

To all the world who use Leather in any form.

### Oil of Tannin,

Or, Leather Restorer.

A NEW CHEMICAL DISCOVERY.

MOST people know, that Skins and Hides are converted into Leather by the use of Tannin extracted from certain barks, &c.

When the force and strength of the Tannin is worn out, leather becomes dead, hard, dry, brittle, cracked, covered with a crust, &c. THIS ALL KNOW. To restore then life, softness, moistness, strength, smoothness, and remove all crusts, fly, or blister—restore the tannin. This substance the leather never can receive the second time; but the whole virtues of it are in this article, THE OIL of TANNIN—which penetrates the stiffest and hardest leather, if it has been twenty years in use; and if it tears easily with the fingers, it imparts at once a strength that is utterly incredible until seen. It becomes like new leather, in all respects, with a delightful softness and polish, and makes all leather completely and perfectly impervious to water—particularly boots, shoes, carriage tops, harness, hose, trunks, and in fact all things made of leather, giving a splendid polish, even higher than new leather has, and at least doubling its wear and durability, in whatever manner the leather is used.— THESE ARE FACTS.

Those who will wear old shoes, groan with corns, ride with old carriage tops—have old harness and throw them away half used—look filthy themselves, and all about them—expend double what is necessary for articles of leather, to their hearts' content, for what we care, if their prejudices are so strong they will not try a new discovery. We have no favors to ask of them, they are the greatest sufferers, and we beg for nobody's custom or patronage. Now, gentlemen, please yourselves.

None genuine unless with the fac-simile signature of Comstock & Co.

### Dr. John Sappington's ANTI-FEVER PILLS,

ARE offered to the Public as a certain and effectual remedy for Fevers of every description.

In addition to the numerous testimonials in their favor heretofore made public, the following letter, from Mr. C. B. Hassell, of Williamston, N. C. is respectfully submitted.

Williamston, N. C. 20 Sept., 1842. Doct. JOHN SAPPINGTON:

Dear sir,—In 1834, if I mistake not, one of your agents, arrived at this place and left with me near a hundred Boxes of your Anti-fever Pills. I sold them. In the winter of 1838 and '39, prehaps, another agent arrived and I with a friend of mine bought of him 100 boxes more. In January, 1841, another agent (Mr. Stephenson) made his appearance, and my friend and I purchased of him all the Pills he had, (he was gathering up all left in this State and Virginia.) After leaving here for home, he returned in a day or two with another lot, which he had gathered along the way, and we bought all of them. I am now nearly out of those Pills again, and am at a complete loss to know where to obtain them. The only resource left me is to apply to you for direction.

I deal in Pills to a very considerable extent, but yours are the only ones that I can recommend on my own authority, or that are worth having, in my estimation. I would not give two cents for all the Pills in America for my own use; but if sick with the Billious, or Ague and Fever, (which so much prevail here,) I would not exchange yours for their weight in gold. The truth is, I believe they never have failed to cure, if taken according to directions, where the case was curable by human skill; and therefore approach infallibility nearer than any remedy ever yet discovered, for the diseases mentioned in your advertisement. Respectfully, yours, C. B. HASSELL.

### WORMS! WORMS!! Startling Facts.

HUNDREDS of children and adults are lost yearly with Worms, when some other cause has been supposed to be the true one. It is admitted by all Doctors that scarce a man, woman or child exists but what are sooner or later troubled with worms, and in hundreds of cases, sad to relate, a supposed fever, scarlatina, cold, or some other ailment carries off the flowers of the whole human family—while in truth they die of Worms! and these could have been eradicated in a day, by the use of a bottle of

### Kolmstock's Vermifuge,

At the cost of a quarter of a dollar!—How sickening the thought that these things should be—and who can forgive themselves for not trying this Worm Exterminator, when they know that even if the case was not worms, this remedy could not by any possibility do hurt—but always good as a purgative—let the disease be what it may. How important then to use it, and who will dare take the responsibility to do without it? Let every parent that is not a brute, ask themselves this question in truth & soberness.

