The aggregate amount to be distributed is \$51,608 99-of which this county's proportion is \$1,077 67. The Register also remarks:

The annual income of the Literary fund, however, is not to be estimated by the sum now distributed, because the Act did not go into operation until the 11th of January last, and therefore did not include the Bank and other Dividends declared for the preceding six months. The period embraced in the distribution now made, is only five months. At the next, and each succeeding division of the annual proceeds of the Fund, the sum to be distributed will not fall short, probably, of \$100,000.

Passage of the Bank Charter in the Senate .- The circumstances under which the Bank charter pa-sed, deserve a commentary, which we have not time to make this evening. There are a few facts to which we will call attention, to mark the character of the transaction.

First: The charter for this new government of the country, passed the Senate without obtaining the vote of the mault, the Bank bill passed by the following joriny of the members of that body. There tre fifty-two members - Tennessee is only

half represented in the body. If her full representation had voted as the fraction of it voted on the question, and the other dissenting member from the bill (Mr. Clayton) had been compelled to do his duty, and vote according to his own sense of his oath, the charter would have fatten in the Senate.

Next: If Mr. Henderson had done his duty yesterday, attended as he was bound to do, and voted, as he says he would have voted, according to the dictates of his conscience, the compromise, the amendment, would have been rejected, and then Messrs. Merrick and others, who stood pledged to vote against the bill without the amendment, would have defeated the mea-
