A HARD STORY.

There is a doctor in this consolidated city who is specially remarkable for being as the women term it, "short and crusty." A week or two since he was laboring under a severe attact of cheap whiskey.

"Well, Doctor, I am down you see; completely floored; I've got the Tremendous Delirium, you know?"

"Tremens, you fool, Where'd you get the rum?" quored the Doctor.

"All over in spots; broke out promiscuously, doctor.

"Served you right. Where did you get your rum?,

"Father died of the same disease; took him under the short ribs, and carried him off bodily.'

"Well, you've got to take something immediately.'

"You're a trump, Doctor; here wife, I'll take a nip of old rye.'

"Let it all, blockhead; Mrs. B. if your husband should get worse before I return, which will be in an hour, just give him a dose of the trunk strap; may be that'll fetch him to a sense of his folly."

The Doctor sailed out grandly, and within an hour, sailed in again, and found his friend of the Delirium Tremendous in a terrible condition, writhing and struggling with pain. His wife, a female of the plain but ignorant school, came, and laying her hand upon the Doctor's arm, said:

"Doctor, I gave him the strap as you directed."

"Did you thrash him well?'

"Thrash him!' exclaimed the astonished woman; "no, but I cut the strap in to hash and made him swallow it."

"Oh, Lord! Doctor,' roared the victim, 'I swallowed the leather, but—but

"But what?'

"I swallowed the whole strap, but I'm blowed if I could swallow the buckle.'

The Doctor administered two breast pills and evaporated.

Death of a Mobile Merchant.—Mr Roger Stewart, the late surviving partner of the firm of James Reed & Co., died at his residence, at Spring Hill, on Sunday, the 16th instant. Mr. Stewart was born in Inverness, Scotland, but came to Mobile when quite a young man. Shortly after coming here he became a partner in the house, in which he continued to the time of his death. He was fifty eight years of age, and for the last nine teen years a resident of this place. Mr Stewart was one of our most active and pro duct merchants.—*Mobile Register*

A Quaker having sold a fine looking, but blind horse, inquired of the purchaser:

"Well my friend, dost thee see any fault in him?'

"No."

"Neither will he ever see any in thee,' —said old Broadbrim.

"When you hear a young lady declare that she hates all men, infer that some peculiar one has touched her fancy"—and—so has not touched his."

CURE THE LIVER.

There is an article selling throughout the country that has obtained the widest celebrity ever known as a remedy for Liver Complaints. We have reference to Dr. SANFORD'S INVIGORATOR, or LIVER REMEDY, that has performed cures almost too great to believe were it not for the undoubted evidence that accompanies the testimonials. It is, in truth, the greatest remedy known for Dyspepsia, Jaundice, or a general debility that attacks both the skin of our most eminent physicians.

Dr. Sanford has been for a long time one of the eminent physicians of New York, and it is said, most of his cures were treated with this Invigorator with such invariable success that he has been induced to offer it as a family medicine, and for the World have the benefit of his discovery. To those who are to subject with debility, headache, languor, or slow, lingering fever will try a bottle, we think they might save pheumonia bills, and days, perhaps years of sadness.—*Ohio Statesman.* 1m50

☞ We invite our readers to the perusal of Dr. AYER'S advertisements which appear in the columns of our paper. They deserve attention as treating of what interests us all, and from a source which all have long respected. The Doctor is well known as one of the leading Chemists of this country, who devotes his great acquirements to the discovery and manufacture of remedies for popular use. The unparalleled success which has followed his labors is too well known in this community to need any elucidation from our pen.—*Washington Co. Observer.* 1m50

PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and found it to work as wonderful, we had it our duty to try and the editorial, to report it.

Our wife's hair was at the time fast becoming perfectly covered with a fine, and some called it mould hair. We will almost certainly state of in consequence, when a friend, seeing his suffering, advised us to use your Restorative, we did so; with little hope of success, but, to our surprise, and that of all our friends, it was by one application restored the diseased entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our hair has as healthy a look, and as luxuriant a crop of hair as any other child. PROF. O. J. WOOD—Dear Sir: I have used two bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. SUGAR MILLS,

WE are now receiving orders for Horse Powers and Threshers, with and without Straw carriers. Our WESTERN NEW YORK, DOUBLE PINION AND DOUBLE GEARED, HORSE POWER, is equal to any in the world. It is so constructed that it can be operated by 4, 6 or 8 Horses at pleasure, and need only be seen to be appreciated. No Machine equal to this has ever been introduced into North Carolina. Thousands of them are annually made and sold in Western New York, the finest wheat growing region in the Union.

We are also making five different kinds of

Sugar Cane Mills,

which must be seen to be appreciated. The set comprises 2 and 3 roller mills, arranged horizontally with double cranks for hand power, also 2 and 3 roller mills, arranged perpendicularly with sweeps for horse power, and one power mill arranged with 3 horizontal rollers. The latter can in 10 minutes be attached to any horse power, and has many advantages over the perpendicular mills. The above mills are all new styles, with iron frames, rollers and set screws.

The 3 roller mills are so arranged that the juice cannot fly off while being expressed, and having been gotten up with a full knowledge of the latest improvements, and the purposes for which they are intended, we have no hesitation in saying that they are superior to any heretofore offered, and can be afforded at prices that will bring them within the reach of every Farmer and Planter, therefore no one hesitate to produce the most valuable article upon his own farm.

