THE RAILROAD

A Great Institution!!

EVERY BODY SAYS SO, and so it must be. It almost annihilates time and distance, by the speed of its trains, which, as they thunder along through hills and over the plains and valleys, drawing their long lengths and enormous freights, the gaping world stand and look—they can't help—with wonder and delight; and then it is they are wont to cry out—*Great Institution.* People used to say that such and such a man "is a team." If he were great as a politician, as a lawyer, a preacher, a merchant or a tradesman, he was sure to receive this distinguishing appellation. A good team, in those times, was, perhaps, more the pride of men, than since the Iron Horse came upon the world's great stage; not because we have less need for horses now, but because to some of their uses they have been relieved.—Well, in considering these compressions their application to men, we hold that there are some men who rise far above even the *Great Institution.* Take for instance Ex. Gov. MOSELEY, whose mental strength and moral power, put into operation the great forces which heaved up the earth from the deep seats and filled up the ravine and valleys from Charlotte to Goldsboro', and made the high-way, with all its appendages. We might instance others, many others who rise above them; but let it suffice there are other men whose modesty will not allow them to aspire to any thing beyond. For ourself, we are perfectly content to be associated like the *Great Institution.*

Because it is the ornament that Almighty granted for all our race. Reader, although the roses may bloom ever so brightly in the glowing cheek, the eye be ever so sparkling the teeth be those of pearls, if the head is bereft of its covering, or the hair be unsightly and shriveled, harsh and dry, or worse still, if sprinkled with gray, haggard will her more than half her charms.—Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an abundant. Read the following, and judge. The writer of the first is the celebrated *Female Phrenologist.*

New York, April 18, 1856.

Dear Sir:—Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color. I should the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

I am, dear sir, yours truly,
S. THALBERG.

Depot 2½ Greenbush st.

Welsh Newspaper Office, 13 Nassau St., April 12, 1856.

Prof. O. J. Wood:—*Dear Sir*:—Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who proceeded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial it has produced that wonderful effect by turning all the gray hairs to dark brown, or the color it was before becoming gray and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change of their hair.

CHARLES CARDEW.

New York, July 25, 1857.

Prof. O. J. Wood:—With confidence do I recommend your Hair Restorative, as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers which were almost white have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unpleasant feeling, to common among persons who perspire freely.

J. G. KILBY.

Prof. Wood:—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications restored my hair Perfectly. It began to fill up, curl, and turned back to its former color, health, and appearance, and I cheerfully recommend it to one to all.

J. D. HOES.
