LAND FOR SALE.

THE LAND formerly owned by Robert Gillespie, lying in the county of Rowan, 14 miles West of Salisbury, on the Statesville Road, and now belonging to the estate of Dr. S. D. Rankin, dec'd, containing about 200 Acres, under a high state of cultivation, about 60 Acres of fine state Wood Land. I am offer for sale privately. Any person wishing to purchase will please call on the subscriber.

MARY E. RANKIN,
Executrix of S. D. Rankin.

Those who were indebted to Dr. Rankin at the time of his death, are requested to make payment without delay; and those having claims against his estate are hereby notified to present them within the time prescribed by law, or this notice will be pleaded in bar of recovery. MARY E. RANKIN, Ex'x.

April 3, 1860. 1f35

FOR SALE.

I AM now offering my valuable Plantation lying on the waters of the South Yadkin, containing about 350 Acres, about 100 acres under cultivation. The land is well adapted to the growth of Tobacco. Also some as good Bottom Land as can be found in Rowan county. There is always the plantation's number one Saw Mill, in a fine timbered country. Persons wishing to purchase, would do well to call on or at County Line, Davie county, or on Arthur Neely, one mile from Reuben's ford, who will take great pleasure in showing the land. A reasonable credit will be given.

D. M. CRENSHAW.

The Imported

BLACK HAWK COLT

RAVEN!

TERMS: - - - - - $40.

An Insurance money to be paid as soon as the mare is considered with foal. All mares cast by the season to be paid by the season. All escapes at the owner's risk. All mares parted with before foaling, to be considered with foal.

RAVEN is a three-year old Black Stallion, was got by Black Hawk, he by the Vermont Black Hawk. Raven is 15¾ hands high, his color jet black, white hind feet, is of good blood and extraordinary well proportioned colt, perfectly sound, free actions, and his strength and beauty cannot be surpassed. He was by Bascom's Morgan and Vermont, both of the Blood Bay, black mane and tail, 15¾ hands high.

RAVEN was raised by John Watkins, of Canada; he has taken Five Premiums at several Fairs, at which he was exhibited. He is recorded in the name of "Raven," (see Wilkes' N. Y. sporting Times, for December 3d, 1859.)

BLACK HAWK is widely known. In himself and his progeny, he has acquired a name from Canada to Texas. To give his biography is not the object of this article; but some general facts in regard to his origin and character will not be out of place in this connection. He was bred by the late Winget Twombly, Greenland N. H.; was by the horse known as "Sherman Morgan;" his dam (owned by Mr. Twombly) was said to have been in part of English blood, and from New Brunswick. "Sherman Morgan" was by the first of "Justin Morgan," so called. Black Hawk was for several years well known as a trotter. He has proved a never failing, but in several instances he has trotted a mile in two minutes and forty-two seconds. But he is most remarkable for a combination of speed with strength and power of endurance. At the Cumberland County fair in 1858, he won a match of 3 miles, by trotting five miles in sixteen minutes, and has performed other feats equally as extraordinary. He was never known.

His progeny partake of his properties in a high degree. No horse of which we have any account has left his impress more strikingly, and his future rank will be among those most distinguished for the improvement of their species. The reputation of Black Hawk's stock is such that they command a ready sale, and a large proportion of them bring very high prices. It would be desirable to know the whole amount of money which has been received for those of his progeny that have been sold; but this is impracticable. We have before us a list, comprising a portion of those who have been bred and sold in the town of Bridgeport, Vermont, where he has been kept since 1844. From this it appears that 38 animals, had an interest in the 37th, to the amount of one half, have brought the sum of $22,737, or an average of $598 (and a fraction) each! Their ages ranged from six months to six years. Most of them were colts and fillies, but some were geldings and some 6 or 7 years old. This is wholly from actual sales in this town, and will be more to refer to than to start on hand. It shows in a forcible light the estimation in which the stock is held where it is best known.

RAVEN

Will stand for Mares at Salisbury. Mares sent from a distance will be boarded at one of the best Livery Stables in the State, and will receive the very best attention.

The Prices that Black Hawk Colts command, East and elsewhere, are enormously high; the stock is held in high estimation and daily improving.

CONSUMPTION AND ASTHMA CURED.

DR. H. JAMES, discovered, while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and General Debility. The remedy is also recommended by him when he was afflicted, a daughter was given up to die. He cried was cured, and is alive and well. Desirous of benefiting his fellow mortals, he will send to those who wish it, the receipt containing full directions for making and successfully using this remedy, free, on receipt of their names with stamp for return postage. There is not a single symptom of consumption that it does not at once take hold of and dissipate. Night sweats, nervousness, irritation of the nerves, failure of memory, difficult expectoration, sharp pains in the lungs, sore throat, chilly sensations, pepper in the throat, inactions of the bowels, wasting away of the system. Scrofula or King's Evil,

Is a constitutional disease, a corruption of the blood by which this fluid becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may have cast its disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is generally caused by mercurial disease, low living, disorders of the digestive viscera, and, above all, by the venereal infection. Whatever be its origin it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by depositing from the blood corrupt or glutinous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that even such constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by the taint in the system. Most of the consumption which devastates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their personal appearance betrays the lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such medicine we supply in

Ayer's Compound Extract of Sarsaparilla,

The most effectual remedy which the medical skill of our times can devise for this very widespread and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the renewal of the system, from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tetters, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate these vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills

For all the purposes of Family Physic, are a concentrated fluid Extract within the compass of a dollar vial, containing more virtue, more power to cure, than any other pill or medicine in the market. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, arousing its diseased action, and restoring its healthy tone and vigor. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache, arising from disordered Stomachs, Nausea, Indigestion, Foul or Morbid Inaction of the Bowels or Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, all of which, when in the first stage of development, they cure by the hundred, giving their testimony in favor of the remedies.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Whooping Cough, and even in the severer forms of Consumption, Patients in advanced stages of the Disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every person of ordinary abode in persons publicly known, who have been restored from alarming and even desperate dangers of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to require observation, and when its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies have proved the deleterious they have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures unsurpassed and too remarkable to be forgotten.
