

people at the May elections, was rejected by a vote of forty-five to ninety.

The resolutions of the Committee contain the substance of a programme, which, we fancy, can be made acceptable to the great mass of the people of Virginia. The resolution, in the main, strongly assert the State Rights principles which have ever been dear to the people of this State. They, together with the proposed amendments to the Constitution, constitute an addition to the guarantees of the Northern States, accompanied with the solemn declaration, that if not acceded to by those States, this State will resume its delegated powers.

An impression prevails in the country to some extent, that by the plan of the Committee this ultimatum is first to be submitted to a Border Slave-State Convention. This is a mistake. The Committee very properly make their own ultimatum, or the rejection or adoption of which by the non-slaving states, their future action will depend. The Border Conference is only intended for consultation, in the hope that the Border States may be induced to concert in the action of Virginia.

#### LATEST EXCITEMENT.

The session papers now report despatch from Washington that Genl. Dixons is to be reinforced. Anderson's supplies have been cut off. Great activity in the Mary Yard at Beaufort—800 men at work. Four war ships ready for service. War ships of New York taking on board an abundance of war stores. Nine hundred ready to sail, &c., &c.

Circumstances resulting in the success of the democratic candidate by a large majority. Union candidate for Major elected in Kansas City. Mo.—Democrats carried the musical election in Toledo, Ohio. Also, at Sandusky, N. Y. Also, Elmira, N. Y. Also, Brooklyn, by a large majority. Republicans elected Major of Portland, Me.

The Confederate States have a formidable military force at Pensacola, comprising the "best men" in the South. It is reported that Melville, claiming to be the rightful owner of Texas, is marching an army towards the frontier to retake it. The U. S. agents sent to England and France, it is said, have reported that these powers will now the Southern Confederacy no longer.

South is a part of the "now" by Monday morning still. It may or may not be true. There is plenty more of the same sort.

#### STEAL BURNT.

We learn that on the night of the 24th ult., the slaves of Mr. John Kinley, of Davie county, were set on fire and burnt by some unknown person or persons. The design, we doubt, was to burn Mr. Kinley, a son-in-law of Mr. Kinley, was known to have a considerable sum of money. While the family were out at the fire, the village entered the dwelling and carried off Mr. Kinley's bureau some distance from the house, broke it open and rifled it. Fortunately for Mr. R. he had removed all his money with the exception of \$2,000. The two slaves of course, was all that the perpetrators of this infamous crime got. We understand Mr. Kinley has his eye on several persons whom he thinks guilty of the crime. Mr. K. succeeded in getting all his losses made up.

Not the least among the anomalous characteristics of the vital day upon which we have fallen is the spirit of rancor and intolerance with which instant differences of opinion are treated by political opponents. Characteristics of intolerance, combining with public discord, seems in some cases to have taxed its ingenuity in order to surpass and blacken the reputations of those whose only crime has been, at the most, an error of judgment. The vulgar story of gloom has been exhausted in endeavoring to furnish incentive for the gratification of partisan spite and animosity, in which the current disregard for the obligations of truth has been only equalled by an impudent attempt for the rules of common decency. —*Nat. J.*

No State is more and truer more emphatically true than in North Carolina. The silent slanders are uttered, un-written, and printed, maligning the character of editors and public and private individuals, who dare to think for them, adverse to the rights and interests of their State. Two thirds of the people think as they do, which ought to furnish some presumption to the minority that the tide will ebb rapidly to right.

But in proportion to the malice is weak, it is virulent, vindictive, abusive, and slanderous. The shameful slanders published may be disproved by evidence as clear as a sunbeam, but what care the slanders? They retract none of them, nor allow the injured individual to disprove them through the same vehicles in which they were perpetrated. On the contrary, the more clearly is the false hood shown, the more certain is it to be originated and circulated. —*Eug. Ob.*

overdone by the South, and we have an entirely loyal and faithful laboring population, who will, by their labors in the corn and cotton fields, enable us to send nine-tenths of our male population to the battle field."

#### UNION MEETING IN DAVIE.

A large and enthusiastic meeting of the Union party of Davie County, was held at the Court House in Mocksville, on Tuesday, 26th March, (yesterday) last week, for the purpose of appointing delegates to a Convention to nominate a candidate for Congress, in the sixth district.

On motion of Dr. H. Sprague, Dr. Jas. F. Martin, was called to the Chair, and H. Howard, appointed Secretary.

The Chairman having explained the object of the meeting, it was moved by Dr. Sprague, and seconded unanimously, that four delegates be appointed from each Captain's district to said Convention; whereupon the names of the following gentlemen were announced, to wit:

S. W. Taylor, Wm. H. McLean, Dr. L. W. Cash, E. G. Clinton, Dr. H. F. Williams, Joseph Cathell, Stephen Daugherty, W. A. Howell, James Craig, Isaac Holman, Harrison Cook, H. C. Eddins, D. M. Chisholm, John Gray, Daniel Griffith, Maj. Samuel A. Johnson, John C. Foss, Robert Crump, B. W. Barker, Spencer Haynes, John G. Stewart, Wm. Bailes, St. John Hayes, Samuel Bailey, Harry H. Hobson, William B. March, George Bainbridge, Dr. Robert Sprague, Dr. C. V. Lanier, W. D. Trammell, and J. A. Kelley.

After the announcement of the delegates, Hon. James M. Leach, being in town, was invited to address the meeting, which he did to a crowded audience in an eloquent and satisfactory manner for more than an hour. It would be impossible to give, in a short space more than a brief synopsis of his speech. He set out by declaring himself a thorough Union Man, and pointed to the various public acts and votes of his past political life, and especially to his record and speech and constant endeavours during the Thirty-sixth Congress, to allay the excitement and distractions of the country, and preserve the integrity of the Union, which had showered upon us as a nation many blessings; he thought at one time, as many other Union men did, perhaps, a convention of the State, composed of true Union men, and putting an end to the wretched and unconstitutional doctrine of secession; might be the best policy, but the people of the State, to whom its Government had voted it down, and recent developments had shown that they were right, as they always are in such cases.

South Carolina Convention.

CHARLESTON, April 2.—The Convention has been in secret session all day discussing the Confederate Constitution which will doubtless be ratified to-morrow by a large majority.

(SACRED DISPATCHES).

CHARLESTON, April 3.—The Convention today, by a vote of 129 to 29, ratified the permanent Constitution of the Confederate States.

Democrats will change their votes to-morrow when the minority will be reduced to ten or twelve.

THE GREAT DRAWBACK to persons emigrating to the extreme south and western country, is the fact they have of the Fever and Ague—the most dreadful of all diseases. Every day we hear of persons attacked by this disease, and die of it. Those who do not die of it, will be disabled for life. In view of the great demand for a remedy Dr. Hunter has presented us with CELEBRATED STOMACH BITTERS, whose curative power for all diseases of the stomach have been universally acknowledged. The Bitters, prepared after a long experience and many trials, have received the endorsement of the most eminent physicians in the country. They are all drawn from the best and rarest roots and herbs, and are compounded by the best炮手. —To those who doubt the efficacy of these Bitters, prepared after a long experience and many trials, have received the endorsement of the most eminent physicians in the country. They are all drawn from the best and rarest roots and herbs, and are compounded by the best炮手. —To those who doubt the efficacy of these Bitters, prepared after a long experience and many trials, have received the endorsement of the most eminent physicians in the country.
