

TARBOROUGH

SATURDAY, NOVEMBER 23, 1839.

Republican Candidate.

FOR PRESIDENT, MARTIN VAN BUREN.

We invite attention to the Prospectus for the Congressional Globe and Appendix. We would gladly aid such of our Democratic friends as may wish to procure this interesting and invaluable publication, by receiving and forwarding their names as subscribers.

The Races over the 'Tarboro' Course, near this town, took place this week. Particulars in our next.

Burglary.—On Saturday morning last, Mr. James M. Redmond of this place, discovered that his warehouse had been broken open the preceding night, and a barrel of brandy taken therefrom. The robbers appear to have gone very deliberately to work—they broke the front door open, rolled a barrel of whiskey near the door, but left that and moved a barrel of rum; this also not suiting their delicate olfactories, they hunted about and found a barrel of brandy, which they bore off leaving neither trace nor vestige of their course.

Stage Robbery.—On the night of the 3d inst. a trunk was taken from one of the Wilmington stages near Rocky Mount; and on the night of the 9th inst. another also disappeared. The trunks were said to contain wearing apparel, valued at \$3 to 400 dollars, and the Agent of the Wilmington Co. commenced a search, and found a large portion of the clothing in the possession of a man named William Price, who sometime since exhibited wax figures in this place, and surrounding country—he stated they were brought there by a certain negro fellow, and on searching his cabin, nearly all the other articles were found; one of the trunks had the hide taken off, and the other being a leathern one, had been burnt. The negro was severely whipped, but unluckily Price gave them the slip and absconded.

We learn from the Raleigh Register, that W. R. Gales, Esq. Editor and Proprietor of that paper, proposes publishing it after the first day of January next, twice a week at Five dollars, and once a week at three dollars per annum.

We copy with pleasure the following article from the last Washington Republican:

We are authorized to state, that the variance pending between the Hon. E. Stanly, and William L. Kennedy, Esq., has been adjusted consistently with the honor of both gentlemen.

FOR THE TARBORO' PRESS.

Agreeably to previous notice, a respectable portion of the Democratic Republicans of the county of Nash, assembled in Nashville, on Tuesday the 12th inst. being Court day, when the meeting being called to order by Maj. Jno. H. Drake, on motion, Jas. S. Battle, Esq. was appointed Chairman, and Archibald H. Arrington, Secretary.

At the request of the Chairman, the object of the meeting was explained by Col. Robt. C. Hilliard, whereupon the following preamble and resolutions were adopted:

WHEREAS, recent demonstrations of public sentiment prove beyond question, the increasing strength of the Democratic Republican party, or rather of those principles which distinguish it: and from every quarter of our country where a test has been made, the truth of this assertion has been fully verified, for in many instances we have completely overwhelmed our opponents, which is attributable principally to the wise and energetic administration of our Government—to MARTIN VAN BUREN then, as our Republican President, we owe much; and having full confidence in his capacity and integrity, and knowing his settled determination to promote Southern interests, and his long and fond support of Republican principles, Be it therefore resolved, That we will use all honorable means to re-elect him President of these United States.

Resolved, That we believe in the absolute necessity of an entire separation of Bank and State, and in the expediency and constitutionality of the much abused and misunderstood Independent Treasury—and that we will sustain to the extent of our ability the Executive in his efforts to establish it.

Resolved, That we approve the plan of holding a Convention in Raleigh, on the 8th of January, 1840, or at such other time as may be indicated by the action of the Democratic Republican party of this State, to nominate a Republican candidate to be run for Governor of this State at the ensuing election; and that the Chairman appoint eight delegates, to represent this county in said Convention. Whereupon the following gentlemen were appointed, to wit: Dr. Richard Short, Henry Pridden, Bartley Deans, Arch. H. Arrington, Robt. C. Hilliard, Genl. Henry Blount, Col. Asel Vick, and Willie Bunting—and, on motion, the Chairman was added to the number.

Resolved, That the delegates be left free to exercise their judgment as to the relative qualifications of the gentlemen whose claims may be urged before the Convention.

Resolved, That the proceedings of this meeting be signed by the Chairman and Secretary, and sent to the Editor of the Tarboro' Press for publication, with a request that the North Carolina Standard and all other papers in the State friendly to the cause, will give them an insertion.

On motion of Willie Bunting, Esq. the thanks of the meeting were returned to the Chairman and Secretary, and the meeting adjourned.

JAMES S. BATTLE, Ch'n. A. H. ARRINGTON, Sec'y.

