**JOHN WILSON.**  
Jan. 2, 1838.

**HARMAN'S Patent Threshing Machine.**  
The Subscribers have purchased the Patent right of this late and useful invention for the counties of Franklin, Warren, Nash, Edgecombe, Johnston, Wayne, Bertie, Pitt, Greene, Hertford, Chowan, Gates, Perquimans, Pasquotank, Camden, Currituck, Martin, Lenoir, Hyde, Tyrrell, Duplin, Craven, Beaufort, New Hanover, Brunswick, and Sampson, in this State, and can with confidence recommend them to the farmers, as being one of the best, cheapest, and most durable machines ever before offered to the public. The breast being supported by springs, prevents it from choking up when an over portion of food is introduced; (a great improvement upon this kind of machine.) We warrant this Thresher to perform expeditiously, and the grain threshed perfectly clean. One horse can thresh from 125 to 150 bushels of wheat, rye, oats and rice, and from 150 to 200 bushels of peas per day. This machine has been fully tried in this State, and its utility proven as will appear by reference to the subjoined certificate.  
**Thomas Howerton, Joseph Kearney, Daniel Blue.**

N. B. We have on hand several machines just finished off and for sale, and in tend keeping on hand a constant supply; and should it be desired, we will sell the right for any of the above counties at a reasonable price.  
The undersigned citizens of Burke county hereby certify, that they have seen the **Threshing Machine,** Patented by Enoch A. Harman, in operation on the farm of Isaac T. Avery. The machine threshes four hundred sheaves in an hour, and the threshing is more perfect and performed better than by any machine we have seen in use; and we have no hesitation in recommending it to public patronage. (Signed)

**STONY HILL**  
Is well situated, and has many advantages for the studious; it is retired, in a healthy country, free from the noise and bustling of town and village distractions; a sufficiency of comfortable and convenient rooms; a well selected and growing library, belonging to and under the direction of the Students; a well conducted **Debating Society**  
Under their own regulations, from which all political and religious discussions are excluded. It also has many advantages to the satisfaction and interest of parents; their sons are treated with kindness and mildness; at the same time they are made to *behave themselves.* Their health and comfort as well as education and deportment are attended to; no idling, contracting debts, vicious indulgences. Thus whilst the studious and thoughtful find many things to interest them and render their situation agreeable and comfortable, whilst they enjoy themselves and are happy in the prosecution of their studies, the idle and vicious become restive, long to be free from a proper restraint and by artifice frequently impose on their credulous and unsuspecting parents, thereby leaving the studious in the full enjoyment of their quiet, and the possession of those advantages which none but the studious care for or know how to appreciate.  
Parents are requested to visit the school frequently. Address at Ransom's Bridge.
