

THE PLAN. We publish in this paper the last "plan" for the reconstruction of the Union. It is the work of a number of Southern and Northern gentlemen, accidentally, or by invitation at Washington, acting without such authority as to impart to it any considerable value.

The Greensboro' Patriot is out in a new and splendid dress. It is gratifying to witness such evidence of prosperity among our brother editors of the State, than whom we know of none more worthy of public esteem.

THE RED STRINGS. We publish in this paper the Constitution of the "Red String" Association. We believe it has several allusions, viz: "Union League," and "Heroes of America," and it may be, others. We had hoped to give a more extended notice of this association in this paper, than circumstances will permit.

And still another feature of this Society is, that they will not take the testimony of any outside people against a "brother," except in extreme cases, when they will admit the word of conscientious members of some Christian church. Christian people, from the reports given of the membership of this Union League, may well doubt whether this is a compliment to them or their religion.

But we must dismiss the subject with the single remark that it is found to be very troublesome to a man to have himself bound up in terrible oaths to keep the secrets of other people. A secret is a troublesome thing at best, and not unfrequently brings folks to sorrow and distress; and if the membership of this Order should murder one of their rebellious brothers and attempt to keep it a secret, they will most surely find it to be a serious and troublesome spot-work.

Cor. Tew.—The citizens of this place were greatly surprised, though gratified to learn, that Col. Tew is probably yet alive. A young man, who bears his name as W. W. Wallace, a citizen of Little Rock, Arkansas, represents himself to have been a prisoner in the government prison at Dry Tortugas, and from which he was released on the 7th of January last. He says that among the prisoners at present, confined at Dry Tortugas, is Col. C. C. Tew, who was wounded and captured at the battle of Sharpsburg; that he was taken to Delaware, and afterwards to Fort Clinch on the Florida coast, that at some point in his travels, in an attempt to escape, he killed a Col. Turner of the Northern Army, for which he was tried by court martial, and sentenced to perpetual imprisonment at the Dry Tortugas; that he had been severely wounded in his hip, probably in the attempt to escape, from which he was still suffering. He says that Col. Tew is passing under an assumed name, but that he gave to him his real name; and though professing to be no intimacy, or frequency of intercourse with Col. Tew, is satisfied of his identity. It will be remembered that at the first report of his death, it was stated that he was shot in the chest, and that he has the marks of a bullet wound on his head.—Hillsboro' Recorder.

A Child.—The Knoxville (Tenn.) Messenger tells of a negro child which was born there the 16th of January, having only one ear, nose, 16 fingers, 16 toes, and a single eye in the side of the forehead. It was still-born.

A line of steam carriages for common roads, the experiments with which have succeeded so well in France, Nantes and Paris is about to be established from Marseilles to Aubagne, a small town situated sixteen kilometers (ten miles) off.

Maryland has abolished the law permitting the sale of negro criminals. They will have to go to penitentiary now, the same as white people.

The senate assembled at the usual hour. The reports of the various standing and select committees were received and read. Sundry bills and resolutions were introduced and referred to their appropriate committees.

UNFINISHED BUSINESS.

The bill to protect landlords from insolvent debtors was then taken up. The question recurring on the motion of Mr. Gash to strike out the fourth section of the substitute, the original bill was put upon its third reading, on motion, and the yeas and nays demanded upon the question of adopting the substitute offered by Mr. Wiggins. The resolution in relation to common schools, was, on motion of Mr. Hall, placed upon the calendar, its further consideration being postponed. The question then recurring on the bill to protect landlords from insolvent debtors. Mr. Moore moved to amend the original bill by requiring the rent to be collected by attachment, when such rent is stipulated, to be paid in money, which was adopted. Mr. Jones offered a substitute for the original bill, which was not adopted. Mr. Jones moved to amend the original bill by inserting an additional section, giving the landlords a lien on the property of the tenant. Ruled out of order by the chair.

The original bill was then put upon its third reading and passed by a vote of yeas 30, nays 10.

[This resolution lies over one day under rule.]

Mr. Crawford, of Macon, a joint resolution that the General Assembly adjourn sine die on Monday the 18th inst. [This resolution passed the house, and was sent to the senate for concurrence.] UNFINISHED BUSINESS.

The house resumed the consideration of the Revenue bill on its 3d reading. The only material amendment adopted on this reading, was the following, offered by Mr. Durham, as section 7, under the head of "exemptions":

"The property and polls of all persons who have lost an arm, leg, hand or foot in the military, naval or marine service of the state, or the late Confederate States, or who have been disabled from performing ordinary manual labor by any other wound, or any disease or accident in said service; also the property of the widows of all persons who have lost their lives in said service; provided, that the property exempted of each person herein included, shall not exceed two hundred and fifty dollars in value; and provided further, that the excess over two hundred and fifty dollars value of the property of all such persons, shall be subject to taxation as other property. And it shall be the duty of the county courts in the several counties of the state, upon motion, to examine the claims of all persons claiming the benefits of the foregoing section, and upon proof that they are included within its provisions, to grant certificates of exemptions to such persons, which certificates shall be issued by the clerk, and he shall receive no fee therefor."

