

**Agricultural.**

**POULTRY MANURE.**

This is the most valuable of the farm manures and is entitled to great care in its collection and use. Beyond the amount of water it contains, it is as valuable as guano, and therefore should never be sold by practical farmers to morocco dressers, at 25 cents per bushel. The poultry house should be kept clean with charcoal dust, when it can be had, so as to receive the hen manure made. The surface of this chamber should occasionally be raked or matted off to one corner, with a portion of the dung. This may be continued until the manure is required for use, when it should be well mixed with ten times its bulk of soil before being applied to crops. Where charcoal dust cannot be procured, well decomposed swamp muck, plaster of paris or even aluminous clay, may be frequently dusted over the floor of the poultry house to be mixed with this manure. The object of all this is to receive and retain the ammonia, so as to prevent its liberation from injuring the health of the inmates of the poultry house. All animals, man included, suffer from breathing the effluvia arising from their excreta, and this is particularly true of the feathered tribes. Their natural habits in the wild state cause them to pass through the upper strata of the atmosphere, and with such velocity as to readily rid themselves of the noxious gases given off the surface of their bodies, and to go beyond any deleterious influence from the fumes of their excreta. We should therefore, in poultry houses, make such arrangements as will prevent the poultry from inhaling these deleterious gases.

**HINTS TO FARMERS.**

Plants when drooping, are revived by a few grains of camphor.  
Tomatoes make excellent preserves.  
Toads are the best protection of cabbage against lice.  
Pears are generally improved by grafting on the mountain ash.  
Sulphur is valuable in preserving grapes &c. from insects.  
Lard never spoils in warm weather, if it is cooked enough in frying oil.  
In feeding with corn, 90 pounds, ground, goes as far as 100 in the kernel.  
Corn meal should never be ground very fine, it injures the richness of it.  
Turnips of small size have double the nutritious matter that large ones have.  
Cucumbers are the only root that increases in nutritious qualities as it increases in size.  
Olive oil is a certain cure for the bite of a snake. Apply it internally.  
Beetles and other vermin are kept away by sprinkling garlic when ploughing sheaves.  
Skillfully expended in drying land by cutting or otherwise, will be returned with ample interest.  
To cure scratches on a horse, wash the legs with warm soapuds, and with beef brine. Two applications will cure in the worst case.  
Timber when cut in the spring and exposed to the weather with the bark on, decays much sooner than if cut in the fall.  
Experiments show apples to be equal to potatoes to improve hogs, and decidedly preferable for feeding cattle.  
Wild onions may be destroyed by cultivating corn, plowing and leaving the field in its plowed state all the winter.

In pursuance of a previous notice, a respectable number of the farmers of Burke County, with other gentlemen who take a deep interest in the advancement of Agriculture, assembled in the Court House on the 26th ult. On motion, James Avery, Esq., was called to the chair; the object of the meeting was succinctly and clearly explained by Jas. C. Smyth, Esq. On motion of T. R. Caldwell, the chairman appointed Col. J. T. Avery, Jas. C. Smyth, W. W. Avery, Dr. J. A. Dickson, and T. G. Watson, a committee to draft and report a Constitution and By Laws for the Government of the Society. After retiring for a few moments the Committee reported through their Chairman, W. W. Avery, Esq., a Constitution and By Laws, which were unanimously adopted. On motion, John Rutherfordford was elected President, and James Avery and Jas. C. Smyth, Vice Presidents, J. J. Erwin Recording Secretary, J. G. Watson Corresponding Secretary, R. C. Pearson Treasurer, Dr. A. J. Dickson, Dr. W. L. McKee, Gen. C. M. Avery, Alex. Perkins, Arch. Gibbs, J. Corpeuing, Dr. J. C. McDowell, E. P. Glass, P. B. Forney, M. El rash, Jr., E. J. Erwin, and Col. Wm. Watson, an Executive Committee. Thirty one persons signed the articles of association. Moved and resolved that the proceedings of this meeting be published in the Asheville Spectator, and all other papers in favor of the prosperity of the Farmers, requested to copy.  
The society adjourned to meet on the 9th instant.

JNO. RUTHERFORD, President.

