The Soldier's Story. It was in a stirring time of the Duke of Wellington's wars, after the French had retreated through Portugal and Barbados had fallen...

ther soldier, even after he had fallen a corpse across my path. But, oh! sir, what is all this compared with what I suffered as I watched life ebb slowly from the wound which I had myself so wantonly inflicted in the breast of a helpless, innocent child!

Cheap Fares.—The Hudson River Railroad, with a capital stock of \$12,000,000, has carried through passengers from its opening...

PROBATE OF DEEDS. We publish, by request, the act passed by the last General Assembly in relation to the probate of deeds, as follows:

CHAPTE CXXXIII. AN ACT Authorizing the Probate of all Deeds and Bills of Sale, requiring Registration, before the Clerks of the Courts of Pleas and Quarter Sessions at any time.

Where the Corn Comes From.—An English paper says: It is proved by the returns of the foreign corn trade in the last few years that a change is taking place in the principle sources of the supply of food.

Teeth Set on Edge.—All acid food and drinks, medicines, and tooth-washes and powders, are very injurious to the teeth. If a tooth is put in vinegar, lemon juice, or tartaric acid, in a few hours the enamel will be completely destroyed.

An Old Settlement.—At St. Louis, last week a young lady was prosecuted before Esquire Thredway for obtaining \$127 worth of goods from a young merchant under false pretences.

Who owns it?—A letter has been lying in the South Boston sub post office for some days, postmarked New York, and directed to the "handsomest girl in South Boston."

MONEY AN UNLAWFUL WEAPON.

The Memphis Eagle and Enquirer has the following: Rather a curious, and at the same time serious affair, occurred in this city a few nights since, the circumstances of which, as detailed to us, are as follows:

Coming home! Glad words! The waters dash upon the prow of the gallant vessel. She stands on the deck and the winds woo her ringlets as she looks anxiously for her headlands at home.

UNFORTUNATE ACCIDENT. Professor James R. Gilland met with a serious accident in this place on Saturday last, whilst he was engaged in Mr. Hart's shop giving him some directions about repairs to his carriage.

ROW IN AN ALMS HOUSE. A serious row occurred on Saturday evening in the alms house at York Pa. Mrs. Hursh, the Stewardess, having made some change in the lodgings of a portion of the paupers, she was attacked and severely beaten by them.

Model Wife.—An exchange, in a very eulogistic obituary of a lady, says:—"She was married twenty four years, and in all that time never once banged the door."

Drinking Healths. A German nobleman once paid a visit to Great Britain, when the practice of drinking healths was at its height.

COMING HOME.

Glad words! The waters dash upon the prow of the gallant vessel. She stands on the deck and the winds woo her ringlets as she looks anxiously for her headlands at home.

MOST SHAMEFUL MURDER.

The Carolina Spartan, of the 16th inst., says:—"On last Friday night, a man by the name of HENRY HAYNER, (as we have heard) was most inhumanly murdered, near Sandy Ford, in Spartanburg District, by some person or persons, yet unknown. The deceased had crossed the river (Enoree) late in the evening from Laurens, and camped, by himself, a mile or two this side of the river.

Mr. Hayner was from Lincoln county N. C. and leaves, we believe, several sisters who were dependent on him for support. He had about \$50 in cash when last seen, and for which it is supposed he was murdered. He was a sober young man, about 30 years of age, and had been engaged as a stiller for Mr. J. A. Caldwell, of the county above named.

Mr. Hayner was from Lincoln county N. C. and leaves, we believe, several sisters who were dependent on him for support.

HORRIBLE.

The N. Y. Star estimates that there are 2,200 "women of the town" in that city who openly live by impure lascivious practices, and that there are 40,000 sewing women, one half of whom are compelled to resort at times to similar misconduct to avoid starvation.

One of the Watchmen.—A "feller" coming home from California had a monster rattlesnake in a wicker cage, who he deposited with his other plunder under his bed, at Chagres. The room contained fifty beds—half full of drunk and sick "fellers"; during a temporary absence of the owner the snake got loose, and the owner coming in and finding his critter gone, yells out:—"Everlastin' misery! who's seen my watchman?"

