A Rattle Story that is True.

Lenoir, July 16, 1858.

Mr. J. J. Pearson:

Dear Sir:—The wonderful feat was recently performed by a rattlesnake, of keeping over the head of a gentleman on horseback, and over his mule in attempting to strike him on the head. Both man and horse were of full medium size.

Mr. James M. Spainhour, of this place, was riding along near the foot of Blue Ridge on the North side, in Watauga county, and near the river of the same name on the 20th, inst., he had the following very singular and rather dangerous encounter with a rattle-snake.

As there was a light rain Mr. S. had his umbrella spread above him. He was riding near a bank on the right hand, higher than his head, occasioned by digging away the earth below in grading the road.

Suddenly he heard the ring of the rattle-snake to the direction of the bank, and on looking round saw the snake in the act of springing towards him.

It alighted, however, on the top of his umbrella, fastening its fangs in the cloth and tearing out its hold. His weight bore down the umbrella, and he fell off as near the lower edge of the road, that in an instant he was over the stone wall supporting the road, and glided out of sight in the thicket below.

Whether it was a mere effort to display his agility, and have his exploit chronicled in the periodicals of this day, or whether with malice aforethought, and instigated by Satan, he meant to inflict injury on the lonely and unsuspecting traveller, cannot be determined.

If he meant it as an affair of honor, his conduct was not quite defensible according to the recognized rules of that code. The ring of the rattle did not precede the leap by a sufficient length of time, to enable the assailed party to take an attitude of defence. And, besides, when he failed in his first pass, he recklessly retreated too precipitately. It was due to his dignity as a true knight to remain and fall bravely, rather than retreat so ingloriously.

But perhaps if the annals of Chivalry were carefully searched, precedents might be found for both the exceptionable items in his conduct. It is but another proof that cowards may fight.

The facts mentioned above, however, are certainly true, and if you suppose your readers never heard of just such a thing before, you can, by recording them, furnish the attentive with some new thing to hear and to tell.

For the Watchman.

Dueling Necessary in Congress.

Judge Hughes, a member of Congress from Indiana states, in giving his reason for challenging Mr. Harris, that if a member of Congress submits to a public insult, he has no influence. Hear what he says:

"I challenged Harris, not because I wished to fight, but to bring on an honorable settlement—and I should have done the same in Indiana. Congress has its rules and customs. And I say to you that a man who takes a public, unprovoked assault, without resenting it as a man of honor, might as well go home.—He has influence no longer. This is made painfully evident when he rises to make a motion or speech, or discharge any Congressional duty. I found this state of things there and did not create it."

Allentown, July 23.—The coroner's jury on the bodies of those killed by the late accident have brought their labors to a close. The verdict is; that the Company did carelessly allow the bridge to become unsafe by permitting the timber to become decayed, and that the Company was grossly negligent, and endangered the lives of passengers traveling on their road; and that the remaining span should be removed without delay.

Albany, July 24.—The baggage and mail car on the down train on the Central Railroad, due here at 4.30 a. m., was destroyed by fire at St. Johnsville. The fire is supposed to have originated from some combustible article among the baggage. The contents of the car were nearly destroyed, and the mails from Buffalo and some intermediate stations lost.

"Switch the green rind of a sapling, or wand lightly twist it in the soil, and the scarred and crooked oak will tell of thee for centuries to come." How forcibly does this beautiful figure teach the lesson of giving right instead of wrong tendencies to the young mind!

Dana Rood Strongs Loan Infantry.

July 16th, 1858.

At a meeting of the Newbern Light Infantry, held July the 16th, to give proper expression to a keen appreciation of the delivery and kind treatment experienced by the members at the hands of the Military and Citizens of different parts of the State, it was unanimously

Resolved, That the hearty thanks of the Newbern Light Infantry are due, and are hereby tendered the Oak City Guards, of Raleigh, the Orange Guards, of Hillsboro', the Roman Rifle Guards, and Roman Artillery, of Salisbury, and the Hornet's Nest Rifles, of Charlotte, for their unbounded hospitality and kindness at the time of our late visit to their respective towns; and that they shall ever be remembered with feelings of heartfelt gratitude.

Resolved, That while indebted to all, we beg leave to specify at these to whom we are under the greatest obligations, His Excellency Governor Bragg, Major Harrison, Capt. Tucker, and the Officers of the Oak City Guards, of Raleigh, Capt. Jones, and other Officers of the Orange Guards, of Hillsboro', Dr. Hoppadit, of the Yarbrough House, Salisbury, and our entertainers and escort of the Roman Military, Messrs. Young, Fox, Smith and Osborne, of Charlotte, and the Officers of the Hornet's Nest Rifles, and Messrs. Whitaker and Gregory, of Guilford.

Resolved, That we point with pride to John D. Whitford, Esq., President of the Atlantic & North Carolina Railroad, as our model member, and gladly acknowledge that to his liberality and generosity the enjoyment of our delightful trip is entirely due.

Resolved, That our thanks are specially due D. Hancock, Conductor, and Collin Grimsley, Locomotive Engineer, for the attentive furtherance of all conducive to our comfort and safety.

