LATEST BY TELEGRAPH

One Week Later from Europe.

ARRIVAL OF STEAMER CANADA.

HALIFAX, October 10.

The steamer Canada arrived here last night, with Liverpool dates of the 29th ult.

Cotton had declined ¼d., with sales of 30,000 bales. Breadstuffs unchanged.

The Bank had raised the rate of interest to 5 per cent.

From the Crimea Gortschakoff telegraphs that the allies had landed 30,000 men at Eupatoria to attack his flank.

The Russians were strongly fortifying the North side of Sebastopol.

The autumnal storms had commenced in the Crimea, attended with fearful gales and heavy rains.

The quotations of cotton are: Fair Orleans 6½d., middling 6¼d.; fair upland 6¾d., middling 5½d.

Flour was unchanged. Canal 39 a 42s. Ohio 42 a 44s. White wheat 12s. a 12s. 6d. Red 11s. a 11s. 9d. Yellow corn 40 a 42s. Sugar steady.

Coffee firm, and in good demand. Turpentine quiet. Rosin active. Provisions firm. Bacon advancing.

The following are the despatches relating to military events:

SEBASTOPOL, September 16.—The Russians are throwing up new batteries at the north side. The French are advancing troops towards Baksh-Serai. Sebastopol will be razed by the allies, and the basins filled.

Fearful tempests, with heavy rains, have set in. The allies are concentrating troops.

SEBASTOPOL, September 17.—The allies are constantly reconnoitering the west wing of the Russian army. Four hundred deserters, chiefly Poles, had come into the allied camp. They report that such was the demoralization of the Russians after the evacuation of the place, that the soldiers exhausted by for 24 hours without food. The Russian loss they estimated at 18,000.

The Russians were firing shells into the city from the north forts.

CRIMEA, September 22.—A body of the allies, recently landed at Eupatoria, attacked a force of Russian infantry. The latter retreated.

CRIMEA, September 23.—Prince Gortschakoff telegraphs that 20,000 allies have landed at Eupatoria, and that there are now 30,000 men on his flank.

On the 25th, 35,000 allies debouched from Eupatoria, and occupied the neighboring villages on the Russian flank.

It is telegraphed from Berlin that Gortschakoff will soon evacuate the north forts, but that the Russians are making great preparations for a winter campaign.

The Turkish garrison at Kars is nearly reduced to starvation, and were obliged to eat their horses.

Austria still occupies a mediatory attitude.

Pennsylvania Election.

PHILADELPHIA, October 10

The Democratic ticket in the city is elected by 1,000 to 2,500 majority. Berks county gives 4,000 Democratic majority, Montour 1,400, Cumberland 800, &c. There is little doubt that the Democrats have carried the State.

Ohio Election.

COLUMBUS, Friday, October 10.

Returns from six counties show considerable gains for Chase, Republican, for Governor.

Columbia Market.

Report for week ending October 13.

BACON.—Country, 14 a 15 for hog round; sides 14 a 15; and hams 14 a 17c per lb., according to quality.

CORN.—75 cents per bushel.

OATS.—45 a 50 cents per bushel.

PEAS.—65 a 70 cents per bushel.

FLOUR.—$7½ for common to good brands; fine family flour $8 per bbl.

FODDER.—87½ cents a $1 per 100 lbs.

BALTIMORE, October 11.—There was quite an active movement to-day again in flour, and prices further advanced with large sales. Shippers bought freely. The receipts are fair, but the supply much reduced. What has also advanced. Shippers and millers bought freely. We note also an advance in corn.

NEW YORK, October 11, noon.—The flour market is dull and inactive. Sales of straight State at $8.81½; good Ohio $8.81½, and Southern $9.50.

Frost and Ice.—Since our last issue we have had several heavy frosts, and one morning the mercury was below 32, and there was ice.

The North Carolina Synod of the Presbyterian Church, will commence its annual sessions at Greensboro', on the 31st instant.

The Newport (Ky.) News, at the suggestion of a number of prominent slaveholders in that State, proposes that a convention be held in Frankfort, to devise a plan for the gradual abolition of slavery in Kentucky.

The Kansas Legislature has passed a law exempting slaves from execution.

The Democrats of Baltimore have carried the Municipal election by 1936. The American party has fallen off about 2,500 since last election, and there has been a democratic gain of several hundred.

The latest accounts we have from Ohio, leaves it probable that Chase is elected Governor.

