HOW simple, yet how wise, how good For all kinds of business. (+xcept dealing and beautiful are all the laws of na ture? Simplicity and truth are stamped upon every law of the creation. The mighty worlds which roll in space in every degree of velocity and direction Gov. E B. Dudley, W. & A. Stith, are all governed by

#### ATTRACTION OF MATTER TO MATTER.

This principle governs the human body. Brandreth's Vigetable Universal Pills attract all impurities of the blood Cheaper than ever at the to the bowels, which organ expels them from the body. Attraction and disease are both units. All accidents or infec tions only affect the body in proportion as they occasion impurity of the blood.

The bowels for instance are costivethis most important organ is closed the consequence is a great accumulation of impurities, which, as they cannot get out by their usual passage, are forced into the blood, occasioning impurity of blood. Thus, Fevers, Cholics, Rheumatism, Coughs, and Colds are often produced But let Brandreth's Pills be used in such doses as will effectually evacuate the how els, and health is restored at one .

Hot weather, by occasioning debility produces impurity of blood; from which arises Dysentary, Cholera Morbus, cramps in the bowels, feebleness, pain in the back and hip joints, headache, &c., &c. These uppleasant companions are speedi ly removed by a few doses of Brandreth's Pills, which soon restore health by purifying the blood.

Grief, great anxieties of mind, much watching, fear, bad tood, intemperance, residence near marshy land, tend in a ve-1y powerful degree to promote impurity of the blood, which soon shows itself in Erysipelas, consumption, epileptic fits, appoplexy, seurvy, lever and ague, de rangement of the stomach and bowels, all which symptoms will soon be removed by purifying the blood with the Bran dreth Pills.

Small pox, scarlet fever, putrid fevers even spotted fever, and fevers of all kinds are propagated only by those whose blood is in a state of impurity; these maladies are mild or virulent according as the blood be charged with impurities previous to the infection being received, and never attack those whose blood is in a state of purity. The Brandreth Pills, by purifying the blood, soon cure these maladies; in fact the Pills go at once to collect all the causes of these complaints, which are brought by their health restor ing powers to the bowels, and so removed out of the body, leaving the blood pure and healthy.

Fracture, bruises, &c. &c., produce impurity of the blood by occasioning a de rangement of the general health. If Brandreth Pills are not used so as to pre-
