INCONSISTENCIES.

The Democratic papers are laboring to show that the Raleigh Register and some others of the Whig papers, are inconsistent in their advocacy of equal taxation, and, in upholding the Whig platform, because, say they, only a few weeks before the meeting of the Convention, the Register was opposed to ad valorem, and some of the other Whig papers charge that the Standard especially, and some others of the democratic papers, are not sincere in their opposition to this measure, for that only a few months ago, they were in favor of it, and advocated it as not only just and proper, but that the time had arrived, when the Constitution should be so altered as to effect a change in our revenue system. Now we would in all due deference to their better judgment, say to our brethren, that there are things about which the people care nothing at all. Whether the Standard formerly favored ad valorem and now opposes it, or whether the Register formerly opposed ad valorem and now favors it, will not, we presume, alter ten votes one way or another. The people of North Carolina, are too intelligent and too independent, to suffer themselves to be governed by the opinions, the whims or caprices of either the Standard or the Register, or of any other paper.

Sufferers from Scrofula and Scrofulous affections, clean up! Why wear your Pimples, Blotches, Ulcers, Sores! Why have the life twisted out of you by Dyspepsia, Rheumatism and Gout! Why suffer Syphilitic and Mercurial diseases to rot your bones in your body, or the flesh off your bones! why let your sluggish blood drag, and scatter its distempers through your veins! AYER's COMP. That is to say, wise men frequently become fools. But *fools* never become wise men. Just your case, exactly. You never open your mouth that you do not *bray*.

Probably you are the Mr Bray alluded to by old Mother Goose, in one of her melodies:

There is a man in our town,
His name is Billy Bray,
His ears are long, his voice is loud,
His feet are very splay,
He rack'd his brains to write a slur,
Upon one Jonny Pool,
But John, he proved the wiser man,
Bill proved the bigger fool."

THE NORTH CAROLINA

White Sulphur Springs,

WILL be opened for visitors by the 1st of June next: they are situated in a most healthy mountainous country, near the beautiful Catawba River, within less than an hour's ride of the present terminus of the Western N. C. Rail Road with which daily lines of Omnibuses and Stage Coaches connect the Springs. Pleasure Vehicles and superior Saddle Horses will be at the call of guests. Bowling Alleys and a Billiard Saloon will be neatly fitted up. A fine Band of Musicians engaged for the season. Quadrille and Cotillion Parties each evening free of extra charge.

The Buildings are new and spacious, the pleasure grounds extensive, and in fine every thing wished for, so as to best watering places, will be found here to refresh the inner man and cheer the spirit. The extended reputation and the medical properties of the Waters almost immediate before the completion of the Western N. C. Rail Road, now hail the sick and afflicted with a cordial welcome.

The experience of the Proprietor justifies the seeker of health or pleasure in anticipating a good time coming. The Proprietor has been at great expense [illegible] which cannot exist with the wants of the Gentleman and confidently rely on their generosity for encouragement.

REMARKS.

Flour receipts are fair from N. Carolina and other sources. We report no quotable alteration. Sales confined principally to consumptive demand; holders are not disposed to yield.

Corn in fair supply; prices are lower in consequence of the scarcity of vessels.

Dried Fruits are in moderate supply, the demand has fallen off, and there is not much activity in any kind.

Peas are very dull and unsaleable.

Staves are in demand and will readily on arrival.

Scrofula or King's Evil.

Is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated, weak and poor. Being of the consistence to permeate the whole body, and may show itself in disease on any part of it. The agent in this form are scrofula, one in three more which is open and destroy. The appearance runs to corruption caused by excessive dosages, low living, the effects of unbecoming food, impure air, the constant habit of the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is unnecessary in the constitution, descending "from generation to generation" even to the third and fourth generation." Proved, it is sure to be the end of him who says so. "I will visit the iniquities of the fathers upon their children."