Resolved, That we would be unjust to ourselves, did we pass unnoticed the high compliment paid in the hearty salute given us by the Citizens of Concord.

Resolved, That we extend the right hand of fellowship to the Military of the West, and cordially invite them to visit us at Newbern, pledging ourselves to use every effort to make their visit to the East as pleasant as our Western trip has been.

Resolved, That these Resolutions be published in the New Era, Newbern, and that the papers of the towns herein mentioned be requested to copy.

IN A POST BAG.

Quite a sensation was created one morning last week in our Post Office, on the arrival and opening of the mail bags from the Queen City, by the sudden appearance of a large mouse, which introduced itself to our Postmaster without any ceremony, or any attempt towards explanation. It was quite evident that the unbidden passenger had been accustom to Post Office quarters, as on being released from its confinement, it made off to one of the letter stages, but a hot pursuit having been commenced, it was forced to fly to a safer quarter, and in making a bold attempt for the wall leaped, unfortunately became a "dead letter." It is supposed this unfortunate Charleston Post Office mouse had entertained the idea of visiting some of its country kin in the Uwharrie establishment, and in order to accomplish its purpose, had artfully concealed its little body in the mail bag, escaping from which, and not having been duly stamped, it met its untimely end. Thus as Burns says, "the best laid schemes of men and mice gang aft a gee." The unexpected death of this travelling city mouse will, no doubt, create a vacancy in its family circle not easy to be filled up, and as a matter of course, must be a source of intense grief to its numerous relatives. Charleston papers please copy. Notwithstanding the alarming nature of the occurrence, no serious interruption to the public business took place, and the morning's mail was delivered with the usual punctuality.—*Pee Dee Herald.*

Flying Machine.

Lord Cullingford, near Dublin, in a letter to the Kilkenny *Moderator*, states that he has succed in constructing a Flying Machine. He calls it the achreden. It is started by being elevated between two poles, in the manner of a swing, and being raised about two yards and giving it a slight pull forward, it started off, then elevated itself in the air and after going a short distance, alighted in the most gentle manner. After making a few more experiments to ascertain the weight the present extent of wing will be able to bear, he intends taking it to Dublin.

An unsafe Counsellor.—A lady residing near Brescia in Italy consulted her priest as to investing 40,000 francs which she had received. On the next night, two masked and armed men entered her room and demanded that she should deliver up the money, on pain of instant death. A visitor hearing her shrieks rushed to her room, shot one of the men dead, and disarmed and arrested the other, when it was found that the one who was killed was the priest, and the other was his assistant.

Tanning an Elephant's Hide.—They are tanning an elephant's hide at Cincinnati. It was purchased by a furrier in Wisconsin, where the animal, which belonged to a menagerie, died. The freight to Cincinnati cost $15. It is an immense hide, so bulky that the tanners handle it with great difficulty. It is nearly two inches thick, and full a year and a half will be required to tan it thoroughly. It will be a curiosity when thoroughly tanned and seasoned.

An old lady residing not far from Exeter was perhaps one of the most brilliant examples of conjugal tenderness that the last century produced. Her husband had long been dying, and at length, on the clergyman of the parish making one of his daily visits he found him dead. The disconsolate widow, in giving him an account of her spouse's last moments, told him her "poor dear man kept groaning and groaning, but he could not die; at last," said she, 'I recollected I had got a piece of new tape in the drawer, so I took some of that and tied it as tight as I could around his neck, and then I stopped his nose with my thumb and finger, and poor dear! he went off like a lamb."

WHO CAN BEAT THIS BEET?

We were presented to-day, by Mr. Isaac Ramsey, of this place, with a Beet weighing over seven pounds. It was raised in Mr. Ramsey's own garden, and he informs us that he has some others nearly as large. Mr. R. has no idea of enjoying these nice beets alone, but like a generous hearted man, as he is, desires to share with the printer. Thank you sir; we will test its qualities at dinner to-morrow.—*Beaufort Journal.*

The Mississippi River.—The Memphis *Appeal*, of the 20th, says:

"The river at this point has risen fair-teen inches since last Saturday evening—making the whole amount of rise, up to last evening, at 7 o'clock, four feet and seven inches. Business at the landing, yesterday, was ordinarily brisk for the season. The weather is quite seasonable."

"ALL ABOARD FOR IRON POINT"

The Democracy of Guilford will hold a grand Mass Meeting at High Point, on Tuesday, the 3d of August. Distinguished speakers will be on hand, and things will go on in a style to remind one of the "old time" of 1840. Everything is awake in Guilford, and the Democratic candidate will get as full a vote as has ever been given to a stump candidate.

Our tidings from both East and West are of the most gratifying nature. Let all who think with Mr. Mellac vote for him, and he will be triumphantly elected.—*Nat. Register.*

Admirable Use of a Magnet.—A smith in Brighton, England, while forging a piece of iron, felt something strike his eye, and subsequently feeling great pain, he went to Dr. King, in Palace street, who discovered that a piece of iron had imbedded itself in the ball of the eye.—After vainly endeavoring to extract it in the usual way, Dr. King thought of a powerful magnet which he had. He applied it to the eye, and was rejoiced at finding the piece of iron instantly removed. It was as large as a grain of weight.

