FERRAND, Onslow. 15. OWEN HOLMES, New Hanover.

Election on Thursday, the 10th November next.

THE ELECTION.

The polls will be opened in this State on Thursday week next, the 10th Nov. for the purpose of selecting fifteen Presidential Electors. The Whigs are straining every nerve to obtain the ascendency, & consequently it requires corresponding efforts on the part of the Republicans, or defeat may await them. We would therefore earnestly urge it upon our Republican friends not only to attend the Polls themselves, but also to see that none of their neighbors neglect this important duty.

The States of Pennsylvania and Ohio choose Electors on the 4th Nov. being the first—and Rhode Island, on the 23d, being the last of the States to elect Electors.

We find the following, in the last Raleigh Standard. As we neither grow Cotton, nor use Tobacco, we believe we shall not individually accept the challenge—but we, nevertheless, submit it to the discretion of our readers:—

A CHALLENGE.

To all whom it may concern: We, the Freemen of the county of Caswell, send Greeting:

Whereas, our Fathers in the memorable contest which gave success to the cause of Democracy and the principles of Republicanism, united their suffrages in support of the illustrious sage and statesman, THOMAS JEFFERSON; and whereas, their sons, influenced by the same love of country, in the war of 1812, united our suffrages in support of one, then designated, by way of reproach, "the War Candidate," in opposition to "the Peace Candidate," upon which all trying occasion, our good men and true gave 1150 to 34 votes; and whereas, at the present crisis, so all-important to the union and prosperity of the Republic, we find ourselves opposed to the same Peace party over whom we so signally triumphed on a former occasion, when the counties of Rowan and Iredell, co-operating with the Blue-lights of the North, refused to rejoice at their country's success, but who now claim to themselves the appellation of Whigs and Nullifiers.

Know Ye! that we, the Freemen of Caswell, resolved not to tarnish the fame of the illustrious Patriot whose name our country bears, nor to apostatize from the principles and deeds of our fathers and predecessors—do issue this our Challenge and Proclamation, inviting those of our sister Counties who acted with us in by-gone days, in sustaining the glorious cause of Republicanism—hereby pledging a Hoghead of Dan Riv-

er Tobacco, to a Bale of Cape Fear Cotton, that we will, at the election, on the tenth day of November, proximo, give to the Ticket on which are the names of the War Candidates, NAT. MACON and ROBERT LOVE, in opposition to the Peace Candidate, John D. Toomer and J. O. K. Williams, a unanimous vote than any of our sister Counties of Republican fame, not excepting our well tried sister of Edgecombe.

Given at our seat of Justice, in our town of Yancey, this 10th day of October, Anno Domini, 1836.

Democratic Electors.—In consequence of the lamented death of Henry Skinner, Esq. (announced in our last) it became necessary to select another gentleman, as a candidate on the Democratic Electoral ticket. And it is with much pleasure we are enabled to state that the Delegates for the Edenton district have nominated Dr. Gideon C. Marchant, of Currituck county. Dr. Marchant is extensively known throughout the District, and esteemed wherever known, for the frankness of his character and the integrity of his Republican principles.

Raleigh Standard.

Ohio.—Authentic intelligence from Columbus, Ohio, as late as the 16th instant, assures us that Vance is undoubtedly elected Governor of that State, although the majority in his favor had not been ascertained.

The Legislature, we are informed stands thus:

Table with 2 columns: Name, Senate, Represent's. Rows: Van Buren, Harrison.

Van Buren majority on joint ballot, eight.

The republican party are rallying with great confidence in carrying the State at the November election.

The whigs claim this State as certain for Harrison. When it is considered that they put down Pennsylvania as doubtful, where the Van Buren men have elected 18 out of 28 members of Congress, 7 out of the 8 Senators chosen this year, and 72 out of 100 Representatives, the people will know what value to attach to their estimates. We have yet strong hopes of Ohio.—Globe.

New Jersey.—The New York Journal of Commerce says, the parties will probably stand thus: Council, Whigs 7, Van Buren 7; Assembly, Whigs 18, Van Buren 32.

