...ed to commit suicide at Newark, New Jersey, on Sunday, by taking a large dose of laudanum, which rendered him insensible. The Newark Advertiser says:

A physician was called, who decided that the only means of restoring animation was to give the subject a severe beating, which was done by two men with heavy switches for a quarter of an hour, when signs of a returning animation were shown, and the patient sat up. A glass of brandy was then given him, when he fell to sleep, and the beating process was resumed until he was fully restored to consciousness. He is now comparatively well, except some suffering from the bruises received from the extraordinary "course of sprouts" to which he was subjected. This is the first case we ever heard of where a man was whipped to life from a state bordering on death.—Cases of whipping to death occasionally occur, but cases of whipping to life seldom or never.

Look Out for a Change of Fashion.—A letter from Paris says: "At present there is at the imperial court an organized crusade against the small bonnets now worn by the ladies. It is wished to give them a circumference more in harmony with that of the crinolines. This is why some of the guests have appeared in velvet hats with large brims, in the English style, called *chapeaux de l'alliance*."

The Nerves of Horses Impaired by Railways.—M. Alexander Aumont, the Napoleon of the French turf, has brought an action against a French railway company, whose line crosses his celebrated private race field and stables at Chantilly, laying his damages at $10,000. He alleges the passage of railway trains destroys the nerves of race horses. His stock of blooded horses is advertised to be sold at auction; this, however, is the third or fourth time they have been sold at auction, and he will, doubtless, buy them all in, as he has hitherto done. The railway company offers him $6,000.

Profitable Venture.—One day last week a gentleman of New Smyrna, Florida, arrived at Charleston, S. C., with 20,000 oranges, which he disposed of at $40 per thousand. These oranges were raised by his own labor, unassisted by any one, and from an orchard of trees only four years old. St. Augustine was formerly celebrated for the abundance of oranges grown in its vicinity, but a few years ago a severe frost killed nearly all the trees, so that the raising of this luscious fruit has been confined to places in the more southern part of the State.

South Carolina Maids and Widows of the Olden Time.—In turning over the leaves of a very delightful book, lately published, our eye chanced to fall on the following petition, signed by sixteen maids of Charleston, and presented to the Governor of that province on March 1, 1733.

To His Excellency Gov. Johnson:

The humble petition of all the Maids whose names are underwritten:

Whereas, We the humble petitioners, are at present in a very *melancholy* disposition of mind, considering how all the bachelors are blindly captivated by widows, and our youthful charms thereby neglected: the consequence of this our request is, that your Excellency will for the future, order that no widow shall for the future presume to marry any young man till the maids are provided for; or else to pay each of them a fine for satisfaction for invading our liberties; and likewise a fine to be laid on all such bachelors as shall be married to widows.

The general inclination of the ladies is, that the widows have their reward or fingers cut off, that they may not have the power to use their arts to our detriment.

This is humbly submitted to your Excellency, as what we conceive highly necessary for us who expect to be your humble petitioners, &c.

And we your petitioners, as in duty bound, will ever pray.

P. S. We beg the widow Hext may not have the least benefit by this our petition, for we do not think it proper she should be provided for, since she has been married already.

Ventilation.—Let the air enter the house freely by a large aperture, like a common window, and capable of regulation in the same way. Let it enter a stove room, and be there completely warmed, and then let it pass freely through the whole house, and enter all the apartments either at the doors or express channels. Take off the used air by the chimney, and an open fire; or, for crowds, provide larger and express openings; there is no more to be done. Houses that we have seen ventilated in this simple, unpretending, unmysterious manner, are the best ventilated we have ever entered. It is too often the fate of the mysterious little pipes, funnels, tubes and valves, by which ventilation is frequently symbolized, rather to indicate ventilation than to effect it.

Illustrations of the Theory of Ventilation.

