

### Land and Negroes At Public Sale.

WILL BE SOLD, to the highest bidder, on Wednesday, the 29th of January next, at Mount Prospect, the residence of the late *Exum Lewis*, dec'd, in Edgcombe county.

**Twenty-two Negroes,**  
Of different ages and sizes—about 150 or 200 barrels of Corn, and five shares in the Wilmington and Roanoke Rail Road.  
Six months credit will be allowed, by giving bond and approved security, with a deduction of the interest if cash payments be preferred.

ALSO, at the same time and place, (if not disposed of before,) will be sold, the Land lying on the south side of Swift Creek, containing

About 1200 Acres.

It will be divided into three tracts (as it appears naturally to be) of about 400 acres each. The purchasers giving bond and approved security, a liberal credit will be allowed—say one and two years, with an allowance of the interest if any cash payments be made.

Persons wishing to buy the land, would do well to look at it before the day of sale, as it lies several miles off. Mr. Keim Lewis, living at Mt. Prospect, will ride over the land with such as may want to view it.

### Land for Sale. 500 ACRES.

BUT few opportunities such as the present, are offered to those who are in quest of land in this section of the State, having those advantages which all deem necessary, namely—a healthy location, soil well adapted to any thing, a fine

And large Dwelling House,

With other improvements, well watered and of the best quality, and generally admired for the beauty of its location, an orderly neighborhood, and in a word, every advantage that the farmer could ask for.

This is a faithful description of this Farm, which, from my anxiety to engage in the silk enterprise, would be sold certain at a great sacrifice.

This place is well suited to those, who favour the climate of the lower section of N. Carolina during the summer and autumnal months, commonly leave home annually at an inconvenient inconvenience.

Persons wishing to purchase are respectfully invited here, and I will with pleasure show them the premises. I reside nine miles below Lenoirburg and on the public road to Halifax town.

### THE CAUSE OF Bilious Complaints, And a mode of cure.

A WELL REGULATED and proportionate quantity of bile upon the stomach is always requisite for the promotion of sound health—it stimulates digestion, and keeps the intestinal canal free from all obstructions. On the inferior surface of the liver is a peculiar bladder, in which the bile is first preserved, being formed by the liver from the blood. Thence it passes into the stomach and regulates the indigestion. Thus we see when there is a deficiency of bile, the body is constantly constive. On the other hand, an overabundance of bile, causes frequent nausea in the stomach; and often promotes very severe attacks of disease, which sometimes end in death.

Fevers are always preceded by symptoms of a disordered stomach; as are also scrofulous disorders, and all sympathetic functional, organic or febrile diseases. From the same cause, the natural and healthy action of the heart, and the whole vascular system is impaired and reduced below its natural standard; as exhibited in palpitations, languid pulse, torpors of the limbs, syncope, and even death itself, in consequence of an overabundance of a peculiar offensive substance to the digestive organs.

The approach of bilious diseases is at all times attended by decided symptoms of an existing diseased state of the stomach and bowels; i. e. with those signs which are known to point out their contents to be of a morbid irritating nature; but whenever the alimentary canal happens to be loaded with irritating matter, some derangement of the healthy operation, either of the general system or of some particular organ of the body is the certain result; and when this state happens to be united with any other symptoms of disease, its effects are always thereby much aggravated. The progress of organic obstruction is often so rapid as scarcely to admit of time for the application of such aid as is to be offered by art, yet, in general, the premonitory symptoms of gastric load are perceptible for a day or two previous to the feverish paroxysm, a period, when the most efficacious assistance may be given, by unloading the stomach and alimentary canal of its irritating contents, and thus reducing the susceptibility of disease.

### Moffat's Life Medicines,

Should always be taken in the early stages of bilious complaints; and if persevered in strictly according to the directions, will positively effect a cure.

The mineral medicines often prescribed in these diseases, although they may effect a temporary cure at the same time create and unhealthily state of the blood and consequently tend to promote a return of the very disease which they are employed to cure. It is then by the use of purgatives, exclusively formed of vegetable compounds which possessing within themselves no deleterious agencies, which decomposition combination, or alteration can develop or bring into action, and therefore capable of producing no effect save that which is desired—that a safe remedy is found.

