BRECKINRIDGE'S POSITION.

In his celebrated Tippecanoe speech, Breckinridge used the following language:

"I AM CONNECTED WITH NO PARTY THAT HAS FOR ITS OBJECT THE EXTENSION OF SLAVERY; NOR WITH ANY TO PREVENT THE PEOPLE OF A STATE OR TERRITORY FROM DECIDING THE QUESTION OF ITS EXISTENCE WITH THEM FOR THEMSELVES."

Mr. Breckinridge continued:

"I HAPPENED TO BE IN CONGRESS WHEN THE NEBRASKA BILL PASSED, AND GAVE IT MY VOTE, BECAUSE IT DID WHAT IT DID—VIZ: IT ACKNOWLEDGED THE RIGHT OF THE PEOPLE OF THE TERRITORY TO SETTLE THE QUESTION FOR THEMSELVES, AND NOT BECAUSE I SUPPOSED, WHAT I DO NOT NOW BELIEVE, THAT IT LEGISLATED SLAVERY INTO THE TERRITORY. THE DEMOCRATIC PARTY IS NOT A PRO SLAVERY PARTY."

"Such is the position occupied by the *par excellence* pro-slavery, Southern rights candidate for the Presidency!

INTERESTING INCIDENT.

A correspondent of the Memphis *Bulletin* sends the following: "On Friday, at Raleigh, when Col. Martin was closing his speech in an appeal to his audience to support the Union ticket, when speaking of Edward Everett's attempt to win back the alienated affections of his countrymen to a love of the Union, by assembling them around the tomb of George Washington, just at that point a beautiful little bird flew into the court house and stopped near his feet. Mr. Collins picked it up in his hand, and commenced his speech by saying he had read in the classics of poets making such music as to charm the trees of the forest so as to make them lend to listen and the rivers to stop to hear, but it was the first time he had ever heard eloquence that could arrest the bird in its flight and induce it to stop and listen. He then loosed it was a good omen, opened his hand, and the bird joyously flew away to its native woods. Perhaps it may sing to its mate the song of the Union, and tell it that, from what it learned, there is still a chance for the people of this country to remain as they have heretofore been, as free as the birds of the air."

Richmond Whig.

JOHN BROWN'S NORTHERN FRIENDS.

Hon. Linton Stephens made the following disclosure in his speech at Augusta, Ga., on Monday night last. James T. Brady is the regularly nominated candidate of the Breckinridge party for Governor of New York, and it has been charged that the Breckinridgers are only running candidates in the North to help Lincoln. Mr. Stephens said: "One of the most earnest defenders of John Brown, to the Breckinridge candidate for Governor of New York, Mr. Brady. He made a sympathizing speech for John John Brown; and my informant (a Southern man,) who heard him, says he was so disgusted with him that he hissed him."

Cannot the people of the South see that the game of the Yancey-Breckenridgers is to secure the election of Lincoln?

Richmond Whig.

Politics engross much attention at New Orleans. On Saturday night last each of the parties had a demonstration. The Bell and Everett men had a procession to inaugurate a new club house in the fourth district, upon which occasion Mr. Roselius made a powerful speech, and was followed by Mr. Flower in a stirring appeal in behalf of the Union. There was a large meeting organized on the outside, which was entertained by other speakers. The Douglas clubs also marched in procession through several of the principal streets, and displayed quite a large force—much larger, it is said, than was anticipated by outsiders. The Young Men's Breckinridge Club held quite a large meeting at Armory Hall, and John Feeney, Esq. and Attorney General Semmes made speeches.

A Cheering Report.—Whatever tends to the dethronement of Republicanism is good news to us, and we therefore chronicle with pleasure any statement going to show the inroads of Judge Douglas on that Union-destructive party.

The Hon. David Tod who has canvassed Ohio pretty thoroughly, gives it as his opinion, after comparing notes, with close calculators, that Ohio will poll this fall 400,000 votes:

Of which will be for Douglas	200,000
For Lincoln	170,000
For Bell	25,000
For Breckinridge	5,000

A PERTINENT QUESTION.

The Louisville *Democrat* asks, "what the deuce does Breckinridge care about the protection of slavery in the territories? Though moderately wealthy and living in the midst of slavery, he does not own a single slave. Is he conscientiously opposed to the 'peculiar institution?' Cannot his organs answer."

THE MAINE ELECTIONS.

PORTLAND, Sept. 11.

Returns from 118 towns give Washburn 39,666, and Smart 23,841. The entire Republican Congressional delegation is elected.