The disease among beef cattle in the South is spreading to an alarming extent. In Florida, in some cases, deer which were attacked, would come with perfect fearlessness up to the very doors of dwellings as if seeking relief from their sufferings. It seems that this disease—called by some murrian, by others black tongue—has been steadily progressing northward ever since its first appearance. From what we can learn, the most prominent symtoms in these cases is the swollen tongue, which becomes very sore and almost perfectly black.

Another Remarkable Cure of Dyspepsia.

Boston, July 3, 1851.

Gentlemen.—Agreeably to your suggestion, it gives me pleasure to state, that some five weeks ago, I purchased two bottles of your Oxygenated Bitters, and commenced using the same according to directions, and experienced the happiest effects.

I had been troubled with Dyspepsia about three years. During the warm season, and at times, was obliged to give up all attention to business: and although I had the advice of many good physicians, I was confined for six weeks to the house, and confined to your rooms, until I took your medicine. I am now almost cured of every disagreeable symptom, and able to do business as usual.

The whole credit of my restoration to health is due to the Oxygenated Bitters. Yours truly,

ABNER SMITH.

PROSPECTUS

OF THE

"NEWBERN GAZETTE."

The subscriber respectfully informs the citizens of Newbern and the public, that he has just purchased from L. Johnson & Company,—perhaps the best type-founders in America,—a couple of *new and elegant printing presses*, with complete outfits, the largest of which is for the publication of *one of the largest, neatest and cheapest Newspapers in North Carolina.* It is designed as a Family and Literary Journal, and will be devoted to Local and Commercial News, Science, Art, and General Information.

The "GAZETTE" will be neutral in Politics; but at the same time, the Editor will claim the prerogative of giving in readers items of political information.

The services of a valuable corps of *Contributors* and *Reporters* have already been engaged, many of whom rank among the *most scientific writers in America.*

The Editor makes no boast that it will be "the best paper in the world" but earnestly and confidently commends it to the patronage of a liberal public, with the assurance that nothing shall be withheld to merit their warm interest in its prosperity.

Any favor toward this laudable enterprise will be thankfully received and kindly recognized.

The first number will be issued about the 15th of July.—TERMS, $2.00, in advance.

THE WORLD'S NECESSITY, AND VEXATION.

IT is M. DOFLIN'S province to clothe the naked and decorate the man of means. To this end, he always keeps his shelves well supplied with every article of wear, required by high and low, rich and poor. Men must have clothing—it is the world's necessity;—and get good articles at low figures, are predictions all over town. Go to DOFLIN'S, and you will find them. Try him, try him! The proof of the pudding,——"a word to the wise," &c., &c.

Those who have got in debt to him, are hereby notified that his patience is almost gone. His forbearance and his desperation are on an even balance. He is sure he cannot stand the vexation longer than August Court, and he therefore urges his friends to *escape from impending evils.*

GOOD MEDICINES.

It is estimated that AYER'S CHERRY PECTORAL and CATHARTIC PILLS have done more to promote the public health, than any other one cause. There can be no question that the Cherry Pectoral has by its thousands on thousands cures of Colds, Coughs, Asthma, Croup, Influenza, Bronchitis, &c., very much reduced the proportion of deaths from consumptive diseases in this country. The Pills are as good as the Pectoral and will cure us re complaints.

Everybody needs to use one or the purging. Purge the blood from its impurities. Purge the stomach, liver and the whole visceral system from obstructions. Purge out the diseases which fasten on the body, to work its decay. But for disease we should die only of old age. Take antidotes early and treat it from the system, before it is yet too strong to yield.

Ayer's Pills do thorough work, not only while it is weak, but when it has taken a strong hold. Read the astounding statements of those who have been cured by them from dreadful Scrofula, Dropsy, Ulcers, skin diseases, Rheumatism, Neuralgia, Dyspepsia, Inflamed joints, Bilious Complaints, Heart-burn, Headache, Gout, and many less dangerous, but still threatening ailments, such as Pimples on the face, Worms, Nervous Irritability, Loss of appetite, Irregularities, Dizziness in the head, Colds, Fevers, Dysentery and indeed every variety of complaints for which a Purgative Remedy is required.

These are no random statements, but are authenticated by your own neighbors and your own Physician. Try them once, and you never will be without them. Price 25 cts per Box—5 Boxes for $1.00.

HAVE Spratt's & Arthur's 8-lb Sealing Cans for preserving fruit and vegetables in a fresh state for winter use. The subject is a matter of experiment; hundreds have tried it and found it to be a good thing and no humbug—try it once, and you will never give it up. Many fruits decay and go to waste; now they may be saved and used out of their season for table and pastry purposes. With this Can they can be preserved economically, as sugar and spirits may be dispensed with.

Directions accompanying the Cans, the mode is so simple, any child ten years old need not fail in putting up securely.
