

TARBOROUGH

SATURDAY, FEBRUARY 6, 1841.

Resumption.—We are gratified to state, that the Branch of the State Bank, in this place, resumed specie payments on Monday last. We also learn, that the other Banks in this State also resumed on that day, as well as those in Virginia and Maryland. The South Carolina Banks resumed some time since, and the Georgia Banks were compelled by law to resume also on last Monday. This makes the resumption general in all the Atlantic States.

We again call the attention of our readers to the Prospectus of the "Southern Times," proposed to be published in the city of Raleigh by H. I. Toole, Esq. We are truly gratified in hearing that the paper will be issued about the 4th of March next.

"Never despair of the Republic."
PROPOSALS for a newspaper in the City of Raleigh, to be called THE SOUTHERN TIMES; and to be edited by Henry I. Toole.

Proposals of this sort usually abound in promises; few will be made in this case, but they will be redeemed.

The design of the proposed paper differs somewhat from that of any now published in this City: combining more Literary Miscellany with politics, than is customary with the party Press. Its main character, however, will be political, and its doctrines of the Jeffersonian school.

The first number will be issued about the Fourth of March next, if a sufficient number of subscribers is obtained to justify the undertaking. As it cannot be regarded as certain that such will be the case, no subscriber is expected to pay until he receives the paper.

The size will be about the same with the "Raleigh Register," and it will be published twice a week during the sessions of the General Assembly; and weekly at all other times. The price will be Four dollars per annum.

If the undertaking succeeds, it is the purpose of the Editor to hire a good Reporter who will present the debates in the General Assembly of the State, more fully than has ever been done.

Every person to whom this proposal is sent, will please, as soon as all have subscribed who may be supposed desirous to patronize the undertaking, transmit their names to the Editor, at Washington, North Carolina.

We are requested by Mr. Henry I. Toole to say, that those gentlemen who hold subscription lists for the "Southern Times," will please transmit them to him at this Post Office, by the 20th instant.

Washington Rep.

From the Raleigh Standard.

TO DEMOCRATIC EDITORS.

Any gentleman of the Democratic Republican party, who is competent and willing to sustain the great principles for which that party is contending, may have an opportunity of possessing himself of the establishment of the North Carolina Standard.

The office is well furnished in materials, and has a list of about 2000 subscribers, supposed to be as good, as to pay, as those of any establishment in the State. The job work and advertising are respectable.

To avoid the necessity of any correspondence on the subject, except such as may amount to an acceptance of the terms, they are herewith published.

The materials and List will be sold for \$3000; two-thirds of which must be paid in Cash, and a Bond, with approved securities, at 12 months for the remaining third, with interest from date. The purchaser to make up the papers to those who have paid in advance, the number of which is small.

I believe the annals of our business has not afforded an opportunity so favorable to a purchaser as the present; which will be better understood, when it is stated that the whole amount demanded, is considerably less than the clear annual income of the office.

If the purchaser desires to have the accounts due the office, with the establishment, they will be sold at a large discount, and on accommodating terms.

It is not perceived that the late reverses in the fortunes of our party, have decreased the subscription list of the Standard; and it may be fairly presumed that a Democratic Republican paper, faithfully conducted at the seat of Government, will always command a generous support from our political friends.

Other views and prospects, with the almost absolute necessity of being absent a greater part of the ensuing summer, have induced me to make this offer.

No arrangement will be entered into

with any person, who may not be supposed acceptable to our republican friends, whose generous confidence and support I have for nearly five years enjoyed, and which confidence I will never betray, in any shape whatever.

If the sale is not consummated by the middle of April next, I shall continue in the establishment.
T. LORING.

Raleigh, Jan. 26th, 1841.

Congress.—In the Senate, on the 25th ult. Mr. Preston submitted report, and resolutions of the Legislature of South Carolina, upon the unconstitutionality of a U. S. Bank, and the Tariff, &c., and that the principles, and policy of the present administration are approved by the Legislature.

Mr. Clay of Ky., resolutions of the Legislature of that State in favor of U. S. Bank, and the distribution of the proceeds of the public lands.

In the House, on the 18th ult. Mr. Jones addressed the House, giving reasons for the immediate passage of the bill to issue Treasury notes.

Mr. Bernard opposed it, and offered an amendment to instruct the committee of Ways and Means to borrow \$10,000,000, on the credit of the Government, and advocated it till the House adjourned.

In this amendment may be seen the manner in which the Whig party are striving to bribe the Government with a National debt; and they are trying every means in the world to fix the "odium" on the present administration. That the next administration will bring a "national blessing" upon us by means of a "national debt" the most rank whig can now scarcely deny.

On the 18th, Mr. Bernard resumed his remarks in opposition to the Treasury note bill.

Mr. Stanly offered an amendment to the bill, levying duties on silks, wines, &c., imported into U. S. States.

