## Look at This.

THE Wardens of Edgecombe county, finding it indispensable for the accommodation of the poor of said county, to add to their building, and also finding a division among the people respecting the plan, and feeling a desire to act according to their views, they have postponed any further building until November Court next; and recommend to the captains commanding each district in said county, at their next muster, if to take place before Court, and if not to appoint one, and open a poll of election under their inspection, together with any other person they may call on to aid them:—and take the votes of every taxable person that lives in the district who comes forward to vote; the votes to be taken for or against the poor house and the votes to be returned from under their hands to some one of the Wardens or to the Board of Wardens on Wednesday in Court week, in Tarboro'. If a majority of the votes should be found in favor to the present plan, they will immediately proceed to let out the buildings before the Court-house door to the lowest undertaker, and if a majority should be against the present plan, the house and land can be sold for the support of the poor of said county.

By order of the Wardens.

## A CARD.

THOSE Gentlemen to whom proposals were sent for improving and enlarging the Old Dominion, will be so good as to return the same without delay, that the Editor may determine upon the propriety of forthwith ordering new type. If the country has done nothing,—or next to nothing, tendered only a feeble support, we fear we shall be compelled to forego the execution of our project of enlarging and improving the Old Dominion, and must content ourselves by continuing as we are, for a few months longer. It is useless to labor against impossibilities; and if the Jacksonians of the South-Side will not support the only original Jackson paper in Virginia, we must reluctantly give up the Old Dominion, but not Old Hickory. Be our future destiny what it may, we shall always be found under this standard.

D. RICHARDS.

WM. TANNEHILL.

Tarboro', Oct. 15, 1830.

Hydrophobia.—A learned and experienced Physician in Philadelphia, Dr. Rosseau, maintains that Hydrophobia is not produced by a specific virus. He regards it as a tetanic affection, and says there is always danger of Hydrophobia from the bite of a dog whether the dog be healthy or diseased, in the same manner as there is always danger of the lock-jaw, from running a splinter or nail into the foot or hand. It is only one case in a hundred or in a thousand that the running of a splinter or a nail into the hand or foot, is followed by the lock-jaw. In like manner it is only a few instances, out of many, that the bite of a dog occasions hydrophobia.

Premium Children—At an exhibition, a year or two since, under the direction of the Agricultural Society of Schoharie, New-York, a woman presented three infant daughters that she had at one birth. There was no premium established, but a number of bachelors presented her with \$5 each, making up a handsome purse.

Cure for Cancer.—One grain white arsenic, and 20 grains superfine flour, intimately mixed, and to be applied to the sore in the form of paste.

[The above was obtained from one of the most respectable and wealthy gentlemen of Baltimore, on whose veracity the utmost reliance may be placed. He says that two or three applications completely eradicated a cancer formed upon his nose, drawing out the smallest fibres connected with the sore. It is thought worthy of publication.]

Noses of the New Yorkers.—A Mr. Neilson has lately published, in Scotland, a book of travels in this country. The following is his opinion of the nasal protuberances of the people of the goodly city of New-York;

"I have heard it remarked by foreigners that the New Yorkers in general, both male and female, do possess a length of nose which cannot fail to attract the attention of the most superficial on-looker. So far as my own experience goes, I am wonderfully mistaken if the first twenty noses a stranger encounters in Broadway do not measure with any twenty-five average noses in Glasgow or Edinburg. In spite of this peculiarity, the inhabitants of New-York may be termed rather good-looking."