**The Life Pills & Phenix Bitters** Have proved to be the most happy in their effects in cases of bilious diseases of any purely vegetable preparation ever offered to the public. If the stomach is foul, they cleanse it by exciting vomiting or nausea in the stomach stimulating the neighboring viscera, as the liver and pancreas, so as to produce a more copious flow of their secretions into the intestines; stimulating the exhalant capillaries, terminating in the inner coat, which an increased flow of the useless particles of the body, foreign matters, or retained secretions, are completely discharged.

For sale wholesale and retail by the proprietor, *WILLIAM B. MOFFAT,* 375 Broadway—to whom all letters relative to the Medicines or orders must be directed.

The Good Samaritan, explaining more fully Mr. Moffat's theory of diseases, may be had gratis at the office, 375 Broadway, New York.

### AN HIGHLY Important Caution To the Public.

"Cave ne titubes"—Beware of falling.

**DOCTOR EVANS,** 100 Chatham street, takes the present opportunity of tendering his most unfeigned acknowledgements to the numerous patients [afflicted with the various form of disease incident to humanity] who have committed themselves to his care, and he has the satisfaction of knowing from many living evidences, that his remedies have removed or relieved their respective maladies, as far as lies within the compass of human means. How distressing to the afflicted is

### Dyspepsia or Indigestion,

poisoning all the sources of his enjoyment, and leading in many instances to the miseries of hypochondriacism. Long as it has been made the subject of inquiry by medical authors it remains involved in much obscurity. *Jundice, Diarrhoea, Cholera, and Colic,* also performs a conspicuous part in the drama of morbid affections.

**DR. EVANS** has been singularly successful in the treatment of the above complaints by remedies drawn from the researches of the most eminent physicians in Europe. He has also had vast experience and success throughout the whole family of delicate diseases, all of which are for the most part aggravated by, and rooted in the constitution, by the conspiracies of *mercurial murderers unprincipled, uneducated and unpractised* in any art save that of attempting to lead the credulous on the road to ruin. Dr. Evans' office is supplied with the choicest remedies from foreign markets, and compounded on the most scientific principles, a physician is always in attendance, and all those who come there in the hour of need will go off rejoicing.

Dr. Wm. Evans' Medical office 100 Chatham.

### Ashma, three years' standing.

Mr. Robert Monroe, Schuylkill, afflicted with the above distressing malady. Symptoms:—Great languor, flatulency, disturbed rest, nervous headache, difficulty of breathing, tightness and stricture across the breast, dizziness, nervous irritability and restlessness, could not lie in a horizontal position without the sensation of impending suffocation, palpitation of the heart, distressing cough, costiveness, pain of the stomach, drowsiness, great debility and deficiency of the nervous energy. Mr. R. Monroe gave up every thought of recovery, and dire despair sat on the countenance of every person interested in his existence or happiness, till by accident he noticed in a public paper some cures effected by *Dr. Wm. Evans' medicine* in his complaint, which induced him to purchase a package of the Pills, which resulted in completely removing every symptom of his disease. He wishes to say his motive for this declaration is, that those afflicted with the same or any symptoms similar to those from which he is happily restored, may likewise receive the same inestimable benefit.

### Liver Complaint, ten years' standing.

Mrs. Hannah Browne, wife of Joseph Browne, North Sixth st., near Second st., Williamsburgh, afflicted for the last ten years with Liver Complaint, restored to health through the treatment of *Dr. Wm. Evans.* Symptoms:—Habitual constipation of the bowels; total loss of appetite, excruciating pain of the epigastric region, great depression of spirits, languor and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side, without an aggravation of the pain, urine high coloured, with other symptoms indicating great derangement in the functions of the liver.

Mrs. Browne was attended by three of the first physicians, but received but little relief from their medicine, till Mr. Browne procured of Dr. Wm. Evans' invaluable preparations which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.

*JOSEPH BROWNE.*