We learn from the Chester Standard that on last Saturday night, a man by the name of Bradley was murdered with an axe, by a Mr. Williams, about four miles above Chesterville. It appears that the parties were North Carolina waggoners, travelling together; that Williams had been drinking for several days; that on the evening of the occurrence, he and deceased, with a son of his and two of deceased's, were encamped together; that Williams rose in the night, and while Bradley was sleeping, clove his head asunder in two places; and that he then fled and made his escape. It is supposed that he was in a fit of *delirium tremens*.

A coroner's inquest was held over the body by Giles J. Patterson, Esq., and a verdict returned in accordance with these facts. Mr. Williams has been arrested and lodged in York jail.—*Unionville Journal.*

Kansas Election.

ST. LOUIS, October 6.

The returns of the Kansas election for Congressional delegate come to hand slowly.—Atchison county and Leavenworth city have voted for Whitfield, the pro-slavery candidate. Partial returns from Doniphan county all go for Whitfield.

Indian Battle.

CHICAGO, October 5.

A letter in the St. Peters' (Minnesota) Courier, dated Northern West Post, Redwood, states that a desperate battle was fought on the 21st ult., between the Chippewa and Sioux Indians, in which 77 Sioux were killed and wounded. Only 4 Chippewas were killed.

Loss of a Ship on Hatteras.

PHILADELPHIA, October 6.

The schooner Cerro Gordo, Captain Shaw, at this port from Ocracoke, N. C., reports that on the 29th ult., at 3 p. m., off Ocracoke, saw a large ship tack for the southward, and at half past 3 o'clock p. m. tacked again, and stood for the northward, during a gale from the eastward, and soon after struck off Hatteras Bar. She was a heavy ship, with all sail set, with white bulwarks inside, and black outside, with a white streak. Three of her boats were observed to capsize, and all in them were drowned, and during the night the vessel went to pieces.

The Difficulties with Denmark.

WASHINGTON, Oct. 11.

It is stated here that a messenger has been sent by the Government to our Charge at Copenhagen, which will effectually prevent any difficulty with Denmark in regard to the Sound dues.

Kansas Election.

ST. LOUIS, Oct. 6.

We have further election returns from Kansas. Atchison county had given 130 votes, all for Whitfield. In Leavenworth city Whitfield had not quite no opposition. Partial returns from Doniphan county show 35 votes for Whitfield and none for Reeder.

Santa Anna in Washington.

WASHINGTON, Oct. 9.

There is little or no doubt that Santa Anna has been in the city for several days past, privately quartered at the house of Gen. Almonte.

It is probable that a successor will be appointed to Worrell, the Consul at Matanzas.

Secret Hot Room.—A young gentleman of Augusta, Georgia, having experienced sensations heat to the "the perfect institution," and given his experience at one meeting in general to the atmosphere of Massachusetts that evening, was ordered out of the city on Friday last, and was escorted to the cars on Saturday by a large company of our citizens. In consequence of his youth and weak head, no violent measures were resorted to, the people only demanding that he should make tracks Northward. We are informed that he stated that there were twenty others of the same sort in Macon; and if the statement be true, we hope it will not be long before they are all drummed out of town to the tune of the Rogue's March. Griffin is represented to be a crack brained creature, and the proper asylum for all such lunatics is north of Mason and Dixon's line.

Macon (Georgia) Telegraph.

"LET HIM THAT IS WITHOUT SIN CAST THE FIRST STONE."—The Abolition Society of Boston lately invited Senator Butler, of South Carolina, to deliver an address before them on the subject of Slavery. The Senator accepts the invitation, and takes occasion to favor the Society, in advance, with a synopsis of his lecture. The skeleton can scarcely be regarded as a very pleasing apparition by Abolitionists. A Northern contemporary confesses that "the letter contains as much truth in a small space as anything that we have encountered for some time."

Baltimore American.

Dried Fruit.

The drought is very extensive through the country. In the upper districts water and other mills can scarcely do any work. On the South Carolina Railroad, the freight trains are delayed and embarrassed from want of water.—*Columbia Carolinian.*

Three monster sloths have been landed at Woolwich, having each the following dimensions: diameter, 3 feet 2 inches; weight, 1 ton 6 cwt. They are the first of a species of that species which had been ordered for the purpose of being despatched to Sebastopol for the reduction of that fortress. An experimental gun has likewise been landed at Liverpool, for projecting the enormous missiles, weighing no less than 2000 lbs.

Prof. Emmons, the State Geologist of New York has traced in the valley of Altamont, for a distance of two and a half miles, a bed of iron ore. He says there might be procured within two feet of the surface seventy million tons of ore, which would make three million tons of superior iron.

QUERY TO LADIES.—When Louis Napoleon boards the fence can the act be called a sample of paper muslin?