A Banter.—Col. Wm. Wynn, a veteran turfite of the old Dominion, advertises for sale his whole stock of thorough bred, including old Flirtilla, Isabella and sundry others of note in the sporting world, and at the conclusion of his advertisement he says: "I sometimes bet; and upon this occasion I challenge the world, that I will bet the whole kit to \$30,000, that Martin Van Buren, will be elected next President of the United States—laying out Hugh L. White, Gen. W. H. Harrison and Daniel Webster Esqr., as cold as a Whetstone. If the above challenge be accepted, the same must be negotiated in some one of the specie paying banks of the U. S. by the first day of October next."—Pet. Con.

Petersburg Market, Oct. 24.—Cotton—Since our last, has been in animated demand, and this morning prices have advanced to 174 a 174 cents. The receipts yet continue limited.—Int.

Washington Market, Oct. 22.—The prices of Turpentine have still further improved. Sales have been made this week at \$3 10 for new and \$3 for old. Scrape \$1 35 to 1 40.

Tar, \$1 60.—Whig.

New York Market, Oct. 18.—Cotton remains inactive.—Western Flour is \$9,50 a 75 for common and good brands. There have been considerable sales of

European Wheat, at 185 a 187 cts. 90 days, for red. Rye and Corn remain as last week, with a fair demand: 4000 bbls. Turpentine have been sold at \$4,25.

INDIAN WAR.

From the Savannah Georgian of 10th inst.

Still later from Florida.—The steamboat Charleston, Capt. Bonnell, arrived last evening from Jacksonville, which place she left on Friday. From a passenger we learn that the forces under Gov. Call had met with some Indians near Fort Drane, and after a short skirmish with them on Monday last, drove them into the hammocks, the Indians leaving four of their dead on the field. Next day (Tuesday) another skirmish took place, with similar results, the Indians leaving 5 dead on the field. The gentleman, from whom we derived this information, understood that none of our men were injured. Major Pierce was on his way to join Gen. Call at Volusia.

TEXAS.

The reader will find in another column copious extracts from the Texas Telegraph, giving some idea of the present aspect of affairs in Texas.—Gen. Houston, it seems, has been actually elected President of Texas. Perhaps this is well enough, as their military affairs must be of more interest for some time to come than their civil government, and it might be productive of civil consequences were the Commander-in-chief of the Army subject to the control of the Chief Magistrate of the country in the management of matters merely military. By uniting the two offices in the same individual, promptitude and decision of action will be secured, while the responsibility will not be divided and the commanding officer will be induced by every consideration to discharge faithfully his duty.

Mexico seems to be in a state of loose, unbridled anarchy. A new General (Bravo) had been appointed for the army, but he seems to be exceedingly unpopular among them and strong symptoms are evinced of a determination not to recognise his authority. As to all purposes of internal policy or the power even to conduct foreign negotiations, Mexico had as well be without any government at all.—Mobile Register.

Texas.—Col. C. P. Greene, of the Texas army, arrived at New Orleans on the 4th inst. from Velasco. He reports that official intelligence had been received by express from Gen. Rusk, at head quarters of the army, stating that Capt. Carnes and Teal, the commissioners, who had been detained and imprisoned in Matamoras, had just arrived in the Texan camp, making their escape from close imprisonment. They state the Mexican forces to be at that time, the 6th of Sept'r, 1836—that Gen. Bravo had been appointed to the chief command of the army, and Gen. Valencia second; that Bravo was to have taken up his march with large reinforcements for Matamoras, and that the reinvasion of Texas would soon after commence.

Col. Greene left the Texan army in good health and spirits, upon the La Baca river. Gen. Rusk had just recovered from severe illness. Gen. Greene and F. Huston were both in good health.

The Gale of the 10th and 11th instant did great damage to vessels on our coast. At and near the Bar and Cape Hatteras, there is said to be an unusual number of disasters.—The brig Fortune, loaded with lumber and outward bound, went on shore, bilged, and is lost.—Schooner Susan Mary Snow, for New York, was driven on shore; after discharging her cargo of naval stores, she was got off, and has since been brought to this port to repair damages.—Brig Rail-way, in ballast, on shore. It is believed that she has been, or will be got off.—Schr. Ladies' Fancy and Sailors' De-

light on shore, six miles north of Hatteras; cargo saved, damaged.—Schooners Select and Conroy both went ashore, the former got off, the latter probably off also.—Schr. James L. Summers, ashore at Kinnikeet, 12 miles north of Hatteras, cargo saved, but damaged.—A large brig, name not reported, ashore north of Hatteras.—Steam packet William Gibbons, from New York to Charleston, ashore at Chicamacomico, 150 passengers, the greater part of whom have gone to Charleston in a vessel chartered for the purpose.—A large number of smaller vessels on shore, and a gentleman just from the coast informs us that it is literally "strewn with wrecks."—It is truly a matter of thankfulness that property alone has been destroyed by this gale. As far as we have learned, there has not been a single life lost.

