## DR. D. JAYNE'S Family Medicines.

THESE medicines are recommended and extensively used by the most intelligent persons in the United States, by numerous Professors and Presidents of Colleges, Physicians of the Army and Navy, and of Hospitals and Almshouses, and by more than five hundred Clergymen of various denominations.

They are expressly prepared for family use, and have acquired an unprecedented popularity throughout the United States; and as they are so admirably calculated to preserve HEALTH and cure DISEASE, no family should ever be without them. The proprietor, of these valuable preparations received his education at one of the best Medical Colleges in the United States, and has had twenty years experience in an extensive and diversified practice, by which he has had ample opportunities of acquiring a practical knowledge of diseases, & of the remedies best calculated to remove them.

Names and Prices of Dr. D. Jayne's Family Medicines, viz:

## Jayne's Ague Pills,

Are WARRANTED to make a perfect and lasting cure of Fever and Ague.

These Pills are put up in vials containing from 25 to 30 Pills each, and being thus excluded from the air, never deteriorate or undergo any change, and are WARRANTED, if used according to the directions, to be an INFALLIBLE REMEDY for

## Fever and Ague.

During twelve years extensive Practice in a low marshy district of country, where Fever and Agues were very prevalent, the Proprietor was always enabled to effect radical cures, of the most inveterate cases, by the use of these Pills.

Messrs. Jayne & Pancoast of St. Louis, Mo., found these Pills so uniformly successful in curing Fever and Ague, that they sold several hundred bottles to various persons in Missouri, Illinois, &c., agreeing to return money in all cases where they failed to effect a cure, and such was the universal satisfaction the Pills gave of their value that they were never called upon to refund for a single bottle.

These Pills may also be used in all cases where a tonic or strengthening medicine may be required. Prepared only by Dr. D. JAYNE, No. 8 South Third Street, Philadelphia.

## POETRY.

From Chambers's Journal.

### LIGHT FOR ALL.

You cannot pay with money  
The Million sons of toil—  
The sailor on the ocean,  
The peasant on the soil,  
The laborer in the quarry,  
The hewer of the coal;  
Your money pays the hand,  
But it cannot pay the soul.

You gaze on the cathedral,  
Whose turrets meet the sky,  
Remember the foundations  
That in earth and darkness lie,  
For were not these foundations  
So darkly resting there,  
Yon towers could never soar up  
So proudly in the air.

The work shop must be crowded  
That the palace may be bright,  
If the ploughman did not plough  
Then the poet could not write.  
Then let every toil be hallowed  
That man performs for man,  
And have its share of honor,  
As part of one great plan.

See, light darts down from Heaven,  
And enters where it may;  
The eyes of all earth's people  
Are cheered with one bright day.  
And let the mind's true sunshine  
Be spread o'er earth as free,  
And fill the souls of men  
As the waters fill the sea.

The man who turns the soil  
Need not have an earthly mind;  
The digger 'mid the coal  
Need not be in spirit blind,  
The mind can shed a light  
On each worthy labor done,  
As lowest things are bright  
In the radiance of the sun.

The tailor, ay, the cobbler,  
May lift their head as men—  
Better far than Alexander  
Could he wake to life again,  
And think of all his bloodshed,  
(And all for nothing too!)  
And ask himself—"What made I  
As useful as a shoe?"

What cheers the musing student,  
The poet, the divine?  
The thought that for his followers,  
A brighter day will shine.  
Let every human laborer,  
Enjoy the vision bright—  
Let the thought that comes from heaven  
Be spread like heaven's own light.

Ye men who hold the pen,  
Rise like a band inspired,  
And poets, let your lyrics  
With hope for man be fired;  
Till the earth becomes a temple,  
And every human heart  
Shall join in one great service,  
Each happy in his part.

## MISCELLANEOUS.

From the Raleigh Independent.

### RALEIGH & GASTON RAIL ROAD.

Maj. Charles L. Hinton, Treasurer of the State, has advertised the Raleigh and Gaston Rail Road for sale, on the 29th of December next, by virtue of a Decree of the Court of Equity, at its fall session in 1845. The purchaser, by the terms of the Decree and the Act of the Legislature, will become *ipso facto*, a body corporate, by the name and style of the present company, and will acquire the franchises, privileges, rights and immunities now possessed by it, for the term of 80 years, for which term the charter has yet to run.

