HARMAN'S Patent Threshing Machine.

-:§:-

The Subscribers have purchased the Patent right of this late and useful invention, for the counties of Franklin, Waren, Nash, Edgecombe, Johnston, Wayne, Berlie, Pitt, Greene, Hertford, Chowan, Gates, Perquimans, Pasquotank, Camden, Currituck, Martin, Lenoir, Hyde, Tyrrell, Duplin, Craven, Bcaufort, New Hanover, Brunswick, and Sampson, in this State, and can with confidence recommend them to the farmers, as being one of the best, cheapest, and most durable ma chines ever before offered to the public. The breast being supported by springs, prevents it from choking up when an over portion of food is introduced; (a great improvement upon this kind of machine.) We warrant this Thresher to perform expeditiously, and the grain threshed perfeetly clean. One horse can thresh from 125 to 150 bushels of wheat, rye, oats and rice, and from 150 to 200 bushels of peas per day. This machine has been fully tried in this State, and its utility proven as will appear by reference to the subjoined certificate. Thomas Howerton, Joseph Kearney,
