SHOCCO SPRINGS:

A correspondent of the Halifax Republican gives the following graphic description of this fashionable and much resorted to Watering Place.

Sorrows I divide, Joy's I double. Dear Sir: After nine long months in the Southern and Northern Country, you can doubtless appreciate the agreeable scene l experienced in a recent visit to Shocco Springs; that well known watering place situated in Warren County; nine miles from one of the most flourishing Villages in the State, abounding in the most cultivated society, and a most admirable location for health, &c.

I have travelled from New York to New Orleans, and spent the greater part of my time, for the last three Summers, either in some of the Northern Cities, or at the Virginia Springs, not knowing the treasure that was so near me. I have frequently visited Shocco Springs in former years, and as often suggested that it might be made one of the most desirable watering places, if in the hands of a proper owner, and I can assure you that my expectations were more than realized in my recent visit. Mr. Celvert who is the present proprietor,) is a gentleman of HE passage of the teeth through the unceasing enterprize, & a sociable compagums produces troublesome and dan- nion, always wearing a smile to his guests, and exerting every faculty, in making them comfortable and happy.

The Cabins and Hotel have undergone an entire change having been enlarged and remodeled, the ball room is sufficiently commodious for three double sets to dance a ease, & the dining room, which is adjoining is also very spacious, and I have not ye seen the first gentleman, who did not ap probate Mr. Calvert's arrangements at ta ble; each gentleman's name is written upon a card, and placed on the back of his plate, families and acquiantances being thrown together as they may desire. This pre vents all confusion which would certainly arise; among from two hundred and fifty or three hundred persons dining at a time.

The furniture in all the cabins is entirely new, and from five to six hundred persons can be accommodated with comfort & ease; before leaving this portion of my subject, I will say that great credit is due to Mr. Montague of Petersburg, whose services have been procured, and who in the dispensing of the rooms, and every thing connected with the bar is done in the most satisfactory marrner: you have only to express to him a wish, and if possible 'tis

The properties of the water have been fully analyzed by the most scientific Chemists and duly set forth in Mr. Calvert's hand bills.

The Spring is within two hundred yards of the hotel, frequented by a walk, which is perfectly shaded at any time of the day, from the extended branches of the most majestic oaks that the eye ever rested on each bowing its lofty head as if to welcome the visiter as he passes by. The Spring House is near a beautiful stream known as Shocco Creek, the ripple of which in passing over its pebbly bottom, pierced by the descending sunbeam at quiet eve, lights up the whole of nature into

pleasing smile. The band is one of the best for a Ball room I have ever listened to, lead by Frank Johnson, who as a violinist is pretty generally known. The Polka was danced, beautifully pleasure to see at the Fauquier White Sult the authors of such a shoc phur. There were also many visitors the dictates of humanity, and the unive from Mississand the refined and enlighten- laws of modern war.

ed society, which constitutes the neigh. borhood of Shocco must ultimately redound to its prosperity.

I could but regret, when the moment arrived that my professional engagements called me from this delightful retrest, and was only consoled, by promising myself a renewal of my visit ere the season closed: le svan bliver Beileen BURCSAL oil

Aged Negroes .- A colored woman, named Dolly, belonging to the estate of Richard Wilder, of this County, died on the 2d inst. at the age of one hundred and twenty-one years. She survived her husband some three or four years, who was one hundred and nineteen at the time of his death. They lived together as man and wife nearly ninety years:

Johnny, the well known and fa servant of the late John Randolph, -who; with the other emancipated slaves of his master, went to Ohio and were there treated by the citizens in a manner of which onr readers have been apprised, has returned to Charlotte, with the intention of petitioning the Legislature to allow him to remain in the Commonwealth. He says they have no feeling for colored people in Ohio, and, if the Legislature refuse to grant his peitition, he will submit to the penalty of remaining and be sold as a slave preferring this to enjoying freedom in a free State. Large Defalcation .- Charleston has been in a state of high excitement in consequence of the defalcation and flight of Alderman McD-, a bank director, hitherto greatly respected in the community. It seems that Mr. McD. left several days since, ostensibly with the design of going to the Virginia Springs for the benefit of his health, having fixed a certain time for his return. Meantime, several of his notes became due and were protested, and the community at length began to suspect that all was not right. His limbilities are variously estimated. Some state the amount to be \$150,000, and others to \$250,000. He was married to a mulatto, by whom he had six children. His family have all left in the ship Anson, bound to New York. A police officer has been dispatched to New York to arrest them when they land, and take them back to Charleston. The direction taken by McD. is not known, a though it is suspected that he has gone to New Orleans. The State Bank of South Carolina is a large sufferer, as well as several brokers and merchants, personal friends of the defaulter.

The late Battles in India .- The Advocate of Peace for August, edited by Elihu Burritt, contains a letter publishe by a native of N. C., and a Lady from the Stamford Mercury (England) from Philadelphia, which was quite a treat to a Private, John Lum, dated the 5th of those who never saw it.
