### VALUABLE GOLD MINES and MILLS FOR SALE.

THE Subscriber offers for sale some VALUABLE GOLD MINES five miles north of Rutherfordton: In the tracts of land upon which veins have been opened there are about 850 Acres. Fifty or more shafts have been sunk, and some of the RICHEST PYRITES ORES have been taken out; ever found in North Carolina. The lands have an abundance of the finest timber affording wood upon the ground for tunnelling and for steam machinery and building. It is mostly woodland. The veins are believed to be extensive and of very great richness.

Attached to it is an excellent shoal on 2d Broad River, upon which there is a first rate Merchant Mill, Gold Mill, with Stamps, Amalgam barrels, large Furnace for roasting ores, and machinery of every kind necessary for the immediate working of the mines. The Mills are about two miles from the Veins with a first rate

road for hauling to them.

These mines, the Subscriber believes to be equal invalue to any ever found in this State. They have been worked only to a limited extent and very unskilfully.— Every facility will be afforded to persons desiring to examine them. The shafts have not been worked for two years: but the mill is in operation with a good custom and is in good repair. It is worked by Parker's Iron Submerged Re-action wheel, and has an ample supply of water. It has upon it good buildings for dwelling houses, offices, shops, &c., and a very slight expenditure latter Sessions of Philadelphia, on Monday, will fit every thing up for work. The subscriber believes fallraith was charged with an assault lieves that no better opportunity can be afforded for the investment of capital to those desirous to engage profitably in Gold Mining.

If not sold at private sale, the property will be sold at public sale at Rutherfordton on the 31st of May next-JOHN GRAY BYNUM. Rutherfordton, April 14, 1853.