Why my watchman? all my dust is under my bed, and I left a guard with it, but he is gone! "Guard?—was he a nigger or a white feller?" "No! he was a California rattlesnake—nine feet long, and fifty-two rattles on his tail. Have any of you fellers seen the eternal critter crawl in 'round here?" "No, they hadn't—but all able to get out of bed did so in a particular hurry, leaving the "ole feller" and his "guard" sole moving occupants of the room.

Negroes in Illinois.—A very rigid law has recently passed the legislature of Illinois, in pursuance of the requirements of the new constitution of that State. It provides that every negro or mulatto, bond or free, who shall come into the State and remain ten days with the evident intention of residing therein, shall be deemed guilty of high misdemeanor, and be fined fifty dollars; and if the fine is not paid forthwith, he or she is to be sold at public auction to any person who will pay the fine and costs for the shortest time—and the purchaser shall have the right to compel the negro or mulatto to work for and serve out such term.

The firemen of Philadelphia are preparing a block of marble for the Washington National Monument.

It is estimated that a cord of wood contains when green 1445 lbs. of water. So that a farmer who brings into market a cord of green wood, has no less load for his team than another who should put on the top of his cord of dry white oak, three-quarters of a cord of seasoned pine, or one hoghead and two barrels water.

DRINKING HEALTHS.

A German nobleman once paid a visit to Great Britain, when the practice of drinking healths was at its height. Whenever he went during a six months' tour, he found himself obliged to drink though ever so loth. He must pledge his host and hostess. He must drink with every one who would be civil to him, and with every one, too, who wished a convenient pretext for taking another glass.

Barnum's Lost Project.—A new project has been suggested by Barnum, which we should like to see tried. In a recent temperance speech made by him in New York, he stated that there were 7,000 grogshops in the city, with an average custom in each of probably \$10 a day. He made the following offer to the city, viz: If the city would shut up all the groggeries, and give him the amount spent in all of them, he would pay all the city taxes, amounting to \$1,000,000; send every child to a good school; present every family with a library of 100 good books, three barrels of flour, and a silk dress to every female old or young, and give every body a free ticket to his museum.

Silk Manufacture.—The quantity of silk annually consumed by women and balloons is so great, that it is really astonishing how worms and mulberry trees keep up the supply. According to the Paris Review there are, in France, no less than 120,000 looms for silk, of which the products amount to three hundred millions per annum. The fabrics of the sum yield about or nearly two thirds of the sum—a moiety of the whole is exported, three-fifths of the exports from Lyons, the United States consume the greater part.—Competition is formidable abroad, especially in Great Britain and Germany; but it was acknowledged at the great Exhibition that Lyons retained pre-eminence in designs and issues. The 70,000 looms of Lyons occupy 175,000 individuals; one-half of these are dispersed over a radius of from twenty to twenty-five leagues, the others are in the bosom of the city. There are three hundred manufacturing firms, embracing from four hundred and fifty to five hundred names. The average earning of the operative is 30 cents per day. Scientific American.

A California Diamond.—It is stated that a diamond, in the rough as large as a pigeon's egg, has been discovered in Tuolumne county, California, which is to be exhibited in Stockholm and San Francisco, and then brought to New York. A correspondent of the San Francisco Herald says it has been carefully and scientifically tested by Dr. F. Banks, a graduate of the Medical University of Louisiana, who pronounces it, beyond all doubt, to be a diamond of very rare purity. It is said to be larger than the Crown Diamond of England, which is valued at ten millions of dollars. This is rather too tough a story to believe without further evidence of its truth.

"The White Slave of England," is the title of a National Drama now being performed at the Broadway Theatre, New York, where it has a most successful run. It is emphatically an answer to "Uncle Tom's Cabin," now playing at the most of the Theatres in Great Britain. The comparison is drawn between the life of the White Slaves of the English underground Mines and the happy condition of the Slaves in the Southern States.

COL. WHEELER.—The Washington Correspondent of the New York Express says, Col. Wheeler, of North Carolina, will be the Sixth Auditor of the Treasury, after the 1st of April. This is the office now filled by Mr. Farely, of Pennsylvania, and formerly by Peter G. Washington. The salary, we believe, is \$1,500.
