

...the United States District Court... Judge Underwood... the trial be postponed till October.

It is understood in Government legal quarters in Virginia, having knowledge of what relates to the proposed trial, that the Chief Justice will, in his own time, see Jefferson Davis, but not at the next term.

The Tribune thus speaks: We do feel that the Government of our country is disgracing itself by the treatment of this prisoner—that it ought to have brought him to trial long since, and let him know his fate—that it is playing a shabby, shuffling, cowardly part with regard to him—that it should either retract its charge of assassination or have him indicted and tried thereon according to law.

Some exceedingly smart people think capital may be made for or against Andrew Johnson by letting this game go on. We feel that it should be stopped once—that the prisoner should be arraigned forthwith on the most damaging charge that can be maintained against him—that he should be promptly and fairly tried thereon—and that all talk of punishing or pardoning him should be abandoned till the verdict shall have been rendered.

The Herald, on the same subject, says: We adhere to our first impressions, that the ends of justice would be best subserved and the dignity of the nation best sustained by opening the doors of Fortress Monroe and letting him go with-never he will. At any rate, let his case be dealt with promptly. The country is about as weary of the subject as the prisoner is of his captivity.

PROPERTY EXEMPT FROM SALE. The laws of Georgia exempt from sale the following property of every debtor who is the head of a family, by virtue of any process whatever: 1. Fifty acres of land, and five additional acres for each of his or her children under the age of sixteen years.

WAR DEPARTMENT. BUREAU OF MILITARY JUSTICE, Washington, Dec. 15, 1865. Mr. S. Conover: Dear Sir—Your letter of the 13th instant has been received. Enclosed please find draft for \$150, which I suppose will be needed, from the number of witnesses you seem to have in hand. Sign the receipts and return them to me.

TERRIBLE ACCIDENT. When president Johnson was returning home on Friday of last week, some 3,000 persons assembled at a place called Johnston for the purpose of giving him a welcome. Near the depot is an old canal and which has a double crossing with a sort of cover, fifty feet square between. Upon this structure or bridge some eight or nine hundred people had congregated, a large number of whom were women and children. The centre part was densely packed, and must have contained at least four hundred people, when the structure gave way precipitating men, women and children some twenty feet. It has been ascertained that some thirteen persons were killed, ninety odd badly wounded, and a large number bruised.

THE DIFFERENCE. Greeny acknowledges that at one time during the war he was exceedingly doubtful of the success of the Union cause, and was anxious to make the best terms possible with the "Rebels." The philosophy of the Tribune, the voice of the North, had much more respect for the armed and defiant Confederate than for the unarmed and subjugated "Reb." ANOTHER NAME.—The Norfolk Day Book, in speaking of the "unmistakably loyal men" of North Carolina, says: "We respectfully suggest that they be called 'Terrorists,' inasmuch as many of these people were devoted Confederates during the war, as pay rolls of the quartermasters and nitre bureau will show, if examined. They were generally ferocious war men on a peace footing.

At a late hour Saturday evening, Justice Thomas J. Corprew, at the instance of the Bank officers, issued an attachment against the Old Dominion printing establishment, and Sheriff Degees immediately took possession of the same. Connected with the financial denouement there is a domestic feature which has occasioned more astonishment than the alleged forgeries. Last week, Mr. Flint, who has been absent at the North for some time with his wife, sent the lady back to Norfolk, and then eloped with another man, said to be the wife of a Norfolk man, but now a merchant of Norfolk.—Flint has always borne a fair character for integrity in the Norfolk community, and in addition to his newspaper association, was chief accountant at the Gosport Navy Yard, under the United States Government.

PAID FOR CHILD FOR LIQUOR.—The Detroit Post gives an account of the arrest in that city of a young married woman for being drunk. In order to satisfy the cravings of her appetite, she had pawned her husband's clothing during his absence; her wedding ring went the same way, finally she went so far as to pawn her son, a bright-eyed handsome little fellow, three years old. The mother refused to tell where she had left him, and only after a long search was he finally recovered. The unfortunate woman was placed in a charitable institution, where a reform will be effected, if possible. The besotted wretch who received a child in exchange for liquor from an inebriated woman, should also be placed in an institution of another kind, and kept there.