The terms of the purchase are, 6 per cent interest per annum, from the day of sale, and to be paid as follows: \$25,000 at the end of six months, and the residue in four instalments, at intervals of ten months each—say

1st, 29th June, 1846, \$25,000.  
2nd, 29th April, 1847, one-fourth of the remainder.  
3d, 29th February, 1848, one-fourth do.  
4th, the 29th December, 1848, one-fourth do.  
5th, the 29th of October, 1849, one-fourth do.

The cost of this Rail Road and its appurtenances, completed only five years since, was \$1,600,000—one-half of which was borrowed; creating a debt bearing interest, on failure to pay which, a sale has become necessary. The Governor is authorized to bid \$400,000.

☞ The Alton Telegraph says: "We deeply regret to state that Schuyler Strong, Esq., one of the most distinguished mem-

bers of the Illinois Bar, put a period to his existence at his residence in Springfield, a few days since.

From the Raleigh Standard.

**Cotton.**—Reports from the Carolinas and Georgia are horrible. A loss of over 200,000 bales is set down by Gov. Hammond on the 14th, as the figure of South Carolina and Georgia.

The light sandy lands, the red lands, uplands, clay lands, all are short throughout Mississippi and Louisiana; the black lands, low lands—alluvial, will all yield well—whether they will, sufficiently well, to make up the deficiency in the States first named, is a question that no man of ordinary intelligence would attempt to decide until the crop is picked out—ginned—pressed!

From the Raleigh Register.

**Mortuary Chamber.**—In order to guard against premature interments, there is attached to most of the cemeteries in Germany, a Hall, where the dead remain some time before being committed to the ground. In this hall, the body neatly attired, is laid upon a couch—before the lips is placed a mirror which the slightest breath would cloud, and between the fingers a string, which on the slightest movement, causes a bell in the department of the keeper to ring. This hall is visited night and day hourly, by vigilant inspectors, and it is stated, that not a year passes that the bell is not rung by one of the supposed corpses. Similar precautions should be adopted in every burial place in America. Indisputable facts conclusively indicate their necessity.

**Horrible!**—The New York Tribune of Monday states that a little girl was lately shut up in a dark place for punishment, by the keeper of a Public School in the Eastern part of that city.—She screamed and shrieked so loudly that the neighbors at length went and rescued her—but the poor thing died the next day from the fright. No particulars are given.

☞ The Red River Republican states that Gen. Gaines and his wife, Mrs. Myra Gaines, have laid claim, "under the succession of the late Daniel Clarke, to a large and valuable tract of land on Bayou Beouff, comprising a front of at least 20 miles on said Bayou, all of the most choice land in high cultivation. The claim covers thirty of the best plantations in the State. By the tax list, the lands it includes are assessed at \$452,935. On the lands are 1967 slaves, and about 10,000 bales of cotton raised annually. All the present possessors have been notified of the institution of the suit for the recovery of the lands they occupy."

**A Duel stopped.**—Miss Mary Ann Golden was yesterday arrested on the affidavit of Miss Mary Rogers, charged with sending the latter a challenge. It appears that the parties who live in Franklin street, have had a dispute, which in the opinion of Miss Golden, could only be settled by an appeal to arms; accordingly, she sent Miss R. a challenge, of which the following is a true copy:—

**Franklin Street, Wednesday morning.**  
Madam—I hereby notify you to meet me at 1 o'clock this evening, at the other side of the French grave yard, then and there to settle our dispute, agreeably to the "Code of Honor." My friend, Miss Sarah —, who will hand you this, will meet any friend you may select to settle all preliminaries.

MARY ANN GOLDEN.

To Miss Mary Rogers.  
The investigation of this affair will take place before his honor the Recorder Genois this morning.—New Orleans Pic.

**Teaching the Piano in one minute.**—A Mr. Jameson, in England, is teaching what is called colored music, by which persons are taught to perform on the piano almost at the first touch of the keys. The pupils play from sight. The keys of the piano forte are colored, to various lengths to correspond with similar colors in the book; color being note, height being octave, and length being time.