The Floyd Gun.—A correspondent of the New York Times writes from Old Point Comfort (Va.) that on Tuesday last the great "Floyd gun" was fired for the first time:

"The first shell, weighing 260 pounds, was thrown fifteen hundred and forty yards, at an angle of five degrees—and, striking the sand, bounced seven hundred and fifty yards further. The charge of powder was twenty pounds. The second shell weighing 328 pounds was thrown something upwards of four miles on the water, at an angle of forty degrees and with a charge of twenty-five pounds of powder. The powder with which this gun is fired is in grains of about one inch cube. The report is not so loud as that made by the ten inch guns on the ramparts, but the whistling of the shell through the air is terrific. The shell thrown upon the water was forty-two seconds in the air before striking. The "Floyd" gun is pronounced a success, and there seems to be no doubt it will reach a range of six or eight miles. It weighs 49,000 lbs., and cost $10,000."

ONE DAY LATER FROM EUROPE.

Arrival of the Bohemian.

QUEBEC, Sept. 11.—The steamship Bohemian, from Liverpool on the 30th, via Londonderry on the evening of the 31st, arrived late last night. Her news is one day later.

The owners of the Great Eastern have determined that she shall sail for New York on the 17th of October.

Paris correspondents write that there is not the slightest chance that the proposal to make Naples neutral ground will succeed. They anticipate hearing at any moment of the entry into Naples of Garibaldi, and the flight of the King.

The latest Paris correspondence says that Victor Emanuel has sent an autograph letter to Napoleon, declaring it impossible to resist any longer the current of popular feeling in Italy.

There is a reported fall of 10 per cent. in Neapolitan funds on the bourse.

Latest advices from Naples say a Military Council had advised the King to leave Naples, and also that the officers of the army and navy had to-day tendered him their resignations.

The weavers of Coventry, England, who had struck, have accepted the terms of their employers, and gone to work again.

THE LAKE MICHIGAN DISASTER.

TWO HUNDRED AND EIGHTY-SEVEN LIVES LOST.

CHICAGO, September 10.

The following is an estimate of the number of passengers on board the Lady Elgin: Excursion passengers 300, regular passengers 50, crew 35. The number of saved is 98. Capt. Jack Wilson was drowned within 100 feet of the shore.

Nearly 100 persons got within fifty yards of the shore, but were swept back by the breakers and lost.

Only 21 ladies have been recovered. These have chiefly been recognized as residents of Milwaukie, Wis.

The names of more than 150 of the lost are known.

GEN. WALKER TURNED OUT OF TRUXILLO.

CRITICAL CONDITION OF HIS ARMY.

NEW ORLEANS, Sept. 10.

The steamer Osceola, from Truxillo, has arrived.

The English man of war which interfered with Walker was the Icarus. The commander ordered Walker to surrender the town of Truxillo, which command he obeyed, and retired lower down the coast with 60 men. According to last advices, his force had been reduced to 25 by repeated attacks of the native troops.

Walker himself had been severely wounded in the face. Seven of his wounded followers remained at Truxillo, and were placed on board the Icarus. One was a Colonel.

FROM MEXICO.

NEW ORLEANS, Sept. 10.

The steamer Tarbel, from Vera Cruz, at Havana, reports that the Juarez government has declared the Spanish bark Maria, taken at Concepcion, a legal prize.

Miramon was at the capital concentrating his forces. The Liberals were rapidly moving thither.

FROM HAVANA.

NEW ORLEANS, Sept. 10.

The steamer Blenville, from Havana on the 7th arrived to day. Sugar was dull and molasses unchanged.

A cargo of slaves had been landed on the eastern coast of Cuba.

PROF. LOWE AND HIS BALLOON.

PHILADELPHIA, Sept. 8.

The inflation of Prof. Lowe's balloon was resumed this morning, and one o'clock was fixed for the hour of departure. But the high wind caused the balloon to burst, putting an end to the scheme, and wasting an immense amount of gas.

DEATH OF REV. J. R. WATT.

It is with much regret that we announce the death of that greatly beloved and truly pious servant of God, the Rev J. R. WATT, connected with the Presbyterian denomination, and Minister at Steel Creek. He departed this life yesterday, after a severe illness of several weeks, of Typhoid Fever. His remains will be interred this afternoon at 3 o'clock at Steel Creek Church.—*Charlotte Bulletin.*

Book Bindery

IN

SALISBURY.

MR. W. R. DICKS would respectfully inform the citizens of Salisbury, Charlotte, Statesville, Concord, Gold-Hill, Mocksville, Greensboro', Lexington, Morganton, Newton, and the surrounding country generally, that he has established a Book Bindery in this place, and will be pleased to receive orders in his line. Music Books, Law Books, and Periodicals, bound to pattern, or in any style to suit.