**LEATHER BANDS.**

THE subscriber has put up machinery for stretching, cementing and riveting bands with copper rivets. The bands are stretched with powerful machinery, made expressly for that purpose, and the difficulty of bands stretching and ripping under the common way of making them, is entirely removed by this process. Bands made in this way will hold their width evenly, run true, and will have a uniform bearing on the drum or pulley, and will give from 15 to 20 per cent. more power than those made in the ordinary way. They are made out of the best selected oak tanned Spanish Leather, and no pains will be spared to make them equal to the best Northern bands, and will be sold as low as they can be brought in New York.

**JOHN C. BAKER & CO'S Compound Fluid Extract of Sarsaparilla.**

THIS article is offered as a substitute for the many preparations put out under the same name, which are for the most part absolutely worthless, being entirely destitute of the active virtues of the root, and, by being prepared in an unskillful manner, and from inert materials, are highly injurious, and seriously impair the health of the patient.  
We have received numerous testimonials, expressing in the strongest terms, the great efficacy of this medicine, and its superiority over other preparations of Sarsaparilla.  
Physicians can prescribe it with the utmost confidence, relying upon its uniform strength, and that it is prepared from the best material.  
It has elicited from the most eminent of the Faculty who have employed it, frequent expressions of commendation at the unvarying success attending its administration, producing the most satisfactory and beneficial results.  
It is highly recommended for the removal and permanent cure of the following diseases, viz: Scrofula or King's Evil, Rheumatism, Syphilitic affections, Tetters, and Ulcers, White Swelling, Scurvy, Nouralgia or Tic-Douloureux, Cancer, Goutte or Rheumatism (twisted neck), Spine disease, Chronic disease of the Lungs, Jaundice, Hypertrophy or enlargement of the Heart, Palpitation or trembling in the region of the Heart and Stomach, enlargement of the Bones, Joints, or Ligaments.  
Also all the various diseases of the skin, such as Tetters, Ringworms, Bites, Pimples, Carbuncles, etc. Dyspepsia and Liver Complaint, various kinds of Dropsical Swellings, Constitutional Disorders, and diseases originating from an impure state of the blood and other fluids of the body. Sold by

A **HEBREW PLASTER** has been put up, and because a few more cents may be made by selling it, because it will improve the weather and upon their suffering fellow citizens. Without being so personal as to answer the question at the head of this card, we will only say that such men are among you! The same imitation is for sale in Salisbury! and other places. Beware of it!

**From every City or Town** where Jew Davids, or Hebrew Plaster, has been introduced, the most gratifying intelligence of its excellent effects have been received. In hundreds of instances it has triumphed after all other remedies had been used in vain.

**ETA VOICE FROM GEORGIA.**  
Read the following testimony from a Physician.  
GENTLEMEN—Your Hebrew Plaster has cured me of pains of which I have suffered for twelve years past. During this period I labored under an affliction of my lungs and side, and tried many remedies that my own medical experience suggested, but without obtaining relief. At length I used your Plaster, and am now by its good effects entirely cured. I will recommend the Jew David or Hebrew Plaster to all who are suffering from contraction of muscles, or permanent pains in the side or back.

The people of Georgia have but to become acquainted with its virtues when they will resort to it.  
Yours, truly, M. W. WALKER, M. D., Forsythe, Monroe County, Ga.  
To Messrs. Scovell & Mead, New Orleans, La.  
This article is a compound preparation, composed principally of vegetable oils, combined with a tenuous gum obtained from a tree found in the mountains of Italy. It was first discovered by a gentleman who was travelling for his health in 1830. Since its introduction, every other plaster, salve, or ointment, has been discarded as useless, by all who have had the pleasure of testing the superior virtues of Jew Davids or Hebrew Plaster for pains and weakness in the back, breast, side or limbs; bruises, sprains, &c.; and for asthmatic affections, will, in most cases, give immediate and permanent relief. It will also be found highly beneficial for complaints of the Liver, Lungs, and Kidneys.

THE Genuine is for sale only by the following authorized agents in North Carolina:

**NEW CARRIAGE SHOP, AT MT. ULLA.**

THE undersigned has prepared a Carriage Shop, in the town of Rowan county, and he is prepared to call public attention to the same. He is prepared to do all kinds of work in his line of business, in the very best manner, and on the most accommodating terms. He proposes to make a permanent establishment at the above stand, believing the public wants of that section of country require it. He hopes the citizens in the surrounding country who may need work, will give him a call before going elsewhere. He will possess some advantages over Carriage makers in the surrounding villages, and begs of the most public will avail themselves of the benefits of his shop.