On the 21st, Mr. Adams presented a petition for the abolition of Slavery, and that no new state or territory be received into the Union, which tolerated slavery; it produced great confusion, uproar, & disorder, in the House. Mr. Adams denounced the rule of the House, by which abolition petitions were rejected, as infamous and unconstitutional.

The Senate of the United States have been summoned to meet in Washington on the 4th of March next.

Executive Appointments.—From recent indications, we may suppose the following may form the cabinet of the next President—euphoniously styled, by his friends, "Old Tip."

Daniel Webster, of Mass. Secretary of State.

Mr. Crittenden, of Kentucky, Attorney General.

John Bell, of Tenn. Secretary of the Navy.

T. Ewing, of Ohio, Post Master General.

Thaddeus Stevens, of Penn. Sec. of War.

The above are all of which report speaks with certainty. It is not supposed that North Carolina will come in for any share in the prominent appointments, notwithstanding the recommendation of "Ajix" Badger to Old Tip, as Attorney General. Some inferior appointments have been spoken of as likely to be given to the log-cabin Orators—such as U. S. Attorney for N. Carolina, Collector of the port of Wilmington, and U. S. Marshal—for any of which Mr. Badger may stand a good chance—notwithstanding the sneers of the Charleston Mercury—pretending not to know such a man; calling him *Badger* and *Botcher*! We can tell the Mercury that Mr. Badger has a stupendous notoriety throughout a territory of at least 3 miles square, bounded north by Crabtree, &c.; that he has at least a dozen admirers—with whom not to know this gentleman is to know but little or nothing—*Botcher*, indeed!—*Raleigh Standard*.

A Relief.—We believe the public may be relieved from any apprehension on account of the appointment of Mr. Stanly to a station in Tip's cabinet; the statement to that effect being a mere rumor, originating, probably, with Mr. S. or his friends. If Gen. Harrison is desirous of showing his gratitude to North Carolina, there are a number of men whose talents and character would certainly not disgrace the State and the Union—such as *Gaston, D. Cameron, D. L. Swain, John Owen*, and others. No party in North Carolina is so destitute of proper materials as to stoop to such a vile necessity as that hinted at above.—*ib.*

Mr. Badger and the \$2500.—We find the following account of services rendered by Mr. Badger, in the Fayetteville North Carolinian of the 30th ult. for which our "whig," "reform," "economical" Legislature awarded him the above sum. Our legislators must have been very anxious to involve the State more deeply in debt, or to reward a partizan, or both, from what we perceive in the statement below:

"Now we have been informed that the facts are these: That Judge Badger went on to Washington to argue the cause; remained there a week or two, visiting, and attending upon the debates in Congress; came away without arguing it, and left it in the charge of Mr. Webster. As to his expenses being \$500, if necessary expen-

ses are meant it is as supremely ridiculous, as it is untrue. The highest, *per diem* board is \$2 50; the highest *weekly* board is \$14; and by the *year*, good board can be had in any of our cities, at from \$7 to \$10 per week, and that the journey to and from Washington city to Raleigh could not have exceeded \$55. But 7 months since, the whole fare from Washington to Fayetteville, was but \$21. So that his Honor might have resided a *year* in Washington, for less than \$500; and his actual necessary expenses for the short time he did remain, ought not to have exceeded \$100. As to the value of the suit being "more than half a million of dollars," it is all fudge! and like the \$500 expenses; humbuggery to make the appropriation pass with the people."—*ib.*

Cotton is quoted in the last Petersburg papers, at from 9 to 10 1-2 cents.

There have been more fights on the Canadian frontier. We shall shortly have an opportunity of seeing what "Harrison and Reform" will do in the way of vindicating our national honor.—*Old Dom.*

It is rumored that Mr. Fox, the British Minister at Washington, has requested to be recalled.—*ib.*

There has been another altercation on the Canada line between some Englishmen and Maine farmers. After a hard fistieuff battle the farmers held the field, and threats being afterwards thrown out against some of them, the neighbors took their guns and held themselves ready. We are getting on quite fast.—*Transcript.*

Paper vs. Specie.—It is stated that there are, at this time, outstanding, upwards of \$750,000 in notes of the old United States Bank, the greater portion of which are supposed to have been destroyed.

Baltimore Sun.

Gov. of Maine.—As was generally expected, no choice was effected by the people; and that fact having been ascertained, the House nominated to the Senate, John Fairfield, and Edward Kent, and the latter was elected by a majority of 5.

Commodore Stephens, Commanding Navy Yard, Washington, died suddenly, on last Thursday week, having been in command only 10 months, and being the second commander buried from that yard within the last 17 months. He was in the Senate Hall on the afternoon previous in good health.

Hiram Haines, esq. late Editor of the Virginia Star, died recently at Petersburg, of bilious pleurisy, aged 38. He possessed many amiable qualities, and had a high reputation as an able political editor. He has left a wife and six children, and an aged father, who were dependent on him for support.

