**PROSPECTUS
OF THE
CONGRESSIONAL
GLOBE.
And Appendix.**

THESE works have been published by us for five years. There are now more subscribers for them, probably, than for any other paper published in the United States; certainly more than there are for any other published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low a rate. We are compelled to publish the proceedings of Congress in detail for our daily paper. This done, it requires, comparatively, but a small additional expense to change them to the form of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The Congressional Globe is made up of the daily proceedings of the two houses of Congress, and the speeches of the members condensed. The year and days on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The Appendix contains the speeches of the members, at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared. The last session of Congress being a very important one, we printed about five thousand extra copies of the Congressional Globe and Appendix, calculating upon being able to dispose of them to persons who are not regular subscribers. The former makes 150, and the latter upwards of 200, royal quarto pages. As the main subject proposed at that session—the separation of Bank and State—has been postponed until the next session, they will be useful, we may say necessary, for those who subscribe for the next session; and we shall therefore reserve them for those subscribers who desire them, and shall first subscribe for them. Though not so voluminous as the proceedings of ordinary sessions, the important subjects discussed will render these volumes not less valuable than any which have been, or may hereafter be, printed. Every subscriber for the next session, who intends to file the papers, should procure copies of the last.

TERMS.
For the Congressional Globe for the session which commenced on the 4th September, 1837, \$1 00
For the Appendix for the same session, 1 00
For the Congressional Globe for the session which is to commence on the 4th day of December next, 1 00
For the Appendix for the same session, 1 00

Any person sending us the money for five copies of either of the above publications will be entitled to a copy.

Payments may be transmitted by mail, postage paid, at our risk. The notes of any incorporated bank in the United States current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscription should be here by the 11th of December next.

No attention will be paid to any order unless the money accompany it, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.

WILLIAM W. GRAY.
Raleigh, October 4, 1836.

Raleigh, September 1, 1836.

For five or six years previous to the spring of 1834, a negro man of mine had been much afflicted with an ulcerated arm and hand, which rendered him almost useless. The ulcer embraced that part of his arm from the elbow down, including his entire hand, which was literally a mass of putrefaction. A joint of one finger, and a part of the thumb, perished and dropt off. A more distressing and hopeless case I have never beheld. It was abandoned by his physician as incurable, except by amputation of the hand.

The best medical treatment having failed to relieve the man, I placed him under the care of Mr. William W. Gray, in this place, who, with his Ointment, has effectually cured the case, although the negro was frequently absent, for weeks and months together. He has been entirely well for the last eight months, and I have good reason to believe will continue so.

**WASHINGTON
MONUMENT.**

THE Board of Managers of the Washington National Monument Society invite DESIGNS for this structure, intended as a memorial of a

NATION'S GRATITUDE.
It would be to fetter genius, to prescribe any limits to the exercise of its powers, which should, however, in this case, harmoniously blend durability, simplicity and grandeur. Although it is impracticable at present to estimate the extent of the contributions that may be made, the Designs may be predicated on an expenditure of not less than one million of dollars.

The Board of Managers will not offer American genius so much as to offer, in this instance, a pecuniary reward. The artist, whose Design shall be adopted, will feel amply remunerated; and all the Designs will be bound and carefully preserved—to which end, it is requested that they be sketched, as near as may be, on paper of a uniform size, of the dimensions of sixteen by twenty-two inches. The designs to be directed to

They can be sent by mail to any part of the United States, subject only to single letter postage. Price two dollars, or three copies of either will be sent by mail for five dollars.
