

and put in operation again; and this is some of the first paper they have made. It is decidedly good paper; but we are assured by the proprietors that it is not as good as they will be able to make after a while. All their Machinery being new does not yet work as smoothly as it will after it has been used a month or two.

The first instalment, 10 per cent., on the subscriptions of Stock to the Raleigh and Gaston road, has been called for.

The International Magazine for November, is on our table. We have barely had time to glance at it; and its table of contents is so large that we cannot spare room for it. Each No. of this Magazine contains near 150 pages of matter. Many of its subjects are illustrated with fine wood cuts.

Carrying Bundles.—Many people have a contemptible fear of being seen to carry any bundle, however small, having the absurd idea that there is a social degradation in the act. The most trifling as well as weighty packages must be sent to them, no matter how much to the inconvenience of others. This arises from a low kind of pride. There is a pride that is higher; that arises from a consciousness of there being something in the individual not to be affected by such accidents—worth and weight of character.

True. How much better it is to carry one's own bundle and enjoy the pleasure of thinking "well now, this will save Sally a walk: She may continue her household without interruption," or again—"Sam is in the garden, I'll carry it myself. Why should I trouble him for every little trifle, as though my own hands were not made for use?"

We return our thanks to some unknown friend for a copy of the excellent address of R. Gorrell, Esq., delivered at the last Commencement of Davidson College.

We have had the pleasure of seeing, this week, Mr. Newsum of the Carolina Republican, and our nearer neighbor, Mr. Campbell, of the Concord Mercury. They are both looking well.

THE WHIGS OF GUILFORD.

The Whigs of Old Guilford, ever brave and true, have recently held a public meeting in which resolutions were passed favoring the re-election of Mr. Fillmore, and responding to the nomination of the Hon. Wm. A. Graham as the Whig Candidate for the Vice Presidency. The meeting also expressed the wish that a Whig State Convention be held in that town on the 3rd Monday in February next. We think there can be no objection in this region, either to the time or place; but on the contrary that both will prove as generally acceptable as can be expected. Let these notes of preparation for the next year's struggle catch the ear of every Whig. There is work to be done both for North Carolina and the Union; and the country expects every Whig to put on his harness and do his duty.

Raleigh and Gaston Road.—Mr. Bird, the Superintendent, was in this City on Saturday, and while here, received a despatch, stating that 700 bars of T iron, (and not U, as stated in the Petersburg papers,) which he had purchased at the North, had arrived at Garsyburg. Mr. B. immediately made arrangements, through the telegraph, by which the iron was probably delivered at Gaston, on Monday evening. We learn that it will be immediately laid, and so much of the road as the new iron will cover be put in thorough order. The cargo from Europe may be shortly expected, and the calculation consequently is, that it will not be many months before the whole Road will be "redeemed and regenerated." This efficiency speaks well for those into whose hands the Road has been committed.

We learn that there will be no cessation of the regular operations of the Road, and no detention, indeed, during the progress of its re-construction.—Rat. Reg.

The man that bet on the white chicken, when he saw the "bird" likely to be whipped, cried out "hurra, for the black chicken, as I said before!"

"Hurra, for the Union, as I said before!" cries the Raleigh Standard, after having done its best to tear the venerable old fabric to pieces! Even South Carolina has turned a deaf ear to the glowing Democratic sympathy of the Standard, left it to make its own excuses, and get out the best way it can.

The Standard said it did not approve the contemplated course of South Carolina. Such were its words, while its soul and spirit were irrepressibly exhibited on the side of the disunionists.—Greens. Pat.

The Journal says:—The Directors of the North Carolina Central Railroad have excluded the use of all ardent spirits from the hands laboring on their great work.—Messrs. Bland & Dano, contractors for the Stage route to the western portion of North Carolina, have determined to employ none but temperance men as drivers on their whole line. This tells well for North Carolina.—Greens. Patriot.

The co-operation majority, over the secessionists, in South Carolina, so far as heard from, is upwards of 8,000. The Mountain Banner well remarks that "it is an anomaly in the history of politics that a people should vote, by such a decisive majority, contrary to the almost unanimous voice of the press; and it shows that the people reflected for themselves and saw the ruinous consequences of separate State action."

John N. Long, who was convicted of passing counterfeit money, at the term of Superior Court held for Guilford last week, was sentenced to receive thirty-nine lashes, stand in the pillory one hour, and be imprisoned nine months;—the punishment of whipping and pillory was inflicted on Saturday evening.

Moses Deen, who was found guilty of negro stealing, appealed to the Supreme Court.

Telegraphed for the Charleston Courier.
