

Doctor W. EVANS' SOOTHING SYRUP
For children Teething,
PREPARED BY HIMSELF.
To Mothers and Nurses.

THE passage of the Teeth through the gums produces troublesome and dangerous symptoms. It is known by mothers that there is great irritation in the mouth and gums during this process. The gums swell, the secretion of saliva is increased, the child is seized with frequent and sudden fits of crying, watchings, starting in the sleep, and spasms of peculiar parts, the child shrieks with extreme violence, and thrusts its fingers into its mouth. If these precursory symptoms are not speedily alleviated, spasmodic convulsions universally supervene, and soon cause the dissolution of the infant. If mothers who have their little babes afflicted with these distressing symptoms, would apply Dr. William Evans's Celebrated Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady, convulsions.

A real blessing to Mothers.
Dr. W. Evans' celebrated Soothing Syrup for children cutting their teeth.

This infallible remedy has preserved hundreds of Children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums; thereby preventing Convulsions, Fevers, &c.

Proof positive of the efficacy of Dr. Evans' Soothing Syrup.

To the Agent of Dr. Evans' Soothing Syrup: Dear Sir—The great benefit afforded to my suffering infant by your Soothing Syrup, in a case of protracted and painful dentition, must convince every feeling parent how essential an early application of such an invaluable medicine is to relieve infant misery and torture. My infant, while teething, experienced such acute sufferings, that it was attacked with convulsions, and my wife and family supposed that death would soon release the babe from anguish till we procured a bottle of your Syrup; which as soon as applied to the gums a wonderful change was produced, and after a few applications the child displayed obvious relief, and by continuing in its use. I am glad to inform you, the child has completely recovered, and no recurrence of that awful complaint has since occurred; the teeth are emanating daily and the child enjoys perfect health. I give you my cheerful permission to make this acknowledgment public, and will gladly give any information on this circumstance.

Dr. W. EVANS'S CELEBRATED Fever and Ague Pills.

THIS widely extended and most admirable Remedy for Fever and Ague, and other Fevers, which has already rendered such benefit, and proved a sure and speedy cure for the above named disorders, is particularly recommended to public notice.

On first feeling the premonitory symptoms occur, it is advisable at once to clear thoroughly the stomach and bowels. In no way can this be better and less inconveniently effected, than by taking a few doses of

Dr. Evans's purifying Pills, the value and well authenticated virtues of which medicine have been, and still are, too apparent to call for further comment. They tend to promote a healthy secretion of the Bile, and render the system capable of receiving with benefit the invigorating

And strengthening Pills.

THE CAUSE OF Bilious Complaints, And a mode of cure.

A WELL REGULATED and proportionate quantity of bile upon the stomach is always requisite for the promotion of sound health—it stimulates digestion, and keeps the intestinal canal free from all obstructions. On the inferior surface of the liver is a peculiar bladder, in which the bile is first preserved, being formed by the liver from the blood. Thence it passes into the stomach and regulates the indigestion. Thus we see when there is a deficiency of bile, the body is constantly costive. On the other hand, an overabundance of bile, causes frequent nausea in the stomach; and often promotes very severe attacks of disease, which sometimes end in death.

Fevers are always preceded by symptoms of a disordered stomach; as are also scrofulous disorders, and all sympathetic functional, organic or febrile diseases. From the same cause, the natural and healthy action of the heart, and the whole vascular system is impaired and reduced below its natural standard; as exhibited in palpitations, languid pulse, torpors of the limbs, syncope, and even death itself, in consequence of an overabundance of a peculiar offensive substance to the digestive organs.

The approach of bilious diseases is at all times attended by decided symptoms of an existing diseased state of the stomach and bowels; i. e. with those signs which are known to point out their contents to be of a morbid irritating nature; but whenever the alimentary canal happens to be loaded with irritating matter, some derangement of the healthy operation, either of the general system or of some particular organ of the body is the certain result; and when this state happens to be united with any other symptoms of disease, its effects are always thereby much aggravated. The progress of organic obstruction is often so rapid as scarcely to admit of time for the application of such aid as is to be offered by art, yet, in general, the premonitory symptoms of gastric load are perceptible for a day or two previous to the feverish paroxysm, a period, when the most efficacious assistance may be given, by unloading the stomach and alimentary canal of its irritating contents, and thus reducing the susceptibility of disease.

Moffat's Life Medicines,

Should always be taken in the early stages of bilious complaints; and if persevered in strictly according to the directions, will positively effect a cure.

The mineral medicines often prescribed in these diseases, although they may effect a temporary cure at the same time create and unhealthy state of the blood and consequently tend to promote a return of the very disease which they are employed to cure. It is then by the use of purgatives, exclusively formed of vegetable compounds, which possessing within themselves no deleterious agencies, which decomposition, combination, or alteration can develop or bring into action, and therefore capable of producing no effect save that which is desired—that a safe remedy is found.

The Life Pills & Phenix Bitters Have proved to be the most happy in their effects in cases of bilious diseases of any purely vegetable preparation ever offered to the public. If the stomach is foul, they cleanse it by exciting vomiting or nausea in the stomach stimulating the neighboring viscera, as the liver and pancreas, so as to produce a more copious flow of their secretions into the intestines; stimulating the exhalant capillaries, terminating in the inner coat, which an increased flow of the useless particles of the body, foreign matters, or retained secretions, are completely discharged.

For sale wholesale and retail by the proprietor, WILLIAM B. MOFFAT, 375 Broadway—to whom all letters relative to the Medicines or orders must be directed.

The Good Samaritan, explaining more fully Mr. Moffat's theory of diseases, may be had gratis at the office, 375 Broadway, New York.