☞ His establishment can be found on the second floor over the Post-Office.

☞ Orders from a distance promptly attended to.

W. R. DICKS.

Salisbury, Sept. 18, 1860. 6m18

ANOTHER ACCOUNT FROM WALKER.

NEW ORLEANS, Sept. 10.—The brig Kate, from Trujillo on 21st ult., and Belize on the 3d inst., has arrived. She brings four passengers connected with Walker's expedition. Walker evacuated Trujillo on the night of the 21st, pursued by the enemy. At the last accounts, only one of his men had been killed. No opinion as to the fate of the rest of the expedition can be formed.

[SECOND DISPATCH.]

NEW ORLEANS, Sept. 11.—It is believed the report from Walker by the Osceola that his force was reduced to 25 men, was incorrect.—He was at Limas on the 28th with 96 men, well provided with arms and ammunition. Captain Salmon, of the Icarus, (British man-of-war) had declared his intention to take Walker prisoner, if possible. It is believed Walker will march into Nicaragua. A vessel, with provisions, clothing, &c., from Ruatan, was expected to reach the main land soon.

The Memphis *Avalanche* relates exultingly, that, after the conclusion of Mr. Yancey's late speech in that city, the crowd attempted to take the horses from his carriage that they might draw the vehicle themselves to his quarters. It was undoubtedly a very fitting thing for them to do. The miserable two-legged horses, asses, mules, should have dragged their master to his hotel and then been watered at a trough and put into the stable to much hay and oats till morning.

Louisville Journal.

A Perilous Situation.—A circus clown named Broquet, who has lately been giving performances at Avignon, France, undertook a few days ago, to hang by the hands from the trapeze suspended to a balloon. Soon after the balloon had risen, the spectators were horrified to see it catch fire, and the cords of the trapeze being burnt through, the man fell from a great height. Fortunately it was at that moment just over the Rhone, and Broquet fell into the river. He was not hurt, and swam to the bank.

The Texas Troubles.—The Tyler (Smith co.) Sentinel says that no attempt has been made to fire that town, nor have the citizens of Smith county hung or otherwise violently dealt with any man. It also says that the most thorough investigation, made by a number of the leading citizens, has proved that no such thing as an insurrection has been thought of by the slaves in that county, and that if any such thing has been in contemplation east of the Trinity, it has been confined to one or two small neighborhoods.

What Next!—The negroes of New York city have issued an address, calling upon their friends, white and black, to organize for the November election, at which, according to a law passed by the last Legislature, a vote is to be had upon a proposed amendment to the Constitution permitting negroes to vote, without the property clause, which at present restricts their exercise of the elective franchise.

EVERY SUMMER the demand for Hostetter's Celebrated Stomach Bitters increases. It is found to be the only certain preservation of bodily strength, during a period when the atmosphere is calculated to induce a feeling of lassitude and indigestion. The gentler cases of Diarrhœa and Dysentery, give way before its potent influence. Innumerable persons, who are now alive and well, must thank the discoverer of this preparation that they have not been swept away in the harvest of death. The Bitters is recommended by the best physicians in the land. This is the best evidence of its value, because, as a general thing, they will not speak a word in favor of advertised preparations. They have been compelled to acknowledge the claims of the Bitters upon the community. Sold by all druggists. 1m16

Important Sale!

THE subscriber having determined to move to the South-west, will proceed to sell without reserve at Public Auction, on the premises near Grants Mills, on WEDNESDAY 24th of OCTOBER, the following valuable property, viz:

5 Head well broke Mules, 2 fine Horses, 15 Head of Cattle, (amongst which are some No. 1 Milch Cows) 35 Head fatted Hogs, a good lot of Stock Hogs, Stock of Sheep, all kinds of Poultry, 3 valuable Wagons and Gearing, 1 Extra Fine Rockaway and double Harness, 1 Buggy and Harness, a great variety of Farming Tools, (good and new) 1 full suit of Blacksmith Tools, Carpenters Tools, 4 first-rate Guns, 1000 or 1200 bushels Corn, a quantity of Wheat, Oats, Hay, Fodder, Wheat Straw, a lot of Walnut Plank, all my House-hold and Kitchen Furniture, 1 Share of Stock in the Western N. C. Rail Road, with various other articles too numerous to designate.

At the same time and place, I will sell at public auction my valuable LANDS lying immediately on Third Creek; my home place contains 500 ACRES handsomely and conveniently improved, with a good proportion of cleared and well DRAINED BOTTOM LAND. The mansion is elegantly situated, good Spring Water, and very healthy.