Interesting from Central America.—It appears by advices from Costa Rica to the 26th ult., that President Mora has consented to act for another term of three years, and that an extraordinary credit of $100,000 has been voted him for the current year. All the war bonds issued during the struggle against Walker were to be paid in national money. Congress had voted a sum of $75,000 in order to carry on the next campaign against Gen. Walker, and a special envoy had been sent to Peru and Chili in order to perfect the allied league. The American brig *Dover* had been bought for war purposes. There were eight vessels at La Union for the purpose of conveying two thousand Guatemalan soldiers to Nicaragua, and eight hundred men from San Salvador were embarking at Realejo for the same destination.

Fatal Railroad Accident.—Alexander Wareham, Esq., aged about twenty-five years, and draftsman for the North-western Virginia Railroad Company, was killed at Grafton, the junction of that road with the Baltimore and Ohio, on Wednesday last. He was upon a train about leaving for Clarksburg, when, perceiving the necessity of attaching other cars, he thoughtlessly jumped from the train while in motion. In so doing, he was thrown backwards under the wheels of the cars, which passed over his head, crushing his skull and scattering his brains about in a horrible manner.

Sad Affair—Two Children Burned to Death.

A shanty situated about a mile west of the Court House, at Lockport, N. Y., was destroyed by fire on Friday morning, and two young children who were locked in it consumed. The shanty was occupied by John McCarty and wife, both of whom are intemperate and frequently left their children alone locked up in the building.

They did so this morning, and while absent the above awful catastrophe occurred. The bodies of the children were taken out of the flames half consumed.

Brevity.

A merchant, at the season of business depression, received from one of his customers at a distance, in answer to a previous dun, a letter stating his difficulties and requesting time. The merchant paced his counting room with lowering brow, and, stopping suddenly, turned to his clerk and said:

"Write to that man without delay."

The paper was ready, and the pen filled with ink; but, not receiving any message for some moments, the clerk asked:

"What shall I write?"

"Something or nothing, and that very quick."

Back to his desk went the clerk, and rapidly moved his fingers over the paper. The letter was sent to the office, and by return of mail came a letter from the customer enclosing the money in full. The merchant, with glistening eyes, read the letter, and, hastening to his clerk, he said:

"What did you write to ——?"

"I wrote just what you told me, and kept a copy of the letter."

Going to his letter book and opening it:

"Dear Sir: Something or nothing, and that very quick. Yours, &c."

That letter brought the money.

A Stove Chamber.—The Sultan of Turkey has a silver chamber, the furniture and appurtenances of the bedroom and dressing room are of solid silver. The bedstead is in the form of a splendid sofa, the surface is of polished silver, engraved in rich arabesques, the legs of Gothic pattern, highly burnished. The mattresses and the pillows are made of fine spun metal. The bedding is covering with cloth of gold, trimmed with silver lace. It seems that the Sultan has directed this unique specimen of regal luxury to be constructed as a present to be occasionally offered at the garden of the seraglio, whenever any ray of daylight is visible, and where he intends to retire for the repose and solitude so much coveted in the palace.

GUN AND LOCK SMITHING AND Bell Hanging.

THE subscriber having opened an establishment, proposes to carry on the above business in the town of Salisbury, on Water Street, in all its various branches. GUNS and LOCKS repaired at short notice and on reasonable terms. His thorough acquaintance with the business, he hopes, will command a reasonable share of patronage. All work warranted. Affordays left with him will be faithfully and promptly attended to. Orders respectfully solicited.

CHARLES HARTMAN.

Encourage Home Industry!

BE QUICK! BE QUICK!!

STILL BETTER AND BETTER!

I AM putting up Buggies and Rockaways with improvements. My work has always given great satisfaction where ever it has been tried or known, and I am determined that it shall give satisfaction and ample reward to the purchaser. I am still at the same old stand, known as the Mowery Shop, on the Railroad, near the Factory. In exchange for Buggies I will take wheat, corn, bacon, &c., at the highest market prices. My work shall be good and durable. Call and examine my work and hear prices, and I know you can't help being pleased with it. I return my sincere thanks to the public for their very liberal patronage that they have bestowed on me heretofore.

SANFORD'S INVIGORATOR.

FOR ALL PURPOSES OF A STIMULATING LIVER MEDICINE.