The off-spring commences by separation from the blood of corrupt or diseased matter, which, in the lungs, liver, and internal organs, is secreted into tubercles in the glands, swellings; and on the surface, eruptions, sores. This foul corruption, which gendered in the blood, dispenses the energies of life, so that a moderate constitution not only suffer from scrofulous complaints, but they have the least power to withstand the attacks of other diseases; consequently, the numberless perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumptions which decimates the human family has its origin directly in this scrofulous contamination; and many destroying diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are tainted by the hereditary inversion, and their health is undermined by it. To eradicate it from the system we must regenerate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Ayer's
Compound Extract of Sarsaparilla,

The most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is established from the most positive remedials that have been discovered for the expurgation of this foul disorder from the blood and the system of the poisons from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also of those other inflictions arising from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The peculiar belief in "inequality of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills

For all the purposes of Family Physic,

are so compounded that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache, arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the Disease.

No wife in the fold of its confidence and no summer can are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and have disgusted, this has gained friends by every trial, confirmed humbler as the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

The Imported

BLACK HAWK COLT

RAVEN!

TERMS: For the Season - - $30
To insure a Colt - - 50

All Insurance money to be paid as soon as the mare is ascertained with foal. All mares put by the season to be paid by the season. All contracts at the owner's risk. All mares pasted with before foaling, to be considered with foal.

RAVEN is a three-year old Black Stallion, was got by Black Bird, he by the Vermont Black Hawk. Raven is 15½ hands high, his color jet black, white hind feet, is of good blood and exceedingly well-proportioned colt, perfectly sound, fine action, and for strength and beauty cannot be surpassed. His dam by Bulrush Morgan of Vermont, beautiful Blood Bay, black mane and tail, 15¾ hands high.

RAVEN was raised by John McGee, of Canada; he has taken First Premiums at several Fairs, at which he was exhibited. His owner claims the name of "Raven," (see Wilkins' N. Y. Spirit of the Times, for December 3d, 1859.)

BLACK HAWK is widely known. In himself and his progeny, he has acquired a name from Canada to Texas. To give his biography is not the object of this article; but some general facts in regard to his origin and character will not be out of place in this connection. He was bred by the late Wingate Twombly, Greenland N. H.; was by the horse known as "Sherman Morgan;" his dam (owned by Mr. Twombly) was said to have been in part of English blood, and from New Brunswick. "Sherman Morgan" was by the horse, or "Justin Morgan," so called. Black Hawk was for several years well known as a trotter. His fast speed was never questioned; but in several instances he trotted a mile in two minutes and forty-two seconds. But he is most remarkable for a combination of speed with strength and power of endurance. At the Cambridge Course, in 1858, he won a match of $1000, by trotting five miles in sixteen minutes, and has performed other feats equally as extraordinary. He was never beaten.

His progeny partake of his properties in a high degree. No horse of which we have any account has left his impress more strikingly, and his future fame will be among those most distinguished for the improvement of their species. The reputation of Black Hawk's stock is such that they command a ready sale, and a large proportion of them bring very high prices. It would be desirable to know the whole amount of money which has been received for those of his progeny that have been sold, but this is impracticable. We have before us a list comprising a portion of those who have been bred and sold in the town of Bridgeport, Vermont, where he has been kept since 1844. From this it appears that 38 animals, and an interest in the 39th, to the amount of one-half, have brought the sum of $22,737, or an average of $596 (and a fraction) each! Their ages ranged from six months to 16 years. Most of them were colts (entire,) but some were geldings and some fillies. This is wholly from actual sales in this town, and has no reference to stock on hand. It shows in a favorable light, the estimation in which the stock is held where it is best known.

RAVEN

Will stand for Mares at Salisbury. Mares sent from a distance will be boarded at one of the best livery Stables in the State, and will receive the very best attention.

The Prices that Black Hawk Colts command, East and elsewhere, are enormously high; the stock is held in high estimation and daily improving.