The other tract contains 257 ACRES and is unimproved by any Lands in Western North Carolina. In short the sale will be positive, and a reasonable credit. Further conditions made known on the day of sale.

Sept. 4. 1f16

Scrofula or King's Evil,

In a constitutional disease, a corruption of the blood by which this fluid becomes vitiated, weak and poor. Nothing in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disorderly or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by depositions from the blood of corrupt or abnormal matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which produces in the blood, depresses the energies of life, so that a sedentary constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by diseases which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous constitution; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must resort to the blood in an alterative medicine, and invigorate it by healthy food and exercise. Such medicine we supply in

Ayer's

Compound Extract of Sarsaparilla,

The most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the renovation of the system from deleterious consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcerations, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impurities of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills

For all the purposes of Family Physic,

are so compounded that they are within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health and energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache, arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE SPEEDY CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the Disease.

No wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

SOUTHERN

BOOT AND SHOE MANUFACTORY!

SMITH & MILLER,

MANUFACTURERS OF

Gentlemen's Boots, Shoes and Gaiters,

HAVING opened another place for experience, by procuring materials of the best quality—Machinery of the latest improvement—and the most finished Workmen, they flatter themselves that they can sell as good an article of

Boots, Shoes & Gaiters,

as can be purchased in New England for the same money. They therefore feel confident that their appeal to the citizens of the South to sustain them in their endeavor to introduce among them a branch of Manufacture now confined to the hands of abolitionists, will not be in vain or disregarded. They offer at

WHOLESALE AND RETAIL,

Fine Channelled Boots, French Calf,
Fine French Edge, " "
" Half Welts, " "
" Double Soles, " "

OPERA BOOTS,

(Patent Leather and French Calf)

Fine Open Gaiters, Patent Leather and French Calf,
" Congress Gaiters, French Calf,
" Oxford Ties, French Calf,
Union Ties, (a new style) French Am. Calf.

☞ Go to them and supply your wants and in future you will purchase no Boots, Shoes or Gaiters, save those manufactured by

SMITH & MILLER.

National Flag!

WM. M. BARKER

WOULD INFORM HIS OLD friends and customers that he is again in the

Carriage Business,

and prepared to furnish any style of BUGGY or CARRIAGE from the best to the lowest priced.

He has recently visited a number of the Northern manufactories and exhibitions, himself with all the late improvements in fashion, and made arrangements by which he can supply those preferring it with Northern work much cheaper than could be done by ordering a single job. He intends to build the finest and best work ever done in the country and solicits a call at the Sign of the *National Flag.*

DISTRIBUTED

to the advantage of cash buyers.

FOR NOTHING

but a more desired effect than a cash system. Therefore a call is earnestly solicited, before purchasing elsewhere.

At FRANKFORD'S,

SALISBURY, N. C.

May 7, 1860.

SINGER'S SEWING-MACHINES.

Prices Reduced to $60, $80, $90, and $100.

THE plain reason why Singer's Sewing Machines have always sold readily at a higher average price than any other, is that they are better, more durable, more reliable, capable of doing a much greater variety of work, and earning more money. Long-continued popularity is proof of sterling merit. In the multitude of what are called cheap Sewing Machines, thousands have been deceived and disappointed, but with Singer's Machines there is never any failure or mistake.

Singer's Transverse Shuttle-Machines,

to be sold at $50 plain, and $60 highly ornamented, is a Machine entirely new in its arrangement; it is very beautiful, moves rapidly and very quietly, and for family use and light manufacturing purposes, is the very best and cheapest Machine ever offered to the public. These Machines are being increased in number as rapidly as possible, and yet the demand for them cannot be fully supplied.

Singer's No. 1 Standard Shuttle-Machine,

formerly sold at $135, but now reduced to $90, is the well known all over the world to need any description. Every sort of work, coarse or fine, can be done with it.

Singer's No. 2 Standard Shuttle-Machine.

This is the favorite manufacturing Machine every where. The size of the Machine gives ample space for almost every description of work, which, together with its admirable working qualities, give it a decided advantage. Price, with table complete, $100.

Singer's No. 3 Standard Shuttle-Machine.

For Carriage-makers, and heavy leather work. Price, complete, $125.

Since the great reduction in the price of these Standard Machines, on the 1st of October, 1859, the sale of them has increased four fold.

All of Singer's Machines make the interlocked stitch with two threads, which is the best stitch known. Every person desiring to procure full and reliable information about Sewing-Machines, their merits, prices, working capacities, and the best methods of purchasing, can obtain it by sending for a copy of *I. M. Singer & Co's Gazette*, which is a beautiful pictorial paper entirely devoted to this subject. It will be supplied gratis.