'Whig' Convention.—The Federal Whig Convention met in this city on the 12th inst. The labors of this body resulted in the nomination of John M. Morehead of Guilford, as the Federal Candidate for Governor; Henry Clay, of Kentucky for President, and Nathaniel P. Tallmadge, of New York, for Vice President. Some little objection was made to the last nomination, but the whole dose was finally swallowed. We may probably give the matters and things connected with this Convention a further notice.—Raleigh Stand.

Election in Massachusetts.—We congratulate the Democracy of the country on the result of the election in Massachusetts. It is admitted by the Federal papers in Boston that Morton, the Democratic Republican candidate is elected, or that there is no choice. There is certainly a gain of ten thousand votes to the Democratic side, and we have but little doubt that Morton is elected by 7 or 800 majority.

As usual the 'whigs' find a variety of causes for this result, always dodging the true one—viz., the voice of the people in favor of the Independent Treasury.—ib.

New York.—The election in New York has resulted in the triumph of the combined factions of Federalism, Abolitionism, and Conservatism. There is a 'whig' majority of 6 or 8 in the Senate, and of 8 in the House. But it should be remembered, that the Democratic Republican cause is steadily advancing in that State. In 1837, the Federal majority was from 16,000 to 18,000. Last year it was 10,000 and it now falls short of 3,000. The Democrats have 60 members in the popular branch of the Legislature, where they had, last year, but 46. So far from being discouraged, therefore, we have every reason to rejoice at the prospect before us in New York, which will certainly cast its electoral vote for Mr. Van Buren.—ib.

Remarks on the aspect of the returns from the New York elections, the Richmond Enquirer of 12th inst. says:

It shows that the popular majority thro' the State is on the side of the friends of the administration. In every Congressional District where we carried last Fall our 19 members of Congress, the voice of the people has confirmed their former vote—and the majorities of the People would have superceded five of the Whig members—thus giving 24 members out of 40.

With these developments Mr. Van Buren is sure of the vote of his native State in 1840. This election has even given us the popular majority in the State—but we have gone into this election under very serious disadvantages. The ultra doctrines put forth by a few of the Democratic party, the artful use which was made of them by the Whigs in the interior; the slang which they thus got up against the whole Democratic party, that they were determined to put down every Bank, (which is not the fact) and to arrest all Internal Improvements, (which is also false)—the artful use made of the devices at a time when some of the counties are anxious to enlarge the great Canal, & when a great Railroad is projected which is to run through some of the most populous counties of the State, is it wonderful that the poll for the Republican members of the Legislature should fall short of the actual strength of Mr. Van Buren?

From the Edenton Gazette.

Thomas Ritchie.—The veteran editor of the Richmond Enquirer has been nominated by a writer in the Globe as a candidate for the office of Governor of Virginia. A better selection could not be made from the Democratic ranks, but the nominee declines the honor. The following are his views on the subject taken from the Enquirer of the 12th inst.

'We are indebted to a polite friend for

a nomination in the columns of the Globe to a high office in this Commonwealth. We are also indebted to its liberal editor for a very handsome compliment which he published on the occasion. We ought perhaps also to acknowledge our obligations to some of the Whig papers for the various notices which they have taken of the subject—and especially to the Petersburg Intelligencer, which says that Mr. Ritchie 'is the last man the Loco Foco party would choose, for the very obvious reason that he is more useful to the party while in his arm chair than he probably would be while doing the honors of the Gubernatorial mansion.' However this may be, we can assure the Petersburg Intelligencer, that we have no design to leave our arm chair—and to save the further shedding of Whig ink, we may say at once, that we would not accept the office if it were conferred upon us; and that the Legislature can not have the most distant intention of such a thing. We are not qualified for the office.—We are too poor to accept it; we have no time to devote to it. We have neither pretensions nor aspirations for such a distinction. In a word, if we may repeat the old expression of the French Tailor in this city, we are not made for de pantaloon.'

The 'Bull-Enders.'—This gallant Democratic association in the city of New York, has become the mark of federal censure there and elsewhere throughout the State. No wonder that the blue light or federal organs should select for the choicest epithets this detachment of the great party which now holds the ascendancy in the metropolis. The origin of the title explains all. The New Era says:

'The idea rose from the historical fact, that the Americans under the brave & gallant Gen. Warren, drove the British at Bunker's Hill from their breastwork with the butt end of their muskets. As our forefathers then nobly repulsed the common foe, so will their children now drive from the bulwarks of liberty their sworn and deadly enemies—the Federalists.'

Albany Argus.

