The Weather and the Cotton Crop.—The weather here is dry, with little prospect of rain. The drouth is operating injuriously on the late corn, turnips, potatoes, and peas. We learn too that the chinch bugs have commenced their ravages again in the fields, and that the late corn is being blighted and cut off. A good shower about this time would be of much service.—*Standard.*

DIED:

In Yadkin county, on the 3rd inst., Miss CETHA ALBEA, of Iredell county, N. C., daughter of Cranbery Albea, Esq., in the 18 year of her age. The dec'd had gone to Yadkin county on a visit to her relations; was taken sick on the day of her arrival, and after many days of suffering, which she bore with christian fortitude, her gentle spirit returned to God, who gave it. Miss Albea has left an aged father, a brother and sister, with many friends, to mourn her departure; but, consoled with the hope, that their loss has been her eternal gain.—Cou.

100 Negroes Wanted.

THE SUBSCRIBER wishes to purchase one hundred slaves, of both sexes, from ten to thirty years of age, for which he will pay the highest price that can be obtained for such property. Should a New Orleans Purchaser have any such property to dispose of, will do well to call on him previous to their selling. I say no other person. He is determined to pay a higher price in cash than any other buyer in the vicinity. All he desires is a call, to feel he will be warranted to continue the public of his friends as a purchaser. He also wishes to purchase a few mechanics—blacksmiths—Carpenters—Brick layers—and Coopers.

All letters addressed to him will be promptly attended to. ☞ I may be seen at the Rowan House.

CITY OF MOREHEAD!

GREAT SALE OF LOTS!!!

ON THE ELEVENTH (11TH) DAY OF November next, at the

CITY OF MOREHEAD,

will be sold at public auction, the Lots of said City.

This is the new City laid off by the "Shepard's Point Land Company," at the terminus of the Atlantic and North Carolina Rail Road, at Beaufort Harbor, N. C., immediately at the Atlantic Ocean.

The various Reports of the U. S. Coast Survey establish the great excellencies of this Harbor, for facility of entrance, depth of water and security from wind or wave, whilst Fort Macon completely commands the entrance.

The interior communications by water and land must make this a great Commercial City. The vast productions of the fertile valleys of the Roanoke, Tar and Neuse Rivers and the commerce of those great inland seas—the Albemarle, Currituck, Croatan and Pamlico Sounds, will search this fine Harbor through Core Sound on the South, whilst Bogue Sound will bear on its bosom the agricultural products, lumber, naval stores and fine ship timber of the region lying south.

The A & N. C. Rail Road which will be ready for use by the first of January next, passes through the entire length of the City to its wharves in deep water at low tide, and connects with the great N. C. Rail Road (of which it is a continuation), at Goldsboro'.

The N. C. Rail Road, among the best in the Union 223 miles long, is completed to Charlotte, where it connects through the Carolina and Georgia Rail Roads with Atlanta and the south-west; and by its western extension, now in rapid progress, it is contemplated to reach the trade of Memphis and the Mississippi Valley by the net-work of all the railways that centre at Atlanta, Chattanooga, or with the East Tennessee Rail Road.

The Port of Beaufort, Chattanooga, Memphis and St. Diego in the Pacific, are all on the same parallel of latitude; and if that parallel be extended to the Pacific, it will reach Shanghai, the nearest port of Port on the eastern Continent. (Read my letter of the Pacific Railroad explored—and that should be done forthwith—which may not this new City become the Atlantic mart for the commerce of the East Indies?)

Two short Railroads will connect the two great Coal Fields of the State, lying on the north and south of the North Carolina Railroad, with that point; and it is confidently expected that a vast coal trade will be carried on through the new city. If so, may not Beaufort become a great coaling Port, not only for purposes of commerce, but to furnish the supplies to steamers passing to and from the entrance going north and south; and may not the new city become the great depot of travel between the north and south, to which our ship and steamboat lines, Long Wharf, railroads and Northern and Southern steamers of the Atlantic South America and the Gulf of Mexico?

The CITY OF MOREHEAD is situated on a beautiful sandy ridge, gradually rising from the waters of sound and water, its situation is salubrious, its atmosphere and surrounding hospitality reminds of western North Carolina, and many of its pleasant water prospects.

A steamer to the Sounds will be established—the Atlantic and North Carolina Rail Road will run a train to meet the steamer, and the Atlantic and North Carolina Rail Road will run a train to meet the steamer at Goldsboro'.

Lots will be sold on a credit of one, two and three years, with interest from the day of sale, and will be conveyed by deed in fee simple.

A plot of the City can be seen at the office of the undersigned, in Salisbury, and at the office of the Atlantic and North Carolina Rail Road, at Goldsboro'.

Persons wishing to purchase will be conveyed to the City and back to the cars at Goldsboro' free of charge.

The Steamer ADELAIDE will leave Portsmouth for Beaufort on the day of sale, and will return on the day following.

Terms of sale made known on the day of sale.

PRESBYTERIAN.

The Rev. Wm. S. Mc Corkle has assumed the Associate Editorship of this Paper. He will give attention to politics, the Editor in Chief having retired from public life, and the Rev. Dr. Nordan is still at the head of the concern, which is a guarantee that the Presbyterian will be conducted with ability and success. Its circulation is as the most prosperous and successful in the country on the River, and it is one of the pioneer Papers of their grade, without any debt or load to carry, and with a fair chance before it. Its terms are low, and it is sent to clubs at reduced rates. Its matter, both in and out of connection with the Church, by independent writers, or taken from the best periodicals of the day, is worth reading. Its correspondence with other Presbyteries, and with many ministers and members of the Church, is extensive, and its editorial notices and reviews are impartial and independent. Its religious intelligence is full, and its Family Department is pure and instructive. Its Commercial Department is carefully attended to, and its Market Reports are to be relied on.

SALISBURY FEMALE SEMINARY.

THE regular session of this school will commence the 1st Monday of October next.

The scholastic year will be divided into two sessions of 21 weeks each. Suitable and convenient furniture, and whatever else that may be necessary for the comfort and advantage of the pupils, will be provided as soon as practicable. Very comfortable accommodations can be had, in the family of the Principal, at 16 boarders. The price of Board, including washing, lights and fuel, will be $65 per session; the one half payable in advance, and the balance at the end of the session.

TERMS OF TUITION PER SESSION.

For the English branches from $10 to $15.	
Music on Piano,	$20.
Use of Piano,	5.
French language,	10.
Latin and Greek,	5.
For fuel and other contingencies,	1.

Pupils will be charged for Board or Tuition from the time of entrance until the end of the session, but no deduction made after entrance, except in cases of actual sickness of a protracted character.

Each pupil must be furnished with all the books necessary for carrying on her studies in conformity with the rules of the school; and also with a Bible.

Such rules as may be requisite to secure good order and diligent attention to study, without interruption, will be adopted and rigidly enforced. Those who fail to observe these rules, and who cannot conform to such rules and by their example will not be retained in the school unless they comply with the requisitions. Every one upon leaving a month or a session is required to report to the Principal, and receive a certificate of the progress of such a course; and the best interests of the school demand it.

It will be an unusual object of the teachers to have parents visit at the pupils, heads of families and of close neighbors, to study, and to see for themselves the correct and chaste and simply dedicated, especially to the elementary course. And we think, and feel the good make the school what they desire it to be—a school for thorough, moral and refined training—they hope to have the critical observation of all as patrons.

All the pupils will be required to stand an examination at the close of the year.
