable men are, or have been advotites of temperature societies, and it appears never to are entered their minds that encouraging all classes and sign the pledge, and live up to it, and thus stand on an equality with themselves this particular, would lead them into the fatal error therefore they were now "just good enough."thi they were fit for the kingdom of heaven. Why then should so much danger be apprehended

THE WRONG SPIRIT.

At the time that the people of Petersburg are straining every nerve to do their part in resuscitating the Raleigh and Gaston Road, it is most unfortunate that such produce a single case in which a young man ed "Franklin" in the Raleigh Standard