THERE has long existed a demand for such a remedy that could be relied on as safe and effectual. This remedy has been prepared to meet that demand; and an extensive trial of its virtues has shown how universally it has accomplished the purpose designed. Among the complaints which have been specially cured by the use of the Invigorator we mention *Liver Complaint*, which is the cause of many other diseases, among them are, Biliousness, Headache, Fainting, Sick and Low, Bilious Fever, Fever and Ague, Jaundice, Indigestion, Languor and loss of Appetite, Restlessness and Irritability—all of which are caused by a diseased action of the Liver. The Invigorator is compounded with particular reference to the Liver, and when that the cause is removed all the rest are cured, as the cause of them is taken away. A few doses of the Invigorator rarely ever fail to stimulate the Liver to a proper action, and by its continued use to remove the disease. It has been taken with great success in cases of Colds, Dysentery, Humors, Scrofula, Ulcers, &c., and for those it has been found a very efficacious remedy. An occasional dose stimulates the stomach to a healthy action and restores the appetite and vigor. One dose will relieve the oppressive uneasiness experienced by eating a hearty dinner, as it excites the digestive organs to vigorous action. For a debilitated state of the system the Invigorator has no equal when experience proves, as it restores the system and removes the yellowness from the skin, which is the result of a diseased Liver.

Prepared and sold by Sandford & Co., 1re Front St., New York. Price $1.00 per bottle, containing 40 doses. For sale by Sill & Sill, Druggists, Salisbury, N. C.

Dr. CHARLES T. POWE

Having permanently located in Salisbury, respectfully tenders his professional services to the public. Office Cowan's Brick Row.

Salisbury, Aug. 26th, 1856 tf14

Medical Discovery of the Age.

DR. KENNEDY, of Roxbury, has discovered in one of the common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,

From the worst Scrofula down to a common Pimple.

He has used it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

One to three bottles will cure the worst kind of Pimples on the face.

Two to three bottles will clear the system of Biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears, & baldness among the hair.

Four or six bottles are warranted to cure ulcers and running sores.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted, when the above quantity is taken.

Reader, I profess not to understand a tythe of this in the medicine of it alone. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; other proof always speaks for itself. There are two things about this herb that appears to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of this discovered self cure, that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day or so.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it.—That it is a universal scourge of it from all quarters.

In my own practice I always keep it strictly authenticated—first—as an introduction to a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy it is will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Piles in this State, and all the Bowel and parts adjacent, it is a specific. The Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get and enough of it.

Directions for Use.—Adults one table spoonful per day—Children over ten years desert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

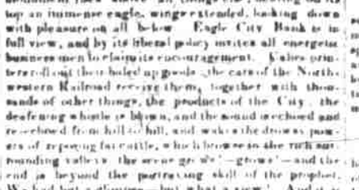
STEADY PROGRESSION

AT



EAGLE CITY.

THE SUBSCRIBER has the pleasure to announce to the world (or whom he sends greeting all kind) wishes for their prosperity and peace, that he is making steady progress in the improvement of Eagle City, destined, he believes, to become the great manufacturing city in the country. He is now erecting a new cotton mill at this place, to be called the "Troy Mills," and hopes to have it in full operation by the latter part of the summer of 1856. It will be one of the best, if not the very best mills in the country. The machinery is selected by himself, and the latest and most approved patterns were chosen.—It will work like a lever watch, smooth and steady, and be a delightful thing to look at. In the centre of the beautiful cascade of the rejoicing Eagle Mills, under whose shadow it is developing its fair and delighting proportions, Eagle Machine Shop, guided for it self-faire as fair as it is deserved, both for the excellence of its variety, and the superior cut of the fabrics. These Mills are [illegible] and [illegible] the world may look for [illegible] and [illegible] not less interesting in itself, than it must be desirable to every business person.