The Pope is suffering from an incurable disease, and it is said Louis Napoleon has his eye upon the Papal chair for his cousin, Lucien Bonaparte, son of Charles Louis Bonaparte, who is to be made a Cardinal.

THE "KING OF THE PUMPKINS."—A curious custom prevails in Paris of annually proclaiming the "king of the pumpkins," and of making a solemn procession in honor of the largest vegetable of the species which can be discovered. The "king" of the present year was grown at St. Maude, and weighed 348 pounds, being a little less than seven feet in circumference.

Aluminum.—M. Roby, of Paris, deposited in the great Exhibition, at Paris, on the 22d August, where it was inspected by the Queen and Prince Albert, a time-piece made entirely of the metal of clay. All the works, plates, cogs and wheels are made of aluminum, and M. Roby believes that its much better for these purposes than the metals generally employed. It is much lighter, does not require so much power to conduct the wheels, and therefore, with a heavy balance, will obtain a better result of regularity.—It is very hard and smooth when hammered, and the friction will be reduced to almost nothing.

Apples were never so low in price in New York markets as they are now. A very fair fall pippin is selling at the rate of one dollar per bushel, and at wholesale at one dollar and a half to two dollars a barrel.

HOW TO PROSPER IN BUSINESS.—Be not afraid to work with your hands, and diligently, too. "A cat in gloves catches no mice." Attend to your own business, and never trust it to another.

Out of the War to Turkey.—It is stated that the war has already imposed upon Turkey expenses to the amount of over 300,000,000 francs; of which 220,000,000 had been met from its own resources, and 80,000,000 would be provided for by the new load, guaranteed by the Western powers.

Runaway---$15 Reward.

RANAWAY from the subscriber on Sunday, the 7th inst., BOB (or Robert) HITMAN, *alias* Bob File, *alias* Linn. This fellow is a dark mulatto, aged about 25 years. He is free-born, but a slave at this time by virtue of a bond for the redemption of Court charges. He owes me nearly four years service. He had on when he left, a woollen shirt, a dark broadcloth frock coat and a broad brim white hat. He was once whipped at the Whipping Post, and bears the marks. I will give the above reward for his apprehension and delivery to me, or for his confinement in some jail so that I get him again. Letters addressed to me at Mount Pleasant, Cabarrus county, N. C.," will receive attention.

Western Carolina MALE ACADEMY.

Mount Pleasant Cabarrus Co., N. C.

Winter Session, 1855-'56.

Rev. WM. GERHARDT, Principal.

——— Assistant.

THIS Institution is located in one of the most fertile, healthy and moral sections of Western North Carolina, and removed from the temptations incident to youth in cities and large towns. Though but recently established, yet the entire satisfaction, and the very flattering notice of the public, as to the abilities of its Principal, and the rapid progress of the pupils under his care, bespeak for the Institution, an extensive patronage.

The scholastic year consists of 42 weeks, divided into a Winter session of 25 weeks, commencing on the third Thursday of April and September.

The strictest attention will be paid both to the intellectual and moral education of the pupils. The government will be mild and parental, yet firm and decided.

There are two Departments,—Preparatory and Academic. The latter is divided into three classes or Divisions, embracing a three years' course, viz: Primary Division, Progressive Division, and Advanced Division. The whole course of instruction in these Departments embraces nearly all the Branches usually taught in Colleges.

RATES OF TUITION, &c.

The common English Branches embracing Reading, Writing, Orthography, Arithmetic, and Geography.—Winter session, $12.00—Summer session, $8.000.

The same, with all the remaining Studies of the Preparatory Department, embracing English Grammar, History of N. Carolina, Wide's or History of the U. States, Grimshaw's Latin Grammar and Greek Grammar,—Winter session, $14.00—Summer session, $10.00.

Academic Department, embracing the Mathematics, Natural Sciences and Classics—Winter session $17.00—Summer session, $13.00.

For the German, French and Hebrew, extra charges will be made.

Tuition invariably in advance.

No student will be received for a less time, or charged for less than half a session. The Academic Edifice, is a substantial three story brick building, containing a commodious chapel, several recitation rooms, two Society Halls, and a number of rooms sufficient to accommodate at least 50 students. These rooms are all neat, well ventilated, and in all respects comfortable and convenient.

Boarding has heretofore ranged from 6 to $8 per month. Several large boarding houses are now in process of erection, and it is designed to furnish boarding as low as possible. A reduction in the price of board will be made to students furnishing their own rooms.

The Winter Session will commence on Thursday the 25th of October next.