In some of the best families in the neighborhood of St. John's Park, it has been extensively used, from the circumstance of having eradicated a large quantity of worms, after all other remedies had failed, which was extensively known in that part of the city.

In numerous cases other complaints were supposed to exist, and the persons treated for fever, &c. but finally a trial of this Vermifuge discovered the true cause of the sickness, by bringing away almost an innumerable quantity of Worms, large and small, and the persons recovered with great despatch. Instances of this kind might be cited to an immense extent, but it is useless, one trial for 25 cents will show any one with astonishment the certain effects of this Vermifuge.

Caution—Never buy this article unless it have "Dr Kolmstock's Vermifuge" handsomely engraved on the outside label, and the fac-simile of Comstock & Co., thus—Comstock & Co., New York, are the sole agents for it.

### Health and long life.

THE immense number of letters which Dr. Moffat has received, and is daily receiving from individuals in different parts of the Union, in testimony of the excellent virtues of the Life Pills and Phœnix Bitters, precludes the possibility of his laying them before the public in a printed form.

### The Life Medicines

Have in many cases been recommended and used by physicians. They have stood the severest test, and proved the most unfailing remedy ever offered to the sufferer, under almost every disease. As a general family medicine they are most invaluable.

The Life Medicines have been used with success in almost every disease to which mankind is liable, and for bilious and liver complaints, with their many well known attendants, bilious and sick headache, pain and oppression after meals, giddiness, dizziness, singing noise in the head and ears, drowsiness, heartburn, loss of appetite, wind, spasms, &c., they are acknowledged to be vastly superior to any thing ever before offered to the public, and for those of a full habit of body, they will prove invaluable; while as a general family aperient, for either sex, they cannot fail to ensure the universal satisfaction.

The efficacy of the LIFE PILLS And Phœnix Bitters

Is most certain, if freely given on the attack of fever, influenza, measles, sore throat, recent colds, with cough, and other inflammatory disorders. In rheumatism and chronic complaints they have also performed the most extraordinary cures, when used with perseverance.

Since the first introduction of Dr. Moffat's Life Medicines to his fellow citizens, they have in every case, fully maintained the high character they so well deserved. Patients who had for years drawn on a miserable existence, and many who had lost the use of their limbs by rheumatism and paralysis, have been restored to health, strength and comfort, after the usual remedies had been found useless. Its astonishing and almost miraculous effects have also been experienced, in the cure of nervous and rheumatic pains of the head and face, paralytic affections, contracted and stiff joints, glandular swellings, pains of the chest and bones, chronic rheumatism, palpitation of the heart, difficult respiration, &c.

Complaints arising from a vitiated state of the blood are easily subdued by the powerful efficacy of these mild and salutary medicines.

In addition to the numerous testimonials in their favor, which accompany the above medicines, many references in this vicinity of their beneficial effects can be given on application to the subscriber, who offers them for sale.

Many have been cured in a few weeks, after having suffered under the dreadful complaint for years.

In habitual costiveness they are decidedly superior to any vegetable pill ever brought before the public; and one 50 cent box will establish their surprising virtues and place them beyond the reach of doubt in the estimation of every individual.

These are invaluable in nervous and hypochondriacal affections, loss of appetite, and all complaints to which females generally are subject.

They are mild in their action and carry almost immediate conviction of their utility from the first dose. They may be taken by persons of any age, and the feeble, the infirm, the nervous and delicate are strengthened by their operation, because they clear the system of bad humors, quiet nervous irritability and invariably produce sound health.

CERTIFICATE. The following letter from Major General Sanford, as to the qualities of the external remedy, speaks volumes:

New York, Feb. 9, 1842.

Dear Sir—Will you oblige me with another bottle of your excellent Liniment? It is certainly the best of the kind I have ever seen. It has cured entirely my son's knee, about which I was so uneasy, and I have found it productive of immediate relief in several cases of external injury in my family. A few evenings since, my youngest child was seized with a violent attack of croup, which was entirely removed in twenty minutes by rubbing her chest and throat freely with the external remedy. I think you ought to manufacture this Liniment for general use, instead of confining the use of it, as you have heretofore done; to your particular acquaintances. Yours, truly,
