> PROSPECTUS OF THE

Anson Advertiser.

THE subscriber proposes to publish in the town of Wadesborough, Anson County, North Carolina, a weekly paper entitled "The Anson Advertiser."

According to custom, he proceeds to lay before the public an analysis of the plan upon which his paper will be conducted. Its columns will be devoted to the cause of Politics, Agriculture, Internal Improvement, Literature and Science in general.

It is the intention of the Editor diligently and fairly to report the passing political and other news of the day, and while he cannot, consistently with his principles, advocate the course pursued by the present administration, he assures the public that he feels every disposition to do full justice to its merits. The press will be open to both parties-the Editor will endeavor to adhere strictly to principle and to disregard all party influence.

The editor intends to avail himself of the advantage of many of the best publications on the subjects of agriculture and internal improvement, he of course will be able to select and lay before his readers, a large number of Essays which cannot fail of being interesting to every one who has at heart the prosperity of his country. All the most important and interesting proceedings of Congress and the State Legislature will be duly reported, and a portion of the paper will at all times be devoted to polite Litera-

The subscriber is aware of the many difficulties he must encounter in advancing to public favour; relies greatly upon the liberality always shown by an enlightened public towards enterprise well conducted, and assures his patrons, that no pains shall be wanting on his part to render his paper both a useful and interesting publication.

The Anson Advertiser will be printed on an imperial sheet as \$3 00 per annum in advance, or \$3 50 at the end of the year; the first number to issue as soon as Seven Hundred Subscribers are obtained; no subscription will be received for a less period than twelve months; and the paper will not be discontinued until orders are received to that effect, and all arrearages paid up.

Advertisements not exceeding 12 lines, inserted three times for one dollar, and 25 cents for each subsequent insertion.

Communications addressed to the editor must be post paid.

Thousands of dollars are annually sent to the must! North to purchase periodical melligence and literature; because the wants of the people, in this respect, are not supplied at

It is the purpose of the "Citizen" to fill this vacuum. It will contain every thing of interest, in literature, politics, religion and morality, that is to be found in the Northern publications or in high toned literary Journals of Europe; to which we shall add a rich fund of domestic and loca! information no where else to be met with.

The Southern Press stands low in pub lic estimation. In most cases the paper is bad, the mechanical execution slovenly, and the matter erroneous in principle, false in fact, and vulgar in sentiment. > These are perilous times; and a responsibility, awful as the bumb and extensive as eternity, hangs over every man who shall take upon himself the management of a newspaper; because public opinion is measurably formed from the tone of the press-the action of the people depends upon opinions previously formed, and upon their action is suspended the destinies of the Republic. An abiding reverence for the constitutional laws of the land, should be continually cherished and deeply inculcated, because upon their acknowledged su-

premacy depend the happiness of man, the

peace of society, the security of our insti-tutions, the prosperity of our flourishing Union, and the durability of our happy form of government. But aside from this secret, silent and ir esistible power, before our hands shall be tied, they shall be severed from our body and thrown to the dogs in the street; before our mind shall submit to shackles of any description, it shall be given up to despair, and frozen to barrenness more gloomy than the deserts of Africa; -- before our soul shall be conquered by the "hope of

reward," or the "tear of punishment," it shall be redeemed from the "shackles of mortality," and sent to receive its doom in the courts of eternity!

Before we relinquish our right to think, speak, print and publish our own deliberate opinions in relation to public men and public measures, we will renounce existence itself. Take away our rights as a free man, and life has no charms for us! We shall deal plainly with the people, not caring who may be affected by our course. We rather bask for one hour in the approving smiles of an intelligent and unde ceived people, than to spend a whole eternity, amidst the damning grins of a moticy crew of office-hunters, despots, dema gogues, tyrants, fools and hypocrites.

We shall watch with a lynx eyed vigilance, the conduct of men in power; and in every case of political transgression, we shall apply the rod without distinction or mercy.