The business, speculating on coming events might well be pushed, and coming forward has been the boundary of present time, perhaps the aspect of Eagle City a few years hence, but now we refer to it. We see a city of beautiful proportions with its towering steeples pointing heavenwards; whose rough blocks of granite building walk gleaming metal roofs, reflect the cheerful beams of a vernal sun; the straggling breezes of a delightful climate, stir the leaves of long rows of elms; the streets are embowered with a cheerful busy throng; the song of half a million of spindles is mingled with the roar of looms and carwales; Eagle monument rises above all things else, bearing on its top an immense eagle, wings extended, looking down with pleasure on all below. Eagle City Bank is in full view, and by its liberal policy invites all energetic business men to claim its encouragement. Sales prevented on their behalf upon the cars of the North-western Railroad receive them, together with thousands of other things, the products of the City, the deafening whistle is blown, and the sound is echoed and re-echoed from hill to hill, and wakes the drowsy powers of reposing fat cattle, who lift their eyes to the rich surrounding valleys, the scene grows [illegible]—and the end is beyond the portraying skill of the prophet. We had but a glimpse—but what a view! And it is all to be realized beyond doubt. Enough, enough!—I will press on to its final consummation.

CERTIFICATES

Of the Healing and Restoring Virtues

OF

COWAN'S

Vegetable Lithontriptic.

Iredell County, N. C., Jan. 2, 1853.

I hereby certify that I have been afflicted with Gravel for a number of years, having been confined to the house for six months at one time, which I was confined to bed. Skilful physicians failed to give any relief. I was advised by the South to try Cowan's Vegetable Lithontriptic, the use of which has nearly relieved me, and I think, by persevering in its use, will effect a complete cure. ROBT. B. GRAY.

Rowan County, N. C., Jan. 5, 1853.

This is to certify, that I have used Cowan's Lithontriptic in two cases, with happy effect. One was a bad case of suppressed Micturition, in a young lady of 18 years of age, in which the most remedies had failed; and by using one bottle, the most perfect relief was obtained. The other case was chronic Cystitis, or inflamation of the bladder, in the person of Mr. George H. Upright. The Lithontriptic gave him great relief, and I believe had he persevered in its use, he would have been entirely relieved.

S. D. RANKIN, M. D.

Salisbury, Conway County, April 15, 1852.

Mr. Cowan: I write to inform you that our daughter, Martha, has been enjoying good health for the last year and a half. In childhood she enjoyed health—a sound mind, and fine constitution. But at an early age her menstruation became entirely suppressed; and for ten years her health was most wretched. Her mind gave way and was much impaired. She had the attention of two able physicians, but her health became worse, till your remedy was used. By using 5 bottles, her health is as above stated, and her mind nearly restored. G. C. WITT,

ELIZABETH WITT.

Mr. J. F. Cowan—Dear Sir: I know Miss Witt, having been the physician of the family for several years, and the above is according to the most honest belief of a conscientious man. I have ever believed her case of suppressed Micturition I have ever witnessed; one, I supposed, beyond the control of all medicine. But to my utter astonishment she has been entirely relieved by your Lithontriptic. I could mention other cures similar to this; and cheerfully recommend your valuable Medicine to all similarly afflicted. In the treatment of this disease I have had much experience.

Yours truly,

B. S. ROZELL, M. D.

Trenton, Tenn., Jan 22d, 1848.

J. F. Cowan, Esq.—Dear Sir: On the 27th May, 1846, I deemed it my duty to inform you of the successful use of your *Vegetable Lithontriptic*, in the case of Mr. Thomas Fletcher, of this vicinity. Stated that time I have used the remedy in a number of cases of a diseased state of the Kidneys, Ureters and Bladder, and in every case of the sort, with satisfactory results; a few cases of the most inveterate character, in removing those organs to a healthy condition. I further assure you that I have procured from the patients for whom I have prescribed the remedy, such specimens of the substances discharged by urine, as to convince the most incredulous, that the remedy possessed the power of dissolving and eradicating calculi from the kidneys, ureters and bladder, to a very considerable extent, and in other cases of a diseased state of the urinary organs, effecting cure, and particularly in cases of chronic gonorrhea, I believe it will prove a specific.

S. I. BESS, M. D.

This is to certify that I am acquainted with Cowan's *Vegetable Lithontriptic*, and have been for several years past, and have used it in beneficial effects in several cases of calculous cases in my own neighborhood, and have heard many of the patients say that they have used it for such complaints that it had effected a complete cure with them for, and believe myself that gave them great relief, more than any other one thing. But [illegible] I have no hesitation in saying that I believe it to be the best Lithontriptic now in use, and cheerfully recommend it to all afflicted with the [illegible] and hitherto incurable maladies. JAMES T. BONE, M. D.

