During all this time there were two negro women in the hold of the capsized vessel, which were only resented by scutting the vessel, which was done by the advice of Capt, Heath. The Messrs. Davis' worked most gallantly to save themselves. A free colored child about 3 months old was drowned, it being usleep in the cabin at the time. The cause of the accident was on account of a sudden gust of wind, something like a whirlwind. Great credit is due to Captain Owens and Heath for the prompt and efficient assistance rendered. The capsized vessel was righted up and made all right by them and proceeded on her voyage, while the Messrs. Davis' chartered another vessel to carry them to Gatesville

CIRCULAR.

To the Ministers. Ruling Elders, Members and Friends of the Presbyterian Church in N. C.

Among the disadvantages under which our Church labors in this State, is the want of a Newspaper to advocate her claims and represent her interests. This has long been felt to be a serious evil and embarrassment, and many of her best and truest friends think the time has come when the remedy should be applied. Whilst we appreciate the value of Papers published abroad, and wish success to their

Editors and Patrons, we feel that we ought to

be independent of them, and to have a North Carolina Presbyterian Paper, which we can call our own. It should be the repository of local intelligence, and be specially adapted to the wants of our Churches. It is needed to be the organ of our Synod-to elevate and enlighten the piety of our Membership, by diffusing evangelical knowledge-to promote the cause of education-to develope the talents of our Ministry, and to strengthen the attachment of our people to the soil and sanctuaries of their own State. There is no reason why Presbyterians in North Carolina should not have their Church Paper as well as Presbyterians in Virginia. South Carolina; and several others of the Southern and Western Statest. Hundreds of Church members in our bounds will take a State paper who will take no other. And why should North Carolina be dependent for everything on other States ! We hope that the day of her dependence has passed forever. It is proposed that one step should now be taken for the ac-

As soon as 50 subscribers are obtained, it is proposed that they meet at some central point, person or by proxy, to select a location, title, Editor or Editors, and make all other necessary arrangements for the publication of the Paper. When once established, we have no fears that it
