VOL. XIII. SALISBURY, N. C., FEBRUARY 17, 1857. NUMBER XXXVIII.

**FROM AN OCCASIONAL CORRESPONDENT.**  
Raleigh, February 2.  
My Dear Sirs:—The Senate failed to reconsider the Fayetteville and Coal Field bill by a vote of eighteen to twenty-two and for this Session, and it may be for all time, your hope of State aid has vanished.

The friends of the road were prepared to offer a substitute for the defeated bill—that after they had graded the road to the Coal Fields the State should then issue her bonds for \$100,000 per mile to buy and lay the rails and furnish rolling stock.

The bill was defeated, and yet not more than ten members can be found who do not acknowledge fully the merits of the scheme. But because the influence of rival schemes and political considerations, it has been defeated.

The friends who voted for it have been a true and reliable throughout, and are entitled to your thanks.

The Senate is now upon the road from Greensboro to the Dan coast beds. They ask no money, and it would pass but for local causes, acting on individuals; and through them upon their friends. Its fate cannot be forecast, as its enemies are clogging it with amendments.

The friends of the Cape Fear and Deep River bill are sanguine they can carry it this evening in the House of Commons. Tremendous exertions are being made, and the cry is to pass the bill without delay, upon whose success the bill was gotten up.

Both houses resemble a party at midnight, when half the guests have gone home and the other half feel jaded. Some members have gone home, others are absent preparing, but a few are still present, and the bill is being passed.

In the Commons, on a bill authorizing the Cape Fear Canal, some one or two dollars notes, Col. Outlaw was opposed to granting that privilege from the bank of the State.

Mr. Leach of Davidson contended that as the privilege was granted to the State Bank, the same privilege should be extended to the Cape Fear Bank, because the State had the same interest in the one as the other, and that it would be an odious discrimination to give one the privilege and not the other.

The bill, on motion of Col. Outlaw, was indefinitely postponed.

Mr. Cotten of Chatham, moved to amend by striking out \$300,000 and inserting \$100,000—\$25,000 to be paid by the State where individuals subscribe \$25,000, until all is paid.

Whereupon Mr. Lewis of Wake, argued that inasmuch as the Directors were permitted to make the bill provided for making the Governor and Board of Internal Improvements its Executive, that makes it a State work, and as water communication is cheaper than rail road, he was in favor of making the appropriation as in the Senate Bill, in conformity with the report of Major Gwynn.

Major Gwynn's report was read, and he stated that the work would cost \$1,000,000, and that the State would have to pay \$250,000 for the work, and \$750,000 for the rolling stock and other expenses.
