To Protect Sheep from Dogs - It sheep are kept in the same lot with cows or fall cattle no dog will disturb them. As soon as the dogs approach the sheep, they run to the cattle, who drive off the dogs. # A CURIOUS STORY.

Shocking Punishment.-The N. Y correspondent of the Troy Times gives the following singular yaru:

A shocking case of summary punishment which becarred in our neighboring city of Brooklin, has just leaked out, though the most strenuous efforts were made to keep it from the public ear. It is well only to relate the following circumstances; as there is reason to believe the attempted secreey has given birth to many of the reports connected with the affair. About three weeks ago the residents of a section of Powers street were startled by the screams of a woman and immediately a servant girl was met coming from the house inquiring for the nearest physician. To inquiries made of her, she said her mistress had met with an accident. Next it was learned the injuries were inflicted by vitriol being spilled on the woman, but how was not explained. It was also learned that a gentleman visiting the house at the same fine was also terribly burned from the same cause. It was then ascertained that the woman's eyes were utterly destroyed and her face herribly distigured, and that the gentleman was also so badly burned that he could not be removed from the house. But to all inquiries as to how the accident occurred, no satis factory responses were given for a long while. An application for divorce, however, by the busband threw some light on the subject, as people would know why a husband would wish to leave the wife in the condition she was. It was then earned that the vitriol had descended through the ceiling; where it was found that several holes had recently been made. How the vitriel came into the HOW OHIO RADICAL PAPERS TOOM, how it was spilled, or why it was a TALK OF NEGRO SCHOOLS. spilled, are questions which no one seems competent or willing to answer. But, av remarked above, report answers them treely, and the general opinion, is that the husband preferred not to shoot he wife's gentleman visitor.