**Division among the Friends.**—We see it stated that the Salem (Mass.) quarterly meeting of Oxford Quakers divided into two bodies at its last meeting. The parties are known to each other by the names "Wilburites" and "Gurneyites"—the former headed by John Wilbur, bearing a strong testimony against certain alleged errors in doctrines said to have been taught by Joseph John Gurney, an English Quaker who visited this country a few years ago. Both the Wilburites and the Gurneyites claimed to be the quarterly meeting exclusively—and as neither could do any business while any person not mem-

bers were present, each waited several hours for the other to go out. At length the Gurneyites withdrew. The next day they took possession of the meeting house, and the Wilburites went to the Silsbee street Chapel (loaned them by the "Christian" sect) and both proceeded to finish their work.

**Swapping Wives.**—The Angelica (N. Y.) Reporter gives an intimation of two respectable young men, both of respectable families, living in the same neighborhood in one of the towns of Alleghany county, and in prosperous circumstances, swapping wives—the ladies taking to their new homes all the property they had on their first matrimonial alliance. The above journal further states that no difficulty had, ever occurred between any of the parties, and that no reason is given for the strange re-creation.

**Mormon Temple.**—The Mormon Temple, it is said, is still in progress of erection. It is about one fourth the size of Solomon's Temple, and can accommodate 12,000 persons, being 4,000 on each floor. 350 men are zealously at work upon the building, which it is supposed will be finished in a year and a half, probably at a cost of half a million of dollars.

**Mormon Troubles.**—Thirty Houses Burnt.—A slip from the Quincy Courier, (Adam's county, Illinois), dated 14th inst. informs us that a body of anti-Mormons had attacked Morley's Settlement, near Lima, in that county, and burnt 25 or 30 houses, with barns, wheat stacks, &c. The Courier adds:

"The excitement is very great, and large numbers of anti-Mormons are pouring in from adjoining counties, and from Missouri, are still burning and destroying property, and determined to drive the Mormons from the county. Our informant saw about 50 Mormons under arms within about two miles from the settlement. It was in contemplation by anti-Mormons to attack two more settlements last evening."

The St. Louis Republican, of the 15th, learns from a passenger, that 300 anti-Mormons were encamped near Lima, and that 100 Mormons had gone into Nauvoo, where the Legion was ordered out.

☞ The strike among the Factory Girls at Pittsburg is leading to the commission of acts of violence, which will bring some of the parties into the hands of the law, and only make the condition of the poor girls worse. Not content with refusing to work themselves which they had a right to do, some of the girls assembled and entered the factories of Messrs. Blackstock and Moore, and drove those who were willing to work from their places. We see the names of some noted politicians among those who encourage the girls to such illegal acts, though they must know that nothing but evil can arise from it, to those whose cause they are pretending to serve.

Ledger.

From the N. Y. Jour. of Commerce.

**Essence of Coffee.**—Mr. E. L. Szaderdy has commenced among us the manufacture of this article, which he says is already in extensive use in Europe among the higher classes. A quart bottle of this essence costs but six shillings, and will make from one to two hundred cups of excellent coffee, according to the size of the cup, and the taste of the drinker.

From the Petersburg Republican.

**A Useful Hint.**—We learn from an English paper that an efficient method has been suggested of purifying wells, &c., from foul air.—The plan is simply to throw into the well a quantity of unslacked lime, which as it comes in contact with the water, throws up a column of vapor driving before it all the deleterious gas.

From the Edenton Sentinel.

**The Gentle Sex.**—Dow, Jr., has recently published a sermon on "Fire, water, and woman." We extract that portion relating to woman: "She is often the occasion of much trouble and mischief to man. For her he toils and slaves—for her he fights—for her he gets drunk—for her he left Paradise—for her he blows his brains out, and for her he makes a confounded fool of himself in a variety of ways.

Notwithstanding, woman is a blessing. Her influence over our rough heathen sex is as mild as the moon upon the tides, and twice as powerful. The moral fragrance that surrounds her is as sweet as colors that arise from a field of white clover; and her beauty makes her one of the most interesting living ornaments that wears either legs or wings, I don't care whether you mention a bird of Paradise, a butterfly, or a straddling-bug."
