## Doctor Wm. EVANS'

## SOOTHING SYRUP

For children Teething,

PREPARED BY HIMSELF.

To Mothers and Nurses.

THE passage of the teeth through the gums produces troublesome and dangerous symptoms. It is known by mothers that there is great irritation in the mouth and gums during this process. The gums swell, the secretion of saliva is increased, the child is seized with frequent and sudden fits of crying, watchings, starting in the sleep, and spasms of peculiar parts, the child shrieks with extreme violence, and thrusts its fingers into its mouth. If these precursory symptoms are not speedily alleviated, spasmodic convulsions universally supervene, and soon cause the dissolution of the infant. Mothers who have their little babes afflicted with these distressing symptoms, should apply Dr. William Evans' celebrated Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady, convulsions.

## OREGON TREATY.

The following is an official copy of the Oregon treaty, which will be read by the public with interest, from the fact of its importance in settling without war, a long vexed question of territory between the United States and Great Britain:

"The United States of America and her Majesty the Queen of the United Kingdom of Great Britain and Ireland, deeming it to be desirable for the future welfare of both countries that the state of doubt and uncertainty which has hitherto prevailed respecting the sovereignty and government of the territory on the north-west coast of America, lying westward of the Rocky or Stony Mountains, should be finally terminated by an amicable compromise of the rights mutually asserted by the two parties over the said territory, have named plenipotentiaries to treat and agree concerning the terms of such settlement—that is to say: the President of the United States of America has, on his part, furnished with full powers James Buchanan, Secretary of State of United States, and her Majesty, the Queen of the United Kingdom of Great Britain and Ireland, has, on her part, appointed the right honorable Richard Pakenham, a member of her Majesty's most honorable privy council, and her Majesty's envoy extraordinary and minister plenipotentiary to the United States; who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following articles:

Art. 1. From the point on the forty-ninth parallel of north latitude, where the boundary laid down in existing treaties and conventions between the United States and Great Britain terminates, the line of boundary between the territories of the United States and those of her Britannic majesty, shall be continued westward along the said forty-ninth parallel of north latitude, to the middle of the channel which separates the continent from Vancouver's Island; and thence southerly through the middle of the said channel, and of Fuca's straits to the Pacific Ocean; provided, however, that the navigation of the whole of the said channel and straits south of the forty-ninth parallel of north latitude remain free and open to both parties.

Art. 2. From the point at which the forty-ninth parallel of north latitude shall be found to intersect the great northern branch of the Columbia river, the navigation shall be free and open to the Hudson Bay Company & to all British subjects trading with the same, to the point where the said branch meets the main stream of the Columbia; and thence down the said main stream to the ocean, with free access into and through the said river or rivers, it being understood that all the usual portages along the line thus described shall in like manner be free and open. In navigating the said river or rivers, British subjects with their goods and produce shall be treated on the same footing as citizens of the United States; it being, however, always understood that nothing in this article shall be construed as preventing, or intended to prevent, the government of the United States from making any regulations respecting the navigation of the said rivers not inconsistent with the present treaty.

Art. 3. In the future appropriation of the territory south of the forty-ninth parallel of north latitude, as provided in the first article of this treaty, the possessory rights of the Hudson Bay Company and of all British subjects who may be already in the occupation of land or other property lawfully acquired within the said territory, shall be respected.

Art. 4. The farms, lands, and other property of every description belonging to the Puget's Sound Agricultural Company, on the north side of the Columbia river, shall be confirmed to the said company.

In case, however, the situation of those farms and lands should be considered by the United States to be of public and political importance, and the United States government should signify a desire to obtain possession of the whole, or of any part thereof, the property so required shall be transferred to the said government at a proper valuation, to be agreed upon between the parties.

Art. 5. The present treaty shall be ratified by the President of the United States, by and with the advice and consent of the Senate thereof, and by her Britannic Majesty; and the ratification shall be exchanged at London at the expiration of six months from the date hereof, or sooner, if possible.

In witness whereof, the respective plenipotentiaries have signed the same, and have affixed thereto the seals of their arms.

Done at Washington the fifteenth day of June, in the year of our Lord one thousand eight hundred and forty-six.

(Signed)

JAMES BUCHANAN, [L. S.]

RICHARD PAKENHAM, [L. S.]

Judge Robert C. Greer, of Pennsylvania, has been nominated by the President, and confirmed by the Senate, to a seat on the bench of the Supreme Court of the United States, to fill the vacancy caused by Judge Baldwin's death.—18.

A friend writes us from Lumberton, that on the 12th inst. Mr. James Flowers, a very respectable, worthy, honest citizen, was brutally murdered by the hand of a worthless wretch, by the name of Jack (alias) John Shepard, who is now in jail to await his trial.—18.

The Randolph Herald says: Eight or ten Gold Mines are now successfully worked in this county. Some of these have been worked for more than twelve months, and have been a source of considerable profit to their owners. Others have been recently discovered, and give very flattering prospects. Many of our farmers have turned their attention to the business, and are making very fair profits. We are of opinion that this county will, ere long, become a rich region. Gold can be found in small particles in four-fifths of the small streams; and, we have no doubt, will be found to exist in abundance, in veins that have not been discovered. Few that have embarked in the business have suffered much loss.

All the way from Oregon.—We have been favored by some friend with a copy of the first issue of the "Oregon Spectator," the first newspaper established in the Oregon territory! Here it is, all the way from our new settlement opposite Chinai! The motto of the sheet is, "Westward the Star of Empire takes its way," and we should not be surprised if the settlers in our far-off territory were looking around for some lone star of an island, or, rather, to throw the light of empire over it. The number before us is dated February 5th, 1846, and contains a copy of the constitution passed by the Legislature of the Territory; also, an act to prevent the introduction and sale of ardent spirits in Oregon. The editor, William G. T. Vault says, in his opening leader, that the paper will be neutral in politics, and devoted to the general interests of the Territory; but he at the time informs them that he is a Democrat of the Jeffersonian school. Besides being editor of the "Spectator," he is prosecuting attorney & Postmaster General of the Territory. T. Vault, judging from the stations he holds, must be a man of vaulting ambition.

St. Louis Reveille.

Americans in Russia.—Col. Todd informs us that the grading and working on the entire railroad line is given to American contractors. This contract amounts to four and a half millions of dollars, and was given to American Contractors, in the face of the competition of all Europe, without security.—Chn. Chronicle.

A Philadelphia paper says that two leading contractors called at the Exchange on Saturday, and offered to construct the whole of the Pennsylvania Railroad, for five and a half millions of dollars.
