Another Omission — We copied on Thursday from the Charleston Courier on incident in re-tron to a Virgima brigade and the 1-th North Carolina Regiment, the particulars of which had been omitted from the Virginia papers— We have heard another incident, which is freely circulated in Kichmood, but has not We have heart and the freely circulated in Richmood, but has not found a place in the papers of that city. The story runs annewhat ther: Gos. B. H. Hillordered a Georgia Regiment to take a certain battery of the yankees. The operation was of course a dengarous and. The Georgians best tated. Their Colonel appealed to them, but it vain. "March that Regiment to the year, trusted the General. "We have no use for over trusted the General. "We have no use for over men. I have Regiments which never water or heatstate. The General then aedered the Fourth North Carolina to do the Georgians work. The Georgians could not stand that. They racked forward and meriad the battery themselves at the point of the beyonet.

The glorious 4th North Carolina! We spoke of this Regiment long before it was ever engaged with the enemy, and could deatly predicted it would make a distin guishing murk for itself. It was comp of some of old Rips best material. It occapied, we know, the warmest recess of Col. Anderson's heart; and it seems also to have effected a sure lodgment in the affections and confidence of other able and distinguished Commanders. Its gallant beering in battle has gained for it the admiration of the country. Its bonors cluster thick upon it. We have beard it said it was to be sent home to recruit. Reduced from near 1000 to 160 men, it needs recruiting. It woods rest. We think it ought to have both. It has returned to the Governor the flag given it by the State when it first murebed to Virginia, all eng to pieces by the ballets of the enemy, and modestly sake a new one. Give it by all means. Give it a thousand more mea. and all else that it maks, for we are sure it will ask nothing not in strict accordance

with its acknowledged gallantry.

But the future historian will hardly distinguish between the 4th and any other of our North Carolina Regiments. Our State Troops have made a character in this war which the withings, long accustomed to sneer at us, little expected, and have gradgingly admitted ; and we believe they will sustain it unto the and.
