**DR. HARRILL'S**  
**Tomato and Slippery Elm**  
**PILLS.**

THERE are many family medicines  
now before the public, some of which,  
from their intrinsic virtues have justly  
gained the confidence and gratitude of  
thousands; but in the light of contrast, and  
in the scale of curative merit, Dr. Harriell's  
Tomato and Slippery Elm Pills stand  
pre-eminently above them all; nor is any  
opinion offered for taking this high  
ground, unless it is the fact of their supe-  
rior, and almost miraculous effects in the  
cure of diseases. They produce, when tak-  
en, a deep and lasting impression that  
they stand at the head of all other prepa-  
red medicines of the day. Fevers, Liver  
affections, Jaundice, head ache, loss of  
appetite, costiveness, female complaints,  
and every disease within the reach of hu-  
man means; yield readily to the power-  
ful, yet gentle operation of these pills.  
As a cathartic they are copious and free  
as an aperient they are mild and certain,  
as a tonic they are prompt and invigorating  
as an alterative they are superior to Calo-  
mel or any other known remedy, and as a  
purifier of the blood they are unequalled  
in the history of medicines. There is no  
disease can withstand their life-giving en-  
ergy when taken in time, or interrupt the  
system at all when they are administered  
as a preventative. During sickly sea-  
sons, and the prevalence of epidemics,  
their occasional use will preserve the  
body from attacks of disease. 50 cent  
per box. \$54 per gross.

Druggists, Booksellers, and Merchant  
are requisite to become agents for the  
sale of the above medicines.

All orders (post paid) directed to Dr.  
A. Harriell, Elizabeth City, N. C. will re-  
ceive strict attention.

**PROSPECTUS**

OF THE

**Journal of the American Silk So-**  
**ciety and Rural Economist,**

EDITED BY GIDEON B. SMITH.

THIS Journal was established by the  
American Silk Society, for the pur-  
pose of diffusing practical information of  
the culture of silk in the United States. It  
was now being published one year, and  
may be considered a work of stand-  
ing character. The first year's publication,  
comprising the first volume, contains a  
mass of valuable information and it will  
be the object of the Editor to make it  
second equal in all respects, if not su-  
perior to the first. The important mat-  
ter now established beyond any question,  
that the people of the United States can  
make silk cheaper and better than any  
other nation upon earth. It has been  
proved by unimpeachable testimony, that  
the entire cost of producing silk ready  
for market, does not exceed two dollar  
and twenty five cents per pound, and is  
lowest value is four dollars and fifty  
cents; also, that one acre of ground  
planted in morue multicaulis, will pro-  
duce, the first year the trees are planted,  
only eight pounds of silk, leaving a clear  
profit to the producer of one hundred  
and eight dollars! It has also been pro-  
ved that the children and females of any  
amer's family can, with the greatest  
possible ease, produce from fifty to a  
hundred pounds of silk every year, with-  
out any cost whatever to the expenses of  
the farm after the trees are planted; and  
therefore, that the whole amount of silk  
will be so much clear gain, say from  
\$225 to \$450. With these facts we  
submit to an intelligent people whether  
it is not a great and important object,  
or them to introduce the culture of silk,  
in every farmer's family in the Union,  
to enable all our farmers to make silk,  
the Journal of the American Silk Society  
was established; it contains plain  
practical directions for cultivating the  
trees, feeding and rearing silk worms,  
reeling the silk, and preparing it for  
market, &c., besides all other informa-  
tion that can be required to enable any  
person to enter upon the business, either  
on a large or small scale. Every  
friend of his country, into whose hands  
this paper may fall, will be doing a pa-  
triotic and philanthropic work by induc-  
ing his friends and neighbors to enter  
their names upon the list of subscribers.

The Journal of the American Silk  
Society is published monthly, in pamph-  
let form; each number contains thirty  
two octavo pages, printed on new type  
and handsome paper, with a printed col-  
ored cover.