It having been made known to the War Department that some persons were about to take a number of Indians, of the Fox and Sac tribes to Europe, with a view to their exhibition for gain, the President, as the legal guardian of the Indians, has directed such measures to be taken as will prevent their being carried abroad. We approve the interference of the executive in the business, and sincerely hope that no more such 'speculations' will be permitted.—Wilmington Chron.

The Locomotives, General Hayne and Charleston, came in contact on the Charleston and Hamburg Rail Road, on Wednesday. The engines were destroyed, doing little other damage.—ib.

Disaster.—On Tuesday night, 12th inst. in a gale, the schr. Franklin, Blount, of this port, from New York, was driven ashore on Boddy Island, two miles north of New Inlet,—vessel a total loss—cargo partly saved, but much damaged. No lives lost.—Washington Whig.

Revivals.—We take great pleasure in stating to the Christian world, that there is in this county at the present time, a greater excitement in favor of Christianity, than it has ever before been our privilege to witness. In the county, within the last two or three months, to our own knowledge about 260 individuals have made a profession of Religion; while many more seem to be diligently seeking the blessed Saviour.

It is due to the Methodist Ministers to state, that it has been mainly through their exertions that this good was wrought—their labors being sanctioned by Almighty God.—Halifax Adv.

A perfect cure of Asthma, fifty four years standing, effected by the treatment of Dr. Wm. Evans.—This is to certify, that I was attacked with the Asthma in the ninth year of my age, and from that time until the present year, a period of fifty four years, I have been subject to that disease. For the last five years, I had it almost incessantly—not being exempt from it more than twenty four hours at any one time. I had consulted the most skillful physicians, and tried many remedies without any relief. In June last, I commenced using Dr. Wm. Evans' Vegetable Medicine, not with the expectation of effecting a cure, for I believed my case hopeless and my dissolution near, but with the hope of obtaining momentary relief. Before I had used two

packages, I was entirely relieved; and I have not been attacked with it since. I can now say that I am permanently cured of the disease, and I can confidently recommend it to all who are afflicted with this distressing complaint.

SARAH SIMMONS. Prince George, co. Va. No. 10. J. M. REDMOND, Agent, 'Tarboro'.

MARRIED.

In Scotland Neck, Halifax county, on Thursday evening, the 14th inst. by L. B. K. Dicken, Esq. Mr. Joseph Bryan, of this county, to Miss Mary Louisa Higgs, daughter of Willie Higgs, dec'd.

In announcing the marriage of Mr. Wm. D. Bell to Miss Elizabeth Bell, in our paper of the 26th ult. we should have stated that they were married by Patrick McDowell, Esq. instead of D. Bryan, Esq.

DIED.

In this county, on the 5th inst. David Garrett, son of Mary and John P. Pitt, aged six years, one month and nine days. This intelligent and interesting child was afflicted with the croup, and previous to his death he said, he should die and when he was at rest he should be satisfied.—Com.

That the preservation of the Teeth, by means skillfully adapted to that end, or the supplying of any deficiencies occasioned by premature decay, is a subject deserving of particular and individual attention, whether for their services in mastication, usefulness in speaking, or for preserving the natural symmetry of the countenance unimpaired, is now very generally conceded.

D. W. D. having obtained his professional knowledge from sources of the very highest respectability, and been actively engaged in his profession for about two years, deems it unnecessary to give further assurance to those who may be pleased to avail themselves of his professional skill, that their confidence will not be misplaced.

PROSPECTUS

Congressional Globe AND APPENDIX.

THESE works have been published by us for seven years. There are now more subscribers for them, probably, than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low a rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done it requires comparatively, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged. In some parts of the United States, the white paper, upon which these works are printed, would sell for as much as we charge for the publications.

The approaching session of Congress will probably continue seven months; as it immediately precedes the Presidential election, all the prominent political questions which divide the country, will, no doubt, be fully discussed. These considerations induce us to believe that the Congressional Globe will make five hundred, and the Appendix, between six and seven hundred royal quarto pages.

The Congressional Globe is made up of the daily proceedings of the two houses of Congress, and the speeches of the members condensed. The yeas and nays on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The Appendix contains the speeches of the members at full length, written out by the messengers, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe or any denial of its correctness it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers as soon as they can be prepared after the adjournment of Congress.

TERMS.

For one copy of the Congressional Globe \$1 One copy of the Appendix - \$1 Six copies of either of the above works will be sent for \$5, twelve copies for \$10, and a proportionate number of copies for a larger sum.

Payments may be transmitted by mail, postage paid, at our risk. The notes of any incorporated bank in the United States, current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of bank in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be here by the 9th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

No attention will be paid to any order unless the money accompanies it.

BLAIR & RIVES.