[This amendment when first introduced, proposed to exempt \$500 worth of property, but was modified, by reducing the amount exempted to \$250.] The question recurring on the passage of the bill on its third reading, Mr. Logan moved, its reference to the finance committee with instructions to report a bill to raise revenue adequate only to the ordinary expenses of the state. Mr. Logan said that he did not object to the principle of the bill, on the subjects of taxation, but according to the Treasurer's statement, but \$490,533 was needed to meet the ordinary expenses of the two fiscal years, ending September 1868. He was therefore opposed to the onerous and oppressive taxation proposed in the bill.

Mr. Harper defended the bill and opposed the motion to refer. The house refused to refer, and the bill passed its 3d reading.—Yeas 70, nays 27. The house then adjourned.

NEWS OF THE DAY.

From Washington.

Washington, Feb. 5.—The author of the letter which led to the resignation of Motley is Geo. W. McCracken of New York.

Gov. Sharkey is in bad health, and will leave as soon as he is able.

Gov. Parson leaves to-morrow and is authorized to say that the features of the new plan of adjustment, as published both North and South, is garbled and unreliable. Gentlemen prominent in the project regret its publication. The true text of the scheme will be presented to the North Carolina Legislature in a few days. And will be given to the public by that body. The scheme originated with southern men without formal consultation with either political party. It is claimed by its friends that it will meet the demands of the great conservative element of the country, and drive the extremists into reasonable terms. The morning train southward will not leave till noon, on account of damage to the bridge.

Congress.—Washington, Feb. 5.—In the Senate the bill praying war claims was amended so as to exclude claims from the southern States, and passed.

The Secretary of the Treasury was called on for information in regard to the cotton seized during the rebellion. The disposition of the proceeds, with the names of the parties interested.

The bankrupt bill was resumed. An amendment, that persons unable to take the test oath be excluded from its benefits, was lost. Yeas 10, nays 30, and the bill itself was defeated by 20 to 22.

In the House, the Post Office Committee was instructed to enquire into the expediency of building a Post Office, Court Room and Custom House at Nashville.

The majority of the Committee on Indian Affairs reported favorably to Louis V. Bogg's contracts.

From Washington.

Washington, Feb. 6.—The Washington special of the Times says, that it is known that the President has telegraphed, as a private citizen, to the Southern Legislatures urging the adoption of the "new plan."

Mr. McCracken, the author of the Motley letter says, that a majority of our Foreign Missions are held by Massachusetts patriots, and controlled by such men as Phillips, Butler, Zash and Chandler, and that it is his patriotic duty to inform Mr. Seward how the country is misrepresented.

By the Cable.

Berlin, Feb. 5.—The Duke of Flanders, heir to the Belgian throne, is about to marry the Princess Hohenzollern.

London, February 5.—During the delivery of the Queen's speech, the people cried, Reform! Reform!

The Queen's Speech.

Washington, Feb. 6.—The Queen's speech in full has been received by telegraph. She hopes that the Prussian, Austrian and Italian war will lead to the permanent peace of Europe. Predicts the early removal of the grounds of difficulty with the United States. Favors a closer Union among the American provinces. Regards Fenianism as suppressed. And thanks God for the disappearance of the cholera and cattle plague.

A NEW STAY LAW.

A gentleman who arrived in the city on yesterday from Pitt county, reports that the Sheriff of that county was assaulted by a party of armed men, a few miles from the town of Greenville, a day or two since, and several executions and papers then in his possession, returnable at the Spring term of the County Court, were seized and destroyed. The parties then proceeded to Greenville, and entering the Clerk's office enacted the same scene, seizing and destroying all the papers in that officer's possession, also returnable at the Spring term of the County Court.

A feeling of intense excitement prevails, throughout Pitt and the adjoining counties in consequence of this event, and strenuous efforts are being made to discover some clue which will lead to the recognition of the pirates perpetrating the outrage. Their efforts are attended, however, with considerable difficulty, the Sheriff being unable to recognize any one of the party, so thoroughly were they disguised.

This act establishes for Pitt county, quite an effective stay law, will be felt for some time to come.—Wilmington Journal.

