RICH GLOSSY HAIR.

PROFESSOR WOODS HAIR RESTORATIVE.—We, the undersigned, all of us old enough to have passed middle life, have noticed the hand of time very severely upon our heads, and have used many preparations, which profess to restore the original color, fullness, growth and softness of the hair, but with no success, until we used Prof. Wood's Hair Restorative, which has restored the natural fullness and beauty to our hair, and we cheerfully recommend it to all persons similarly afflicted.

SIDE WALK—Dear Sir: Your Hair Restorative is showing itself beneficial to me. The front, and also the back part of my head almost lost its covering—it fell out. I have used but two half pint bottles of your preparation, and now the top of my head is full and thick, presenting a crop of young hair, and the front is also, rapidly its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can do you many others to try it.

Yours respectfully,
D. R. THOMAS, M. D.,
No. 404 Vine Street.

Vincennes, Ind., June 30, 1853.

PROF. O. J. WOOD: As you are about to manufacture and vend more largely the Grand Hair Restorative, I will state, for the information it may contain, that I have used it and known others to use it during the last three years, here in the Valley of the Wabash, and I do not hesitate to say that I have found nearly superior to any other I know. It really eradicates the head of dandruff, and with such a healthy plume as will restore any person's hair to its original, youthful color and texture, giving it a healthy, soft and glossy appearance; and all this without disturbing the hands that apply it, of the most which is drugs. I would, therefore, recommend to all who desire a fine color and texture to hair. Respectfully yours,
WILSON KING.

It may be given in drink of table spoonful three or four times a week mixed with water when drinking.

COWS.

The powder is highly recommended for cows. Purifying their blood and keeping them in a healthy state. Nothing will set the digestive of the body, increasing their strength and improving their appetite, during their yield in the season of milk, as in a low condition. A farmer, that sets store by his powder, will never be without it. It should be given to cows of a table spoonful three times a week, and in restoring the use of it, all the diseases arising from the impure state of the blood and secretions may be entirely driven out.

In diseases of Hollow Horn, Head disease, or cows that give the dry spell, or by any cause it has been found highly beneficial by giving the powder every day, or three times a week.

HOGS.

For hogs the powder is recommended to be given in coughs, swelled necks, abcess of the lungs, and fever, and in fattening, and may be given by mixing a pound or a half of a package in a barrel of swill.

POULTRY.

The Cattle Powder, proving excellent as the what it was first recommended, induced several farmers to feed it to some laying hens, and found the effect most wonderful in fattening them; besides, making them continue longer than usual in laying eggs. We can, therefore, recommend it, to be fed to chickens, geese, turkeys and for all kinds of the feathered tribe, where it is desired to keep up a healthy condition. It may be given mixed with Indian meal and water two or three times a week.
