Mr. Buchanan and Cuba.—The Washington correspondent of the New York Times says:

Mr. Buchanan's policy, in endeavoring to purchase Cuba, aims at five things, viz: 1. To satisfy the Bishop and clergy of Spain that the Catholic Church would not wane and be forced to a secondary position on the island, in the event of its transfer to the United States. 2. To satisfy Christina that he thirty millions of private property on the island would not be subject to the principles of agrarianism, but would be doubled in value by the transfer. 3. To satisfy the agriculturist that his market would not be injured, but improved, by having not only the ports of Cuba, but the ports of the whole country, free to his produce. 4. To satisfy the commercial interests that free trade would be accorded them here, while they could discriminate at home according to their own pleasure; and lastly, to satisfy the Government that a transfer of the island is actually necessary to secure lasting peace between the two countries. Such is the programme of the Administration policy for the new minister to Madrid, which, if carried out, must result in the purchase of Cuba."

"Gen. Pierce and lady have fixed themselves for a time at Vevay, on the lake of Geneva, and from a gentleman who saw them three days ago, I learn that they appear much improved in health. The gentleman in question was laid under embargo, by the ex-President, to assist him in talking French, as he travels only with a maid servant for Mrs. Pierce, and acts as his own *courier and valet de pied*, republican like.

"OLD SALISBURY REVIVED!"

NEW MERCANTILE FIRM.

GOODS ALL NEW!

McNEELY & YOUNG

NORTH CAROLINA TOBACCO.

We are pleased to see the products of the "Old North State," command higher and better prices than those of any of her neighbors. This particularly so in the article of tobacco, sales having recently been made in Richmond, Va., of a superior article, grown by Mr. John I. Shaver, of Salisbury, at prices much higher than the average quotations. This lot consisted of two hogsheads, and was sold at $27 per 100 lbs, and other at $32.75 do, coal cured, and branded as of "fine texture and flavor." The two hogsheads brought in the aggregate nearly $800.

Thus, as is always the case when brought into competition with others, North Carolina carries off the palm. The Richmond Whig speaks deservedly well of the efforts of the North Carolina planters to sustain the high reputation of their products in that market.

Mr. Shaver sent to Richmond nine other hogsheads, which yielded him an average of 16 cents per pound.

The Bonham (Texas) Independant tells of a horse which escaped from his owner in May last, and was found seven weeks after, a mile and a half from the house. He had about twenty feet of rope tied around his neck when he got away and this had become fastened to a bush, and kept the horse there all that time. The horse had only twelve feet to play upon. He had bitten off two elm, saplings four inches in diameter, and eaten the stumps to the very ground.

THE COMET.

The comet is now visible to the naked eye. It can be seen in the North-western part of the heavens, about ten degrees above the horizon. The Albany *Atlas* says:

"It is now only one hundred and forty millions of miles distant, and is rapidly approaching the earth, and already shows through a common opera glass a well defined tail. We are told that during the first week in October, the comet will be of the most striking brightness, possibly the largest of the century, and at that time will be seen near Arcturus."

It is thought by many to be identical with the first comet of 1827, and also that of 1764.

YELLOW FEVER IN CHARLESTON.

We regret to record a continued increase in the fatality of this scourge which now affects our State metropolis. When we see the number of deaths announced, and remember how many cases there must be which do not prove fatal, we can form some conception of suffering that must prevail, and what must be the necessities of the Howard Association. We sincerely hope that this report will touch the sympathies of the entire State, and that no efforts will be spared to render relief to the distresses of the afflicted of Charleston.

The total number of deaths, from the 5th to the 11th, were 128, of these 103 were from yellow fever. The *Courier* of yesterday contains eight funeral invitations.—*South Carolinian.*
