

relinquished the prosecution, & the prisoners were discharged. Seven negroes were tried in Sampson county last week, for participation in the late plot; of whom two only were convicted. They were sentenced to be hung on Saturday next.—*Star*.

Abingdon, (Va.) Nov. 5.—We have received the following letter from the Postmaster at Kingsport, Tenn. on the subject of the late insurrection at that place:—

"For some days previous to the 17th, there was considerable alarm among the people. On the 17th and 18th ult. about 31 negroes were apprehended, some 6 or 8 of whom were used as witnesses. Wednesday, Thursday, and Friday, were taken up with an examination; the result of which was, that 16 were committed to jail—and their trial is now progressing before a called Court in Blountville. I presume there will be something like an official report of the whole matter in a few days; at present we are all quiet.

A letter received in Alexandria, dated Greensboro' Green county, (Alab.) Oct. 23, says:—

"I hasten to inform you, before the mail closes, that an express has arrived from Claiborne county, apprising the inhabitants of this county, that a rising of the negroes was to have taken place on Sunday last, a boy having discovered the plot. Twenty of the leaders are in jail in Claiborne, and we have secured ten in this neighborhood, one of them a preacher, having about him a number of the infernal *Liberator*. I am appointed captain of the patrol, and have to ride 20 or 30 miles a night, rain to the contrary notwithstanding."

A printed Circular letter, dated at Albany, Sept. 16, has been received by the Postmaster at Ervinsville, in Rutherford county in this State, in which the writer asserts the equality between the whites and blacks, and declares his determination "as an individual to use all honorable means to sever the iron band that unites," &c. &c. The object of the author is easily imagined. It was to be hoped the Southampton tragedy would allay this fiend-like philanthropy, in every part of the country; or that the presentment of the Grand Jury of Wake would deter from any further attempt; as neither has had the desired effect, it furnishes additional evidence of the necessity, that the approaching Legislature should adopt some means, by which offenders may be certainly and severely punished.

Melancholy Intelligence.—The St. Louis (Missouri) Republican of the 1st inst. says:—We have seen an extract of a letter from Mr. Dougherty, agent of the Pawnees, to his brother, which says that the Small Pox has been committing dreadful ravages among the Pawnee Indians. Nearly the whole of one tribe (the Pawnee Republic) of about 3,500 souls, have been swept off—the number dying daily being so great that they had not been able to bury them. The cause of the disease being so fatal among them is, that they immediately plunge into the water as soon as the fever makes its appearance—thus driving the disease inwardly. Scarcely an instance is

known of recovery when they are attacked by this terrible malady.

Interesting to Cotton Planters.—A friend, now on a visit to the Eastern States, has sent to us, by the ship *Dover*, from Boston, a specimen of what is called "*Payta Cotton*," a small portion of which is in the seed, and a portion ginned; together with the seed taken from the latter, which may be examined at our office. It is stated to grow spontaneously on the coast of Peru, and that any quantity may be had in the seed at one cent per pound. Two parcels have been imported into Boston, one of which amounting to about 200 bales, has been ginned out by a common saw gin, and some of it sold at 15 cents per pound. The other parcel is in the process of being cleaned by hand. It was found to lose about 2-3ds of its weight in the process of cleaning. The merchants interested in these importations, according to the statement of our correspondent, seem to think if the duty on imported Cotton were removed, that a good business may be done in the article. The staple is so long, that none of the machinery at present in use in the neighborhood of Boston can work it advantageously. Our correspondent also states, that there is a quantity of seed, which might be procured, should any of our planters be inclined to try it.—*Charleston Cour.*

Racing.—The sporting community has been on the full tide of enjoyment at the Central Course, Baltimore. A large number of fine horses had assembled to try their speed; and it is said as many as 10,000 spectators were present part of the time. We give the result, for the information of those who may wish to know.

1st Day—Two mile heats, \$300, won by Craig's Virginia Taylor, beating Parker's Bachelor, Selden's Belinda, Stevens' Celeste, and Dr. Minge's Gen. Brooke.

2d Day—Post Stakes, \$4000, won by Stevens' Black Maria, beating Virginia Taylor, Eliza Reilly, Collier, James Cropper, and Busiris. After the above race, a match for \$1000, 2 mile heats, between Stevens' Screamer and Moody's Trifle—won by Trifle at two heats.

3d Day—Three mile heats, \$500, won by Johnson's Annetee, beating O'Kelly, Eliza Reilly, Restless, and Sparrowhawk.

4th day—Four mile heats, Jockey Club Purse, \$700—won by Trifle, beating Black Maria, Collier and May Day.

SYLVESTER, 180 BROADWAY, To my Country Friends.

THE extraordinary success which has of late attended my office is unexampled, and has caused the jealousies of some of the *small fry* who have advertised prizes and given names of persons never in existence. I actually sold, in the two last Lotteries, the second Capital in each Lottery, which can be proved by my books, and likewise by the Managers. Added to the above, are sixteen other tickets with three numbers, consisting of 6000, 3000, 1000, 500, 600, 500, &c. Such real success never attended any other Lottery Office in the United States.

A Lottery will be drawn every Wednesday. Orders must be addressed to me only, as follows:—

S. J. SYLVESTER,
130 Broadway, New-York.

I have permission to refer to the Managers, Messrs. Yates & McIntyre. The following splendid Classes will soon be drawn.

Nov. 16—Class No. 11—all prizes and truly brilliant—\$40,000, 10,000, &c. Tickets only \$10. One number \$10, no number or blank \$4. A package costs \$220, on which a very liberal allowance will be made, and must draw \$115 60. Thus very little can be lost by taking a package. Halves and quarters in proportion.

Dec. 14—Class No. 12—extra brilliant—\$40,000, 20,000, 10,000.—Tickets only \$10. Sixty-six numbers, ten drawn.

Periodical Publications.

THE Publisher of the Saturday Evening Post, Philadelphia, proposes to compile and publish in pamphlet form a list of the periodicals in the United States for 1831. He believes that such a work will be valuable for reference, and of much benefit to merchants and others desirous of advertising, and he respectfully solicits the aid of the craft, in endeavoring to render it as complete as possible.

He desires that one or more numbers of each publication in the Union may be forwarded to him as soon as possible—at least two numbers should be sent by different mails, to avoid failure or miscarriages. To those who comply with this request, a copy of the work will be forwarded on its completion.

The object of the publisher is not to realize profit, but to afford the public a work which cannot but be of general advantage. The price, will, therefore, be as low as the expense of the undertaking will admit.

All publishers of newspapers are requested to insert the above. September, 1831.
