The Ohiness Traubles-Important Su gestions as to the Result.

We are now in possession of the full accounts, from China, of which the elec-ric telegraph had before furnished us only the outline. Substantially the first im-pression conveyed to us of the cause of the quarrel and the operations that followed it, seems to be correct. There are indeed, matters in disputé, such as whether the lorcha out of which the men were taken was carrying British colors and whether the Consul was entirely justified in the steps that he took; but there can be no question that the Chinese authorities had violated the existing treaty, which requires them to demand suspocted criminals from the nearest Consul, and not seizing them themselves, and as little that the requisition of the Consul that men should be restored to the ship, and that an apology should be made, was refused.
