Shocco Springs.

HIS well known Watering place will be again opened for the reception of Visiters on the

1st of June next.

The testimonials of the edicacy of this Water, particularly in cases common to the lowlands, are of sufficient notoriety, and require reference only to those whose experience has enabled them to test its virtues. I deem it only necessary to state that the Water has been recently analyzed, and its ingredients are of the some class with most of the Virginia Springs and the famous Bedford Springs of Pennsylvania.

For the benefit of the Public, I have thought proper to subjoin a letter or two from emineut Professional men, whose intimate acquaintance with the properties of the Water renders them competent judges of its efficacy.
Since the last Season, several Bed

rooms with Fire places have been erected for the convenience of Families.

Ann Johnson. Shoeco Springs, May 25, 1837.

From Simmons J. Baker, M.D. DEAR MADAM - The case referred to, in the conversation I had the honor to have with you a few days past, was that of Mr. Paul, of Scotland Neck, the had a violent acute inflammation of the Liver, which was subdued with great difficulty; when he was convalescent, his skin was of a deep orange color. As Mr. Paul had been severely disciplined, I was unwilling to give him more medicine, and advised him to accompany me to Shocco Springs, to which he consented. We arrived on a Tuesday evening; on Wednesday morning, business called me to Raleigh, and I did not return until Sunday evening. when, to my astonishment, Mr. Paul's skin was as clear as it ever was. In two or three days he returned to Scotland Neck, was drafted and went to Norfolk, and remained there until the troops were distanded He was one of the few, en-camped at the Peach Orchard, who escaped with impunity.

Your most obed't, S. J. BAKER. Scotland Neck, May 10, 1837.

From F. A Thornton, Esq.

Alexandria, Warren Co. May 10. DEAR MADAM - For several months preious to leaving home for Shocco Springs, my health was dreadful. Indeed, my sit-uation was considered tritical. When I reached Shocco, I was unable, without assistance, to get from my carriage to my room. I did not drink the water more than a fortnight, before I had so far recovered my health as to be able to walk alone all over the yard; and, in a very short time afterwards, to the astonishment of my friends, I returned home entirely well.

FRANK A. THORNTON.

From John Beckwith, M. D. Raleigh, May 10, 1837.

Dran Manan-You not unreasonably conclude that one who, like myself, has been an occasional visiter at Shorco years, should be able to form a just e-timedical eff cts. It gives me pleasure to be able, from much observation, and no small personal experience, to say, that the waters are well adapted to cases of convalescence from bilious and intermittent Fevers; that they correct a vitiated or deficient action of the Liver; give keenness to the appetite, and tone and energy to the digestive Organs.

Those who reside in low and unhealthy districts of country, will find at Shoee during the Summer months, a pure and invigorating air, comfortable accommodatious, mineral waters answering all reasonable expectations, and a table, of which the only tault is, being rather too tempting for invalids.

It is proper to remark, that the water parts with much of its active properties in a short time after being drawn from the Spring, and therefore, in order to realize its full benefits, visiters should take it at the Fountain.

Very respectfully, JOHN BECKWITH. To Mrs. Johnson, Shocco Springs.

From Ellis Malone, M. D.

May 2, 1837. DEAR MADAM-I take pleasure in stating, that in my opinion, the water of Shocco Springs is possessed of an extensive and direct influence over the diseased actions of many of the organs of our system. Actively diaretic, gently laxative, and, if exercise is taken after using it, not a little liaphoretic, together with its invigorating influence over the chylopaetic apparatus, increasing the appetite and strengthening the powers of digestion, it could not well be otherwise than that the proper use of it, should be greatly conducive to the restoration of the healthy action of diseased organs, to which it bears so manifest re-

lation. My information in relation to its medical properties has been derived from no tittle personal experience. It will readily occur to intelligent medical men, to what class of diseases a remedy having such effects as described above, will be applicable, who will likely be consulted by valids wishing to avail themselves of its benefits before leaving their respective
