SANFORD'S INVIGORATOR.

FOR ALL PURPOSES OF A STIMULATING LIVER MEDICINE.

THERE has long existed a demand for such a remedy that could be relied on as safe and effectual. This remedy has been prepared to meet that demand; and an extensive trial of its virtues has shown how universally it has accomplished the purpose designed. Among the complaints which have been speedily cured by the use of the Invigorator we mention Liver Complaint, which is the cause of so many other diseases, among them are, Biliousness, Headache, Pains in the side and Loins, Bilious Fever, Fever and Ague, Jaundice, Indigestion, Languor and loss of Appetite, Listlessness and Irritability—all of which are caused by a diseased action of the Liver. The Invigorator is compounded with particular reference to the Liver, and when that disease is removed all the rest are cured, as the cause of them is taken away. A few doses of the Invigorator rarely ever fail to stimulate the Liver to a proper action, and by its continued use to remove the disease. It has been taken with great success in cases of Chronic Dysentery, Humors, Scrofula, Ulcers, &c., and for these it has been found a very efficacious remedy. An occasional dose stimulates the stomach to a healthy action and restores the appetite and vigor. One dose will relieve the oppressive uneasiness experienced by eating a hearty dinner, as it excites the digestive organs to vigorous action. For a debilitated state of the system the Invigorator has no equal which experience proves, as it restores the system and removes the vellowness from the skin, which is the result of a disordered Liver.

SINGER'S SEWING MACHINES.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trade, and in sewing every sort of labor, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but

SINGER'S MACHINES ALWAYS OPERATE PERFECTLY being strong, durable and complete in construction and workmanship. A perfect sewing machine kept employed affords a clear profit of $1 000 a year, but an imperfect one is a cause of constant vexation and loss. The entire reliability of machines is one great reason for the unparalled popularity.

MACHINES FOR FAMILY SEWING,

of a fine and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than ones either, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been quickened. No other can compete with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or the superseded machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis.

THE GREATEST

Medical Discovery of the Age.

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR.

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtues, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth.

One to three bottles will cure the worst kind of Pimples on the face.

Two to three bottles will clear the system of Biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears or blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of them in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appears to me surprising: first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it.—There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but more as retardation as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get and enough of it.

Directions for Use.—Adults one table spoonful per day—4 bottles over ten years desert spoonful—Children from five to eight years, tea spoonful. As the dose can can be applied to all constitutions, take sufficient to operate on the bowels twice a day.

THE SUBSCRIBER has the pleasure to announce to the world, and to be understood, that he is making steady progress in the improvement of Eagle City, destined, he believes, to become the greatest manufacturing city in the country. He is now erecting a new cotton mill at this place, to be called the "Troy Mills," and hopes to have it in full operation by the latter part of the summer of 1856. It will be one of the best, if not the very best mills in the country. The machinery is constructed by Stimpert and the latest and most approved patterns were chosen. It will work like a lever watch, smooth and steady—and he doubts not will execute as perfectly the most beautiful architectural ornamental the renowned Eagle Mills, under whose shadow it is developing its fair and delighting proportions. Eagle Milling seems for itself a fame so far and wide spread, both in the excellence of its wheat, and the superiority of its mill fabrics. THE NORTH CAROLINA FOUNDRY AND AGRICUTURAL MACHINE WORKS OF Boyden, Lemly & Co.,

At Salisbury, N. C., are Completed and Ready for Orders.

IT is the intention of the proprietors to offer indacements to Southern planters, Manufacturers and others not to be met with elsewhere.

The demand for heavy, medium, light and fancy castings together with every implement and machine used by the farmer shall be promptly supplied at our works. In order therefore to secure public confidence and support, it is regarded proper to say that the manufacturing facilities of this establishment are not equalled by any of a similar character south of Maryland.

The buildings are spacious and commodious and the Machinery is well adapted to our business.

It is therefore confidently asserted, having the aid of the most competent and experienced workmen, that every article manufactured by us shall challenge successful competitors.

Rail Road contractors, Carriage Makers, Carpenters, Steam Mill[illegible], Planters, house-keepers and all others requiring a machine, when strength durability and beauty are combined and that can be made of wood, iron, brass, steel, silver-plate, or all or either of them are solicited to give us an opportunity to fill their orders.

SCHOOL.

MRS. BROADFIELD

OFFERS her services to the citizens of Salisbury in the capacity of Teacher, and most respectfully solicits their patronage. As to what she is known to her fellow citizens, having had only a brief residence in this place, she refers to parents that she has some experience in teaching, having followed the occupation for several years of her earlier life, and if deemed sufficient of character and qualifications can be furnished. Our object in view is, that her own little daughters may have the benefit of her instruction, and that the task may be pleasant as well as pleasant, she proposes to instruct a school of girls at her residence near the Methodist Church; therefore she feels no hesitancy in saying that no effort shall be spared to promote the moral and intellectual growth of those that may be committed to her care. The course of instruction will embrace the branches usually taught in private schools, viz: the elementary and higher English branches.

Terms of tuition for scholastic year of ten months.

FAIR MT. FOUNDRY & MACHINE SHOP.

STAFFORD, DIXON & CO'S

PREMIUM HORSE POWERS, AND

THRESHERS,

AS it is well known, that a description is unnecessary here. For the past ten or fifteen years their superior castings have been fully tested by hundreds of the most intelligent and enterprising Farmers of this State, and their popularity may be known from the fact that we have never been able to supply the steadily increasing demand. But having recently added to our capital and increased our working force, we trust we shall be able to keep pace with the orders that a discriminating public may favor us with.

These Machines were in operation at the State Fair in 1854 and '55, in competition with Machines manufactured in this State, and took a DIPLOMA and the HIGHEST PREMIUM, over all others. We also manufacture, at short notice, Long and Saw Mill Irons, Plow & Goat Circulars, Corn Mills, Wood-carding Machines, Straw and Stalk Cutters, just the thing that farmers need this dry season; and all kinds of castings in common use in the country.