THE NATIONAL EXPRESS AND TRANSPORTATION COMPANY has made deed of assignment of all its property, rights, and credits, to Messrs. John Blair Hoge, Jo M. Kelly, and C. Oliver O'Donnell, trustees, for the settlement of its liabilities: First, for the payment of the officers and employees of the company; second, to defray the Baltimore and Ohio Railroad Company and the Bank of Commerce of Baltimore, the amount of which cannot be exactly stated, but which are said to be the principal debts due; third, to indemnify any officer or director of the company who may be liable as endorser or security for the same; fourth, to pay railroad companies for the transportation of express matter; and fifth, to pay all other debts and liabilities of the company in rateable proportions. The deed was executed on the 20th of September. The company is permitted to remain in use of the property until the 1st of November, 1866, and thereafter until the trustees shall be requested by the creditors so secured, and whose debt or debts shall then be due, to take possession of such property; but the trustees are required to take possession at any time after the date of the deed if requested so to do by the Board of Directors.—Rich. Dispatch.

THE REPUBLICAN PARTY AND NEGRO SUFFRAGE.—The Boston Traveller (Republican) has the following: That it was the action of northern men that led the convention of loyal southern men not to support colored suffrage admitted, and such action will prove fatal, it is feared, to any effort that may be made hereafter to obtain political justice for the colored race. If Northern men cannot at this late day, so much as tolerate colored men at the polls, what could be expected of Southern men when they have obtained the blessings of restoration, and no longer have anything to fear from Northern men?

TO BE EXTERMINATED. The Philadelphia Press of Tuesday morning contains a speech from John W. Forney at Lockawanna, Pa., on Saturday, of which the following is an extract: If the southern people do not ratify this (negro equalization) amendment, or if they do it, what then? I think I see by the glitter of your eyes, and I know by the throbbing of my heart, that if they should ever be guilty of this new infatuation, the war that would ensue would establish this fact, that that which has passed was but a child's play, or as a picnic, to that which will come. The army that will go to the southern country will go there to stay; it will not go there to revenge, but to exterminate—Brownlow's remedy will indeed be tried; there will be the remedy, the one to kill, the second to burn, the third to divide the plantation among the men that go down the second time to avenge the insulted flag of our country. I see this sublime resolve in the glint of your eyes, and I feel it in the throbbing of my heart—I feel it everywhere—I hear it in the trumpet voice of destiny. That we shall not prevail against these men is to expect that God is dead.

PRIMITIVE BEEHIVE.—The following mode of keeping bees has been practiced in India for a long period, and is said to be very successful: "As honey forms a favourite article of food among the Himalaya highlanders, they have a very extensive sale for it; it is therefore with them a great article of internal commerce, in fact, the staple at their bazaars, where it always finds ready vent. They obtain the honey without destroying the bees, by means of a hollow cylinder of wood inclosed in the wall of their huts on the side most sheltered from the weather, and in which there is an opening from without for the bees to enter. In the centre of the hive there is a moveable division which is kept open while the bees are making their honey; but as soon as the combs are full, the busy family is driven out by a noise made through the inward extremity. As soon as they have retreated, the central partition is closed and the combs are drawn out of the cylinder from the opening on the inner wall. The honey being secured, the hive is again opened, and the bees commence their interminable labors of reproduction."

AN UNHAPPY WIFE IN NEW LONDON tried to starve herself to death.

At a late hour Saturday evening, Justice Thomas J. Corprew, at the instance of the Bank officers, issued an attachment against the Old Dominion printing establishment, and Sheriff Degees immediately took possession of the same. Connected with the financial denouement there is a domestic feature which has occasioned more astonishment than the alleged forgeries.