Newbern Spec.

More disasters by gale of the 11th.—A letter dated Portsmouth Roads, (N. C.) Oct. 13, states that there were ten vessels ashore on the beach between New Inlet and Cape Hatteras, among which was the brig Fortune, Captain Chamberlain, totally lost.

Norfolk Herald.

Bicknell's Reporter of Tuesday has the following paragraph. No other Philadelphia paper makes mention of the report:

"We understand from good authority, that the Directors of the Bank of the United States have in contemplation to propose to our State Legislature, at the next session, to abandon their charter, providing the bonus which has been paid to the State, be returned to the Bank."

A letter to the Editor of the Patriot, dated Cincinnati Oct. 15 says,—The pork season is at hand, and no way opens yet to get funds from our banks to carry on the business; and until the Treasury order is rescinded, I do not see that the prospect will be any better. I am now making contracts for Hogs to pay market price, which will be from \$5 to \$6: The only way to get money from the banks, is on drafts on the East.—This is the case now—perhaps a month hence it will be on the South.

Land Sales.—The Arkansas Times says that the late land sales in Pontotoc, Mississippi, produced fifty per cent. less than that sold heretofore. On the day of sale, 25 per cent. premium was paid for Silver.

The United States and Mexico.—The Philadelphia Daily Advertiser of Tuesday furnishes the following information:

"We understand that Mr. Gorostiza, the Mexican Minister, arrived at the Mansion House yesterday from Washington. We are extremely sorry to hear, from a respectable source, that his negotiations with our Government have terminated unsatisfactorily, and that he is preparing to return home with his diplomatic family. This will be unwelcome news to the friends of peace, and to the commercial interests of this country."

From the Auburn N. Y. Journal.

Unparalleled Snow Storm.—On Tuesday night, the 5th inst. snow commenced falling in this vicinity. It continued throughout Wednesday and the following night, with very little abatement; and up to Thursday morning is supposed to have fallen to the depth of at least 24 or 26 inches. Although thawing very fast during the whole time, yet on Thursday morning a friend of ours took the pains to ascertain its depth in an open level field, which proved to be from 13 to 14 inches. From the extreme dampness and weight of the snow, much damage, has been done to fruit and forest trees. It fell in solid sheets upon the branches still covered with foliage, and literally crushed them to the earth. Whole orchards

(more particularly south of us) are in this way greatly injured, many trees entirely ruined; and even in the woods, many a noble tree has been trimmed of its fair proportions. The orchards and ornamental trees in and about the village have suffered materially, and will long bear marks of the ruin worked by the October snow storm of 1836.

P. S.—This morning we have another snow storm; having had snow for three Wednesdays in succession. It began briskly; and as to the ending, we wot not of it.

Foreign.

One day later from France.—By the packet ship Normandie, Capt. Fell, arrived yesterday from Havre, Paris journals have been received to the 15th of Sept. They add very little to our previous accounts of Europe affairs.

Marshall Soult's refusal of the war port-folio is reiterated, and a rumor is given that Gen. Bernard, so well known in this country, has been called on by the King to assume this post. It is not improbable, as the King is known to have confidence in the general.

Letters from Spain say that the health of the queen regent is seriously affected by the troubles and anxieties she endures. The demands of the ultra liberals are said to be on the increase; they require now the abolition of hereditary peerages and of entails, as well as the suppression of all religious establishments. Nothing farther had been heard of the Carlist general Gomez. The condition of Madrid is said to be frightful, and the armies are represented to be much infected with the spirit of insubordination.

Three Spanish Decrees of 30th August direct the sale of the bells and furniture of the convents, and a forced loan of 20 millions sterling to defray the expenses of the war. The disrobing of the convents must go hard against the ancient and inveterate prejudices of Spanish fanaticism.

The Cholera has carried off a great number of the French troops in garrison at Ancona.