Franklin Bank of Baltimore.—We noticed a week or two ago, that this Bank had stopped, and cheated its customers, but did not give the reason, because we did not, nor any body else know. But, reader, what do you think was the reason? Why the Cashier during a 20 years term of office, had managed to abstract \$200,000 of its funds!

The wife of the Cashier, upon learning her husband's misfortune, lay down, became ill, and died in 3 days.

California.—A writer in the National Intelligencer is urging the importance of the United States purchasing California.

It is represented as the garden spot of the world, both on account of the diversity and richness of its soil and salubrity of its climate; and is regarded as highly necessary to the defence and safety of this country. There are strong reasons *pro and con*, on this subject. This republic already embraces a vast extent of territory, and could not enlarge it without increasing the difficulties of governing, and the dangers of division and dissolution. But the thirst of England and France for the acquisition of territory is insatiable. The former has already laid claim to Oregon, and is now attempting to wrest from us our interest in the Aroostook; and her eyes will no doubt be turned to California, as foothold there and in the regions just mentioned, will enable her completely to surround the U. States! This is a matter of great national importance, upon which we would not express a hasty opinion. But one thing is certain; we must not suffer that rich and delightful country to fall into the hands of Great Britain.—*Ral. Star.*

Animosity Subdued by a common Misfortune.—During the recent inundations of the river Rhone, there were seen on the banks of sand in the middle of the water, numerous wild bulls, horses, foxes, pole-cats, rabbits, rats, and other animals usually hostile to each other, congregated together, without doing each other any harm, and among them was a great number of snakes.

Bigamy.—A man was convicted of this crime in New York a few days ago, who, while awaiting his trial on bail for marrying two wives, actually married a third.

Georgia vs. Maine.—Gov. McDonald, of Georgia has vetoed the law, lately passed by the Legislature of that State, imposing a quarantine upon vessels, coming

from Maine, because that State refuses to grant satisfaction to Georgia for the outrage committed upon her rights of kidnapping and abducting the slaves of her citizens by citizens of Maine.

A bill has passed both branches of the Pennsylvania Legislature, requiring the Governor to borrow \$800,000 at an interest of six per cent. to meet the interest on the State debt falling due in February.

Texas and Mexico.—The President pro tem. Burnet, has recommended to the Congress of Texas to call out volunteers to repel an anticipated invasion from Mexico. He says, significantly, that Texas proper is now bounded by the Rio Grande; but as defined by the sword, it may comprehend the Sierra del Madre. Already are the Mexicans gathering upon her borders, and the war spirit is up in Texas. We shall not be surprised to hear ere long that the flag of the young Republic is waving in triumph over the city of the Montezumas.

Foreign.

Latest from Europe.—By the arrival of the British Steamer *Columbia*, arrived at Boston, we have dates eleven days later. The most interesting item of news to us, this side of the water, is the rise in Cotton. It has had, of course, a corresponding effect here.

A comfortable fee.—It is said that Sir James Clark and Dr. Locomock, the principal Physicians in attendance at Queen Victoria's accouchment received, each, a fee of £1,000—more than four thousand four hundred dollars. We suppose these said physicians to Royalty most devoutly wish for her majesty a long continuance of

DIED.

Near this place, yesterday, after a brief illness of three days, *Joseph R. Lloyd*, Esq. President of the Branch of the State Bank in this place. The deceased has left a wife and five children, and a large circle of relatives and friends to mourn his loss.

In Tarborough N. C., on the night of the 7th of January 1841, Camillus L. Foreman, son of A. S. Foreman, deceased—aged 21 months. Seldom has the melancholy duty of paying a last tribute to departed affection, been felt with keener anguish than on the present occasion.

In the death of this interesting little boy, the last link which bound the living with the dead has been broken, and the disconsolate mother and a large circle of friends have sustained a loss which will be deeply felt and which time alone can relieve. On him were centered the united hopes and affections of numerous relations, who looked forward to the period of his manhood, with sentiments of honest exultation and pride, and had it pleased an all-wise and inscrutable Providence, to have spared him, their highest wishes had been gratified. But it was otherwise decreed, and it should be a source of consolation to this afflicted family, to know that his immortal spirit has winged its everlasting flight from this world of wretchedness and woe and now calmly reposes on the bosom of him, who has enjoined upon us to "suffer little children to come unto me, and forbid them not, for of such is the Kingdom of Heaven"—Farewell, beloved boy! Farewell. The Prayers of an affectionate mother, daily ascending the throne of mercy, for his restoration, could not stay the "shoot" of the "Insatiate Archer" nor delay his spirit in a world of woe, but like the dew-drop too pure for earth, it has exhaled to Heaven to repose on the bosom of God.

Ave turn and weep! 'Tis manliness,
To be heart broken here,
For the grave of earth's best nobleness,
Is watered by the tear.—(Willis.) D.