February 15, 1846.

Mr. Cowan—Dear Sir: It is with feelings of gratitude that I address you, and all that may be afflicted with what is frequently called Gravel. I suffered excruciating pain from it almost every time that I had to take more than ordinary exercise, or took a slight cold, or on average of a severe attack every three months, and those attacks would hold me from eight to twenty days, sometimes longer. To my last suffering, I believe had it not been for your remedy I would have been in my grave long before this time, as the attacks were [illegible] and getting more severe. In September, 1847, you gave me a parcel of your medicine, with directions how to use it. I took the same as directed, and in less than [illegible] days I was perfectly clear of all symptoms of my disease, and up to this time, I am happy to state to you, I have not felt the first [illegible] of pain of any kind, of my old disease.

My dear sir, my cure was one that ought to have exceeded the weight, as it was of not less than thirty years' standing, and I have been attended by as good medical skill as old Virginia was in possession of, and my physician could only give me temporary relief, and finally he told me that the disease was incurable as to permanency. I think, sir, to do the human family & yourself justice, you ought to make your remedy public, as there are more people afflicted with the gravel than you are aware of. Sir, when you told me you could give me relief, I had no expectation that you could do so, but now I would say to the world that I had found one; and thou my suffering so much I would be glad the whole afflicted world could have the benefit of your remedy. THOS GWALTNEY,

Gibson Co., Tenn.

This is to certify that my wife suffered with Prolapsus Uteri, or falling down of the womb. For more than 12 months she was very bad in health, strength and spirits. She used two bottles of your Lithontriptic and her health is now restored—entirely free of those loathsome & confined monthly cares. She has been entirely free of her former Complaint for more than 12 months. BENJ. HUIE.

This is to certify that my wife has been entirely restored of a very troublesome and dangerous falling affection of the bag and bowels, by the use of a bottle and a half of Cowan's Vegetable Lithontriptic, that her general health has been much better since she used the medicine, than it had been for five years previous, & a small portion of the medicine entirely relieves her of an attack of the Colic to which she is subject.

Yours, very respectfully, ROBT. H. PARKS.

Yorkville, Tenn., Jan. 22, 1848.

I hereby certify that my wife was taken last October with symptoms of abortion very threatening, and was attended by a good Midwife, for two or three days without any relief; I then employed a respectable physician several days, and then another, all without any good effect, and it was thought by all that she must die. After she had used Cowan's medicine four or five days it commenced depositing a thick sediment like gravel ground up, which continued for several days, and it was mixed with a bloody corruption, and also the sediment for several days, since, when she commenced morning very fast and is now in good health, and likely to go through her period of pregnancy in better health than she ever did before, entirely clear of such stomach, that most troublesome attendant on pregnancy. I would advise all women not to be without a bottle of the medicine during the pregnancy, &c. ELIJAH SNOW.

Yorkville, Tenn., Jan. 22, 1849.

This is to certify that my wife on the 8th month of pregnancy was taken with symptoms of labor, so much so, that the Midwife was called to attend her, and having heard of the good effects of your medicine in Mrs. Snow's case, I procured a bottle of your medicine and gave it to her in small portions, as necessity seemed to require. In a short time the threatening symptoms left her, her appetite returned, her general health improved and she remained free from all those painful and sickening feelings common in such cases, until the time of her confinement, and used it then, and an easier and quicker labor she never had before as she herself remarked at the time. Indeed, the Midwife and neighbors present, said her time was easy and quick. ERVIN GIBSON

Madison Co., Tenn., March 28, 1849.

This is to certify that I am acquainted with Cowan's *Vegetable Lithontriptic*, and have been for several years past, and have used it in beneficial effects in several cases of calculous cases in my own neighborhood, and have heard many of the patients say that they have used it for such complaints that it had effected a complete cure with them for, and believe myself that gave them great relief, more than any other one thing.