We have lately gotten up an entire new series of our CELEBRATED REVERSIBLE

Steel Edge Plow,

with such improvements as have been suggested by the Farmers from time to time, thus making our assortment the most perfect that can be found in the United States.

We also manufacture and keep on hand the latest styles and best kinds of

STRAW CUTTERS, CULTIVATORS, HORSE HOES, &c., &c.

☞ Persons wishing any of the above Machines, Sugar Mills or improvements, had better send in their orders early in order to secure the article desired.

☞ Information and prices given by letter or otherwise and articles forwarded to any part of the Union.

THE LIVER INVIGORATOR!

PREPARED BY DR. SANFORD,

Compounded entirely from GUMS,

IS ONE OF THE MOST PURGATIVE AND LIVER MEDICINES known, and when taken according to directions, under, neither, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first at the Liver and upon its morbid matter, then upon the whole system, and in every case it is accomplishing the greatest effects, without pain or distress. It is composed entirely of Gums, and is entirely free from Calomel, or Mercury in any form. It is purely vegetable, and will strengthen and build it up with unusual rapidity.

The Liver is one of the largest organs, and when it is out of order, it deranges the whole system. Its office is to secrete the bile from the blood. When this organ becomes diseased, the bile is not secreted from the blood, but remains in it, and produces all the diseases and symptoms of the Liver Complaint. To prove that this medicine will cure the Liver Complaint, we will give $1000 for a case it will not cure, if taken according to directions, and the proprietor has the money deposited with the Banks to pay it. Any person can try it, and if it does not do as represented, they can return the bottle and have their money.

Only two doses taken at night, will cure Costiveness. One dose taken after eating, relieves Dyspepsia. One dose after exposure to Marshes, and a preventive against Chills and Fever. One dose will relieve the worst case of Headache in from fifteen minutes to an hour. One bottle taken for Scrofula, or Blood Disease, will cure the worst case. One dose taken after eating relieves Sick Stomach. One bottle taken for Rheumatism, will relieve the most painful case in a few days. One dose taken a short time previous to an attack of Fever, will prevent the disease. One or two doses stops a Chill and cures Ague. Children, from 1 to 10 years old, in proportion. Directions given in every case. Explicit directions accompany each bottle.

We have thousands of certificates in our possession, certifying to the above facts, which can be seen at the office of the Agent, and will be published in pamphlet form, with certificates, and directions, as soon as the sale of the Invigorator requires it.

☞ A few bottles cured of Fever and Ague, Chill Fever, and all forms of Intermittent Fever, will be sent to any part of the country.

All who use it are giving their unanimous testimony in its favor.

☞ Mix Water to the mouth with the Invigorator, and swallow both together.

THE LIVER INVIGORATOR

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, and the first dose gives relief. Sufferers cannot fail of which are the result of a Diseased Liver.

DOWLER'S WHEAT FANS.

"*Ne Plus Ultra.*"

H. B. DOWLER & CO.,

SALISBURY, N. C.,

CHALLENGE the State in the manufacture of WHEAT FANS. There is none better, and they believe no better can be made than those manufactured at their shop. Wherever they have been introduced, they have speedily obtained the reputation of being unrivaled in their mode of construction and operation, performing their work in the most perfect and rapid manner, separating all kinds of fish from the grain, so an extract that can only be rivaled or equalled by the most machine itself.

The most skilful workmen alone, are employed in the construction of these Fans; and the utmost pains taken to procure and prepare the best material. No effort, in short, has been, or will be, spared, to render them as perfect in design and in workmanship as it is possible to do so; to drive, above all things, not only to give satisfaction, but to perpetuate the fair fame of our meritorious WHEAT FANS.

OUR WORK IS WARRANTED.

Those desiring a good Machine would consult their interest by giving us a call before purchasing elsewhere. Those are other manufacturers of Fans, but they produce nothing comparable with ours. The "Excelsior" and the "Horse Power" may boast, but Dowler & Co.'s manufactures leave the breath out of them all, and still have enough left to clean Wheat a little better than any thing yet brought out, and not break down under the operation. If you doubt it, ask A. G. Carter, A. M. Rose, Dr. Reoup, J. A. Clement, Col. W. R. Austin and N. S. Caudle, of Davie county; Ash & Brown, of the Forest; Dr. A. M. Henderson, J. C. McConnaughey, I. Ian. Lashe, and Sam'l Knox, of Rowan, and whose of them who have tried them, all over the country. They will tell you frankly and candidly what they think of our Fans, and we are not afraid for them to speak out about them, even to "uncle"—so confident are we that our work is worthy of public favor.

Those who will want Fans this Summer a call will do to try ours, are requested to send in their orders. The sooner the better, as we shall be not able to supply all in good time, if their orders have been duly recorded on our list.

ADDRESS,

M. JACOBS' ANTI-CORROSIVE AMALGAM PENS.

THESE PENS will be found, on trial superior to Gold and Steel; possessing more of the action of the Quill than the Gold Pen, they will be preferred.

Each Pen is so durable as eight or ten made from Steel; they will not sputter nor rot the thinnest paper, gliding over a rough or smooth surface as freely as the Quill, and will not injure the nib of Gold Pen, nor affect the durability of Stock; defeating some of the ordinary to the Ink; which Steel Pens invariably do.

Price, Two Dollars per Gross,

CAUTION.—Each Pen is stamped, "M. Jacobs' Amalgam." Each box