DO NOT CULTIVATE OLDINARY LAND WITHOUT MANURE. Recollect, says the Cultivator, it costs you on our average soils, ten dollars or more, to make an acre of corn with hired labor, and fifteen or more to make and gather and acre of cotton. If you do not look closely after your hands, it will cost you a good deal more than that. Now, every acre cultivated, that will not yield crops worth at least the above amounts, will not only be no profit, but run you into debt. Large crops still are required, to obtain a profit on hired labor. Lands, then, which will not yield such crops, we must let them rest, or manure them sufficiently or we lose money. At least half of our poorest soils, hitherto devoted to corn and cotton, should be thrown out to rest, and the balance enriched. How long will it take us to exhaust what little capital we have left, if for every acre on which we can make a net profit of ten dollars, we continue to cultivate five, which lack from three to ten dollars each of meeting the actual cost of cultivation. There are few lands which will not yield a profit, if commercial manures are judiciously applied.

Affecting Incident.—A story is told of a mother who sent her daguerotype to a "midnight meeting" in London, hoping that an abandoned daughter might see it and repent. The picture was passed around in several meetings, until at last it met the eye for which it was intended, and the guilty girl broke into tears, and set out at once for the home of her childhood.

No Doubt about It.—Prattice, of the Louisville Journal, tenders his advice to the public as follows: "Never buy goods of those who do not advertise. They have so little to sell that they have to sell dear." No doubt as to the truth of this declaration. Visit the stores in Raleigh, and the wisdom and veracity of Prattice will be felt and experienced.

DARING ROBBERY.—A few days ago a party of desperadoes attacked Mr. Gray, the Sheriff of Pitt county, at a point known as Haddock's Cross Roads, compelled him to dismount and surrender to them all the funds and official papers in his possession. We understand no violence was offered. The same band, or another acting in concert with these, then proceeded to Greenville, entered the Clerk's office and destroyed most of the records and legal documents therein.

New Haven has an ice boat, Minnie E. Dodd, which can run with safety on ice four inches thick and make seventy miles an hour. She is thirty feet long.

"Aunt Margaret's Trouble," is the name of a story written by Dickens's daughter.

MARRIED: In Catawba county N. C., on the 31st day of January, 1867, by John D. Caldwell, Esq., Clerk, T. James Linebarger, and Miss Zuleika McCombs.

THE SOUTHERN HEPATIC PILLS, MADE and sold by G. W. DEEMS, the discoverer, who has removed to Baltimore, Md. where he can have access to the purest and best medicines, on the most favorable terms. He will always keep on hand a large supply, and will sell to his customers, wholesale and retail at the shortest notice.

In the preparation of these very superior and excellent Pills, no cost or trouble is spared to insure the greatest possible degree of perfection, in point of utility, excellence and comfort. They contain one article which has probably never before been used as a medicine, and which is a powerful agent in clearing the Liver, (which gives them an advantage over every other Pill heretofore offered to the public.) The composition used in these Pills is carefully prepared by the hand of the discoverer, and may be used by the most feeble patient in the most delicate situation, either male or female, and from their peculiar combination are highly strengthening, mild in their action on the bowels, and induce a climate like that of a hot and dry climate, and are almost a sure remedy for the sudden changes to which all are subject, every one at all liable to suffer from the influence of these causes, will find the greatest security in having his liver and bowels well cleansed by these valuable Pills.

These Pills are known, especially in the Southern States, where they have been circulated so extensively, they need no recommendation—their merits are so well known by their results. Price 25 Cents a Box; \$2 50 a Dozen. He will also keep on hand a supply of Deems' Sovereign Remedy, for the cure of Fever and Ague and all other Chills and Fevers.

We wish it to be distinctly understood, that we give our Pills, under the name of DEEMS' SOVEREIGN REMEDY, by operating on the cause and the effect at the same time. It is now universally admitted, and taught by the Profession, that Fever and Ague, under every form and modification, is caused by a torrid state of the Liver, rendering the patient liable for the introduction into the system of a certain malarial or poisonous agent called Malaria, or Marsh Miasmata. For one Dollar, we furnish a package containing two boxes of Pills, one to act upon the Liver, cleansing and purifying and putting it in a healthy, active condition. In the other we claim to have discovered a medicine, which when taken into the stomach, passes into the circulation, and, by coming into contact with the cause of the disease, Malaria, neutralizes or destroys it, and is, emphatically, an antidote to the poison. The advantage in this treatment, therefore, is, that a cure must be radical and complete without the necessity of breaking down the system in one part to remove a disease in another.

All the above medicines can be furnished at fifty per cent discount, by the gross. At the above rates they can be sent by mail or express to any point in the United States. The cash must accompany the order or C. O. D. We thank our customers for the liberal patronage given us heretofore, and hope they will continue to favor us by sending their orders to G. W. DEEMS, No. 28, South Baltimore Street, Baltimore, Md., where they will be promptly attended to. For these Medicines call on all respectable Druggists everywhere, and on all the Druggists in Salisbury, N. C. 5-ly.
