PURE JUICE OF THE GRAPE.

We hardly need to inform our readers that we are advocates of total abstinence from all intoxicating drinks, including even Ohio native wines...

The only manufacturer of this unfermented Catawba wine, that we know of as yet, is Charles J. Selmann, Esq., one of the most extensive grape culturists and wine makers of Cincinnati...

The principal agents for the sale of Mr. Selmann's wine in Cincinnati, are H. H. Southgate, J. D. Park and Allison Owen. Mr. S. resides at his farm and vineyards, about eight miles below the city...

The following certificate is appended to the label of the Sweet Catawba wine bottles: This is to certify that we have chemically examined Mr. C. A. Selmann's Sweet Catawba wine, and found the same to be the pure unfermented juice of the grape...

In the counties of Hancock, Chesterfield, Goodland, Powhatan, Cumberland, Fluvanna, Buckingham, Albemarle, Augusta, Appomattox, Amherst, Bedford, Roanoke, Prince Edward, Charlotte, Halifax, Greenville, Montgomery, Amelia, Dinwiddie, Nottoway, Henry, Pittsylvania, in Virginia or Guilford, Davidson, Rowan, Cabarrus, Mecklenburg, Rockingham, Warren, Granville, Iredell, Catawba and Caswell, in North Carolina...

My son take the jug and fetch me some beer. "Give me some money, then father." "My son, to get beer with money anybody can do that; but to get beer without money, that's a trick."

Holloway's Pills, a certain cure for derangements of the stomach and bowels, Liver Complaints, Loss of Appetite and Bilious Disorders. These Pills have a wonderful effect upon disorganized systems, acting immediately upon the fluids...

A Question of Color. A Mr. Pindell, of Boston, sued the city for damages because his boy was ejected from the public school on account of his color—that of a light mulatto—and directed to be sent to the colored schools. The question to be settled was whether the boy was sufficiently "colored" to come within the rule of the Supreme Court...

ARREST OF SPENCER D. ARMSTRONG.

The notorious Spencer D. Armstrong, who it will be recollected, some months since, made his escape from the Tarboro jail, where he was confined on a charge of murder, was recently arrested in Mobile for obtaining goods under false pretences...

At all events he is now safe in the Mobile jail, and we presume that Gov. Reid, if he has not already done so, make a requisition on the Governor of Alabama, so that he may be brought back to this State, and stand his trial for the crime wherewith he is charged.

Hogs.—At Cincinnati there are now some ten thousand hogs in pens. The feeling on the part of packers is dull and heavy. In that city there are some few orders to contract at \$4.25, but sales could not be made to any great extent it is said at that figure.

The Macon Journal of Wednesday states that considerable excitement was created in that place on Monday morning by the announcement that Samuel D. Sewell, book keeper in the agency of the Marine Bank, in that place, had absconded with \$19,000 of the funds of the institution.

Cabbage Worms.—The Charleston Mercury tells us that John Farrar, one of the most practical farmers in the State, says these destructive insects may be destroyed in the following easy and simple way: "Break off a large leaf from the bottom of the cabbage and place it on top, upper side down. Do this in the evening, and in the morning you will find near or quite all the worms on each cabbage have taken up their quarters on this leaf. Take off the leaf and kill them, or feed them to the chickens and place the leaf back if there be any to catch."

WEEVIL IN GRAIN.—HOW TO DESTROY. Weevil Editors.—I read an article in one of your numbers which spoke of keeping the shuck on corn in order to prevent the weevil. Keeping the shuck on the corn is the best mode of preserving the corn sweet and clean, and it also prevents the weevil; but wheat and other grain cannot be conveniently preserved in the shuck. I will give a method by which the weevil may be prevented from doing damage to wheat or other grain.

The Small Note Law.—The Legislature ought, as its next session, to repeal the law affixing a penalty to the passage of bills on banks out of the State under the denomination of \$5. The law is utterly disregarded, and it is nonsense to retain a law on our statute books which has by practice become totally inefficient and void.

Official Registry.—The N. Y. Journal of Commerce is engaged in exposing the rascality of the city's officers—and a black catalogue it is. Among other things it publishes a bid of Wm. H. Arthur & Co., who proposed to furnish stationery to the city government. He bid, among 94 other articles, for letter and cap papers as per samples, at one cent per ream, and then, by making a very slight variation from the sample, charged and was paid five dollars and fifty cents per ream.

The Alabama papers state that the Hon. James Abernethy, a Representative in Congress from that State, recently killed a man in Florida. The particulars are not given, but it appears that Mr. Abernethy was discharged after a judicial investigation; thus implying that the homicide was justifiable.
